## **PRESIDENT’S NOTES:**

I was pleasantly surprised with the turn out for the inaugural meeting and know our programs must be more than good to continue that level of participation. Our group is fortunate to have the mentoring of Dr. LaFantasie and the support of Western Kentucky University.

We actually came to blows 150 years ago on this day of April 12, 1861 and to me that’s the easiest certainty of Civil War history. The roots of the conflict certainly started with regional economic divergence and the ramifications will last as long as our Union. A wise man pointed out to me that before the War, we were “these” United States and only afterward “the” United States – the difference is huge and so is the fascination with this period in American history. I am glad we can share this in south central Kentucky and know it’s up to us to see that the BGCWRT out lives sesquicentennial of the War of the Rebellion or the Civil War or the War of Northern Aggression or whatever you call it at your house. It must be informative and should be fun.

## **Paymaster's Report:**

We have begun the process to satisfy both Federal and State requirement as we formally establish our nonprofit status. To date we have our EIN or Employer Identification Number which is issued to any business or group such as ours for the purpose of banking. We have established a free checking account with PNC Bank. In the coming months, there will be other "chores" necessary. This is not an overnight process but is worth the effort.

Thanks to Jeff Hayes for stepping out of his computer comfort zone to create our inaugural newsletter.
