Rank and Promotion

Rank - Faculty Rank at Western Kentucky University is determined on the basis of criteria adopted by the Board of Regents. The criteria are as follows:

1. General Principles

   A. Introductory Statement:

   Faculty rank and promotions are to be determined objectively and impartially determined on the basis of merit. Promotion in rank is granted on the basis of demonstrated achievement and is not automatic with years of service. It is understood that the criteria stated below will serve as a guide in the assignment of academic rank. Justifiable exceptions to these principles may be made in extreme situations where there are unusual justifications.

   B. Factors Governing Employment and/or Promotions of Each Candidate:

   1. Acceptable character and personality.
   2. Loyalty to the policies of the University.
   3. Evidence of professional interest and growth.
   4. Evidence of effective teaching or service.
   5. To consider the evidence of faculty members for promotion in rank, periodic evaluations are made by the department head, the dean of the college, and the Vice President for Academic Affairs. Recommendations based upon these evaluations are forwarded to the President after review by the Council of Academic Deans. The President has the responsibility of making recommendations to the Board of Regents for final approval.
II. Specific Minimum Criteria for Individual Ranks

III. Procedures for Promotion

Each department of the University shall establish a Rank and Promotion Committee made up of the department members who are senior in rank to the candidate being considered for promotion. This Committee shall not include the department head.

Faculty members desiring promotion to a higher academic rank shall apply in writing to the department head who will refer the application to the department Rank and Promotion Committee. The department Rank and Promotion Committee will review all relevant factors and provide an advisory opinion to the department head. The department head will review all relevant factors and forward a recommendation (along with the advisory opinion of the department Rank and Promotion Committee) to the college dean who will in turn make a recommendation to the Vice President for Academic Affairs. The Vice President for Academic Affairs will review the college dean's recommendation and make a recommendation to the President. If the faculty member is not recommended for promotion, he/she will be so advised by the administrative official making such a recommendation.

The President shall appoint a University Rank and Promotion Review Committee from among the full-time, senior professors of the faculty. The President may convene the University Rank and Promotion Committee upon written request of the affected faculty member through the department head. The Committee will then review the procedures followed in considering the promotion application of a faculty member who was not recommended for promotion in rank in order to insure that due process was accorded the faculty member. The University Rank and
Promotion Review Committee will provide an advisory opinion to the President on the appropriateness of the procedures followed in the faculty member's case. If the President determines that proper promotion procedures were not followed, he may refer the promotion application to the appropriate administrative level for reconsideration.

After all reviews the President will make a decision as to making a recommendation for promotion to the Board of Regents.
