Dear Mrs. Franke,

I was pleased to receive the information from ~~me~~ you about the Taylor family. Yes, I am a ~~done~~ descendant of Joseph and Sarah West Taylor. I ~~did not~~ have not ~~extensive~~ extensive research on either the Taylors or the Cherrys. What I did ~~was~~ in connection with my research before writing a Stahl Family History. I am extremely proud of ~~both~~ my Taylor and Cherry heritage.

I am sending you some pages from the Stahl family history which I hope will be of assistance to you. One story is about George Washington Cherry and his wife Martha Frances Stahl. The other is about Benjamin Price Stahl and his wife Caroline Cherry. Benjamin and Caroline are my great grand parents. Benjamin was a brother to Martha Frances Stahl Cherry and Caroline was a niece to George Washington Cherry. This made ~~him~~ Benjamin an uncle of the famed Cherry Brothers and Caroline was their first cousin. You will recognize this when you read their stories.

There were two William Cherrys (father and son)
I do not have a copy of Jesse Warner's book on the "Conetoe Creek Taylors of N.C."

I certainly want to be notified of the date of the Taylor reunion in 1993. It will be a ~~great time~~ wonderful opportunity to meet kin I have never known. I have never known ~~of~~ any kin I did not love.

I do not know of anyone who has a picture of William/^{Cherry} or Frances Taylor. ~~Would~~ ~~like to have a copy of~~
I'm so glad you wrote to me. If I can be of further help to you in any way, please let me know.

One must not expect too much of any house. Nine strong sons compose a liberal contribution to man's welfare. One can but wish that the house were given the miracle of speech. How intimately, how finely, how inspiringly it could tell the story of that strong father and mother and those nine strong sons. Perhaps it is the story that the house, gaunt and old and senile now, whispers to the chill November wind as it blows about its corners in the silent hours of the night, too fine a story for gross human ears."

Fire razes log house ¹⁹⁷⁹

A two-story log-frame residence on Barren River Road was destroyed by fire early Saturday. The structure is reported to be the birthplace of Hardin Cherry, the first president of Western Kentucky University. The house, owned by Carlos and Patty DeJarnette, was already engulfed in flames when two units from the Barren River Volunteer Fire Department arrived at 1:30 a.m. The fire was thought to have started in a bathroom, according to a fire department official. Damage was estimated at \$50,000. There were no injuries in the blaze.

Dear Shari,

Thank you ever so much for your letter of April 29th in response to my letter to Gilberta. I am sorry to hear that Gilberta is so ill, she is a beautiful lady and I admire her very much. I met Gilberta through our DAR chapter in Hollywood. It was only after she moved that I found out she had a Taylor line.

I am enclosing some descendants from Cherry Cousins Clearing House Newsletter by John H. Cherry - 1308 Oakhurst Dr. - Southlake, TX 76092. He shows 16 children of (S)Lamuel Maund Cherry. He shows a child **Jesse Cherry** that is not listed in (S)Lamuel's will of July 1754, there are only 15 children named. July 1754 lists 15 children. He show a Jesse Cherry that is not listed in the will.

Also, I am enclosing family sheets of my Cherry and Taylor lines. Do you have any proof of the marriage of (S)Lamuel Maund Cherry and Gatsy Llewellyn marriage? And any proof of her being the father of Captain George Llewellyn?

I am not aware of the book "The Conetoe Creek Taylors" by Jesse Warner, and yes I would like a copy. Also, I would like a copy of the Wall Chart "Conetoe Creek Taylors of NC 1756-1856" with your notes of new information. I am enclosing \$20.00 for same and if this is not sufficient, please let me know. I know that xeroxing, postage etc. does add up.

Any way you can help will be greatly appreciated and if I can help in any way please let me know. Many thanks.

Best regards,

Tillie E. Moore

APPENDIX TO THE CHERRY COUSINS' CLEARINGHOUSE, Issue #5, April 1992

MORE DESCENDANT CHARTS

There are six charts presented in this appendix. Chart #1 is five generations beginning with John Cherry-35 (1619-1698). The other five charts connect to this first chart. There are notes to the right hand side of five individuals in this first chart indicating which chart to turn to for additional descendants. What we have presented here is the latest information from our data base. The main objective is to get this in front of all you Cherry researchers to find out if we are all in agreement, or not, so far. If any of you have any disagreements, concerns, questions or comments, please let us know as we are striving for accuracy and completeness. (We all know searching for ancestors is never complete).

There are many of you contributing to this information base. And what we are trying to do here is tie all these Cherrys together into one complete and accurate data base.

In charts 2 through 6 I have highlighted you cousins where I have you and your line of ancestors in the data base (I do hope I haven't missed anyone in these branches). We didn't have room in this issue to include all the branches we have to date. So, if you don't mind, we will rerun chart #1 again next issue and include other branches. So many of you have spent a lot of years compiling information about your branch of Cherrys, I really don't want to miss any of you in subsequent issues.

Again, as stated in the last issue of the newsletter, the number following an individual's name is my record index number (RIN). Each individual in the PAF data base is assigned a unique number to prevent persons with the same name from getting mixed up. I have included these RINs so if you make reference to someone, I can quickly and easily go to that record in the computer.

CHART #1

Descendants of John Cherry-35 (1619-1698). This John Cherry appears to be the first Cherry to America. He came to Lower Norfolk, VA in 1635 with Oliver Sprye. Here we are presenting five generations to check your charts against mine. Many, many people have contributed information about descendants of this John Cherry, Sr.-35 (1619-1698). Refer to notes on the right-hand side pointing to additional charts.

CHART #2

Descendants of William W. Cherry-4912 (1777-1849), son of Jonathan Cherry, Jr.-5130 (1754). William W. Cherry came from Martin Co., NC to Stewart Co., TN about 1810. Lawrence E. Saunders, Jr., Rt. 3 Box 203, Dover, TN 37058, has provided us with a great deal of information about the descendants of this William W. Cherry and his connection to Jonathan Cherry, Jr.-5130 (1754), Jonathan Cherry, Sr.-3096 (1734-1818) of Martin Co., NC. If any of you reader need information about the Cherrys of Stewart Co., TN, Mr. Lawrence E. Saunders says he is willing to help. Wi Lawrence's research into the ancestors of William W. Cherry, another large branch of Cherrys is connected all the way back to John Cherry-35 (1619-1698) of Lower Norfolk, Virginia.

CHART #4

Descendants of Samuel Maund Cherry III-328 (b. in Beaufort Co., NC), son of Samuel Maund Cherry II-311 (b. in Norfolk Co., VA) & Gatsy Llewellyn-313. There are a lot of credits to be given for the research done in this line. Most of you know of the book The Thigpen Tribe, by Alice W. Smith. But, we have several cousins descended from this Samuel, and they have contributed the most accurate, and the most complete data in this branch of the Cherrys. Our Cousins are: Doris B. (Little) Wilson, 403 South Main St., Robersonville, NC 27871; Miriam Jean (Cherry) Wynne, Rt. 1 Box 169, Bethel, NC 27812; and Marcus Cicero Stephen Cherry, 4020 Oleander Dr., P.O. Box 4088, Wilmington, NC 28406. Did I miss anyone? Thanks to all of you cousins.

CHART #5

Descendants of Lemuel Cherry-1793 (b. in Norfolk Co., VA), son of William Cherry-2895 (b. ca. 1710) & Elizabeth Manning-2896. Some of our researcher cousins who have worked on this branch and shared a great deal of data and information are LaVonne (Cherry) Ketchum, 36 Tarn Circle, Oroville, CA 95966; and Henry Clay Cherry, Jr., 845 Loma St., Redding, CA 96003. Mrs. Ketchum has contributed a lot of information for this branch of Cherrys.

Dear Cherry Family Member:

After five years researching and compiling OUR BRANCH OF THE CHERRY FAMILY TREE, we are now ready to accept orders from those who wish to obtain a copy or copies. Our mailing list for this letter is not complete. Please pass the word to your family of its availability.

The history begins with Robert Cherry (1750-1798) who was our first ancestor to come to this country from the County Antrim, Ireland. Information about him or his family is scarce, but we have gathered some which we think will be of interest to you.

One of Robert Cherry's sons was Gregory Cherry (1787-1873) who was born in this country to Lettice Leach Cherry, Robert's second wife. Gregory married Mary Culp Hyatt, and they had 12 children, two of whom died in infancy. We have information on the ten who survived, much of it being up to date.

Elijah Hyatt Cherry (1833-1875) was the fourth child born to Gregory and Mary Culp Hyatt. He married Mary Hyatt Jordan, and they had eight children, and we have up to date information on most of them.

This book has over 400, 8½ x 11 pages, and is loose leaf with sturdy binders. In addition to information given about family members, it has copies of pictures, letters, newspaper clippings and the like, which we think you will enjoy.

We have both gone to considerable expense to research, print and copy this material which we have compiled. We offer this history to you for \$35.00 a copy which includes the copying, packaging and mailing and is below our total cost. To protect this price, please send your check for \$35.00 per book made payable to Cherry S. Curtis to the address given below, to arrive no later than November 1, 1992. We aim to get your order to you in the month of November in plenty of time for Christmas giving.

Sincerely,

Cherry S. Curtis

Dear Cousin Shari:

Thanks very much for your letter of Oct. 25 and information shared about the Cherrys.

No, I am not a descendant of the early Cherry-Taylor families. However, I am a descendant of Robert Cherry, Sr., son of David and Margaret, apparently, Robert was a brother to William, Sr., your ancestor.

I wish you and the organizers well on the great reunion being planned for Sept. of next year!

All that you related about David and Margaret Cherry (my 4th great grandparents), I have come across before in my research. Other sources indicate that they never came to America but lived out their lives in Antrim County, Ireland. I have never been able to establish hard proof that they came to America. I still seek that proof through cemetery records, deeds, wills, ship records, etc. Should you learn of any such hard evidence I should like very much to have it.

I regret I cannot provide you with information on the descendants of William Cherry, Sr., brother to Robert, Sr., my ancestor. The history of the Cherrys which I came from begins with Robert, Sr. See copy of letter enclosed on the publication of that history.

I wish I knew more about the children of David and Margaret Cherry. I wonder if there were more children than William, Sr. and Robert, Sr.

I also wish I could be of help to you and your research on the Cherry-Taylor lines but I simply don't have anything to share with you at this time. However, I wish you the best of luck and good hunting, cousin Shari!

Again, many thanks for your good letter and enclosures.

Sincerely,

James Robert Cherry (Jr.)

P.S. I don't know how reliable it is but I have just found a record (source not noted thereon) that gives David and Margaret's children as Robert, George (who may have married Margaret Kirkpatrick, Chester County, Ireland), William, and James who married Jane Brown in Ireland. With respect to William, the record states he was a "Revolutionary soldier in Capt. Side's Company."
