

JOHN ALEXANDER STEELE
MARRIED
SALLY ANN JONES

JOHN AND MOSES STEELE

The John Steele, who married Lucy Moon, and Moses Steele that are listed in my book "MOSES HELM" on page 2, are not the same individuals listed in this film as (B2) and (B4). When the book was published the information that I had came from the STEELE FAMILY BIBLE. Since then documents have been located that identify John Alexander Steele (B2) and Dr. Moses Steele (B4) as brothers and the sons of Alexander Steele of Campbell County Virginia.

John Steele (S) listed in the book is from Campbell County Virginia and married Lucy Moon, he is probably a relative but I have not been able to determine just who his parents are, possibly a brother of Alexander Steele.

After listing all of the individuals in the Steele Bible it appears to me that this Bible, that has been called the Steele Bible, is in fact a Bible of the Matthew D. Irvin family. The wife of Matthew Irvin was Catherine Louise Steele the daughter of Alexander Steele Jr. The handwriting in the Bible that lists the dates for John and Moses Steele does not appear to be the same handwriting as that listing the Irvin family. I would guess that the information for the Steele family was added possibly at a much later date by an unknown person, that also confused the two John and Moses Steeles.

I have included the material, from my research, for John Steele and Lucy Moon at the very end of this collection of film under the identifier "S", in hopes that it will possibly help someone in the future who is researching this branch of the Steele family. The material is all correct except the fact that this John Steele is not the son of Alexander Steele who married Elizabeth Carson Helm.
