Alma June 2017 Release Highlights

Dear Colleagues,

Our last release before Alma's **5th** birthday next month. How quickly the months and releases have gone by. So many new features have been added to Alma during these years – many of them originating from you – the Alma community – as **NERS** enhancements or as ideas posted to [Idea Exchange](#).

We are very excited to report that with the **June Release** the **ALMA New UX Focus Group** will have access to the new UX. In the coming months the new interface will also be made available to the whole Alma Community. Be sure to check the UX Rollout Plan [here](#).

Don't forget to take a look at our [July Sneak Preview](#). Our likes for July are the ****NERS**** enhancement related to **Expanded Repository Advanced Search Options** and the ****Idea Exchange**** item - **Read Only Attribute for Administrator Roles**.

What's new in the **June 2017 Release**?
