GRADUATE COUNCIL CHARTER
Western Kentucky University

Article 1: Purpose

The Graduate Council is the official representative voice of the graduate faculty and graduate students. The Graduate Council reports its policy and curriculum actions to the Dean of the Graduate School, who reports to the Provost, with recommendations for implementation or appropriate disposition. The Graduate Council informs the Faculty Senate Executive Committee on graduate curricular issues and other substantive changes.

The Graduate Council of Western Kentucky University shall:

1. Advise the Dean of the Graduate School on all matters relating to the administration of graduate education;
2. Develop research, curricular, and policy recommendations on all matters relating to graduate education including:
   a. research initiatives involving graduate faculty and graduate students;
   b. standards governing the establishment, modification and termination of all graduate programs, including cooperative graduate programs with other colleges and universities;
   c. standards governing graduate student admission, financial support, and degree completion;
   d. qualifications required for membership on the graduate faculty and participation in the graduate program, including the supervision and direction of theses and dissertations;
3. Serve as liaison between the individual colleges and the university administration.

Article II: Organization and Administration

Section 1: Membership

Graduate Council membership is comprised of three graduate faculty and one graduate student representing each of the six academic colleges at Western Kentucky University for a total of twenty-four (24) voting members. Faculty representatives must be members of the graduate faculty. Each Graduate Council member has one vote. If unable to attend, members may select an alternate member of the graduate faculty or graduate student respectively, to serve and proxy vote. Ex-officio members include the Dean of the Graduate School and one representative from the University Senate who is also a member of the graduate faculty.

Section 2: Selection and Terms

Members are selected through an election process determined by each college. The faculty representatives serve three-year terms and the graduate student representatives serve a one-year term. Elections shall be staggered so approximately one-third of faculty members are elected each year. Members may not serve more than two consecutive terms. All terms begin July 1 through June 30.

Section 3: Meetings

Graduate Council shall meet once each month of the academic year. Meetings will be conducted under Sturgis Standard Code of Parliamentary Procedure.

Section 4: Quorum

A quorum shall consist of a minimum of 50% +1 of the voting members. A majority vote of the members present for a quorum shall determine all actions.

Section 5: Agenda and Minutes
Agendas for upcoming meetings will be distributed at least three business days prior to monthly meetings. Minutes of Graduate Council meetings will be recorded by a staff member of the Graduate School.

**Article III: Officers**

Graduate Council officers shall include a Chair and a Vice Chair. Meetings shall be presided over by the Chair. The Vice Chair presides in the absence of the Chair and is the Chair-elect. In the event that neither the Chair nor the Vice Chair can preside over a meeting, the members present may select a member to preside. The Vice Chair will be elected at the last monthly meeting of the academic year for the upcoming academic year.

**Article IV: Committees**

Section 1: Standing Committees

1. Executive Committee shall initiate and guide the work of the Graduate Council. Membership of the Executive Committee shall include the Chair, Vice Chair, Chair of the Program and Curriculum Committee, Chair of the Policy Committee, Chair of the Research Committee, and the Dean of the Graduate School as an ex-officio member.

2. Program and Curriculum Committee shall review graduate program and curriculum proposals and make recommendations to the full council. Membership of the Program and Curriculum Committee shall include a minimum of three council members elected by the full membership with no more than one member from each college.

3. Policy Committee shall review policy and make recommendations to the full council. Membership of the Policy Committee shall include a minimum of three council members elected by the full membership with no more than one member from each college.

4. Research Committee shall review research initiatives and make recommendations to the full council. Membership of the Research Committee shall include a minimum of three council members elected by the full membership with no more than one member from each college.

Committee Chairs are elected at the first committee meeting.

Section 2: Ad Hoc Committees

As determined by Graduate Council in consultation with the Dean of the Graduate School, the Chair of Graduate Council may form additional committees or task forces. Ad hoc committees may not exceed one year in operation.

**Article V: Amendments**

These Bylaws may be amended at any regular or special Graduate Council meeting, provided members receive at least five (5) working days written notice prior to such a meeting that describes the amendment and its purpose. To approve an amendment to the Bylaws, a vote of 50% +1 of the entire Graduate Council is required.
Council on Postsecondary Education  
New Academic Programs: Policy and Procedures

The Council on Postsecondary Education has statutory authority to approve new academic programs at state colleges and universities. KRS 164.020 (15) empowers the Council to define and approve the offering of all postsecondary education technical, associate, baccalaureate, graduate, and professional degree, certificate, or diploma programs in the public postsecondary education institutions.

KRS 164.020 (19) allows the Council to postpone the approval of any new program at a state postsecondary educational institution, unless the institution has met its equal educational opportunity goals as established by the Council. In accordance with administrative regulations promulgated by the Council, those institutions not meeting the goals shall be able to obtain a temporary waiver if the institution has made substantial progress toward meeting its equal educational opportunity goals.

In September 2011, the Council approved a new policy and procedures for academic program approval at public institutions. The policy and procedures reflect best practices, reinforce state-level and institutional policies to create a more coordinated approach to academic programming, and better connect academic program approval with the review of existing academic programs.

The CPE academic program approval process consists of three stages.

**Stage 1 (Notification of Intent):** Institutions submit notices of intent for new academic degree programs for review by the CPE Executive Vice President and Chief Academic Officer. This information will be on two successive CCAO agendas as a necessary prequel to submitting the pre-proposal. This allows for inter-institutional discussion of a proposed program, before the public posting.

**Stage 2 (Pre-proposal):** Institutions submit information on the proposed program, such as justification for creating the program, evidence that the program is aligned with an institution’s mission, the state’s postsecondary education Strategic Agenda, and the statewide strategic implementation plan, student demand for the program, employment opportunities for graduates, evidence of sufficient resources to offer the program, and (if applicable) efforts to explore collaboration with other institutions with similar programs. This information will be posted for 45 days in order to allow comments from the Chief Academic Officers of institutions within the State, and the CPE Staff will work to resolve any issues that may arise.

**Stage 3 (Full Proposal):** If Council staff approves the pre-proposal, the institution will then submit, within eighteen months, a full program proposal that has been approved by the institutional governing board. After Council review, the program is placed on provisional status and will be subject to a post-implementation review after a period that depends on the level (e.g., baccalaureate, masters, doctoral) of the program.

**NOTE:** New programs are ≥ 30 credit hours at the undergraduate level, and ≥ 18 at the graduate level. Sub-Associate degrees require KCTCS BOR approval before CPE posting (all lower division credit hours).

Sub-Associate Degrees require KCTCS BOR approval before CPE Posting

**Post Implementation Review**— after 3 years for Associate, 5 Baccalaureate, 4 Master, and 3 + 3 for Doctoral

**SACSCOC & other accreditation agencies. that represent a substantive change from current programs require a SACS prospectus 3 months prior to implementation**

**CPE invites Full-proposal**

**CPE invites Full-proposal**
RETENTION TASK FORCE
RECOMMENDATION TO IMPLEMENT MULTI-TERM REGISTRATION
Endorsed by the Retention Task Force 14 November 2014

Pending consultation with and endorsement by the university Registrar, implement a system of multi-term (two-semester) scheduling and priority registration, operating on either a Fall/Spring or Spring/Fall cycle. Scheduling and registration for Winter and Summer terms would continue as currently exists.

Rationale: The current practice of priority registration and scheduling for the Fall and Spring semesters could be enhanced in terms of both student support/advising and operational efficiency through implementation of multi-term registration. Under the proposed scenario, simultaneous registration for either (1) the Fall and subsequent Spring, or (2) Spring and subsequent Fall semesters would be an option for students during the Spring or Fall Priority Registration periods, respectively. A similar program was recently initiated at Cleveland State University; Michigan State University has a similar program for combined summer and fall registration. The data indicate that 82% of undergraduate and 78% of graduate students take advantage of the multi-term scheduling option in the first year of implementation, Fall-to-Spring retention rates increased 3 ppt, and Fall-to-Fall retention increased 2 ppt. Cleveland State is also using the multi-term registration process to enhance class scheduling and degree-planning systems. All of these potential advantages exist for WKU; in addition, WKU’s policy on required advising and use of Platinum Analytics (neither of which are in place at Cleveland State) suggest even greater possible value.

Components:

1. Development of multi-term schedules for would follow the current process and final deadline for the relevant first semester. To address the additional workload associated with building a two-semester schedule, the process would be initiated earlier, with additional time allocated for each phase.

2. Recognizing that some unanticipated changes to the schedule for any term are inevitable, departments would be expected to develop schedules as close as possible to the anticipated final schedules for both terms. Addition of class sections would be permitted at any time, but deletions/changes to meeting day or time requested after the beginning of priority registration would be permitted only under limited circumstances, and once other options for retaining the original class section parameters had been exhausted. Room changes would continue to be dynamically assigned and adjusted in accordance with current practice.

3. Registration under the alternative Fall/Spring and Spring/Fall cycles:
   a. Under a Fall-and-subsequent Spring cycle, Fall incoming students as well as continuing students would be eligible to enroll for one or both available semesters. Spring incoming students would register for their first semester as currently practiced. During priority registration (beginning in March), these and all continuing students would be eligible to enroll for Fall and the subsequent Spring. Priority registration would continue to follow policies and procedures described in WKU Policy 1.3140.
   b. Under a Spring-and-subsequent Fall cycle, Fall incoming students would register for their first semester via ATP or other means as currently practiced. During Priority Registration (beginning in November), these and all continuing students would be eligible to enroll for Spring and the subsequent Fall. Students entering WKU in the Spring would be eligible to enroll for both the Spring and subsequent Fall semesters. Priority registration would continue to follow policies and procedures described in WKU Policy 1.3140.

4. Students would still be required to meet with their advisor each semester, even if they elect to participate in multi-term registration. For such students, advising during the non-registration semester would involve confirming/adjusting course enrollments for the upcoming semester and, more importantly, provide greater opportunity for formative advising and consultation.

5. Billing and distribution of financial aid would still occur on a semester-by-semester basis.

Potential Advantages:

1. Students would be better able to manage their degree planning, as schedules for the upcoming two semesters would be available during the advising period. Faculty and departments would be positioned to more efficiently and effectively manage their class scheduling and workload assignments, for the same reason. Degree planning and class scheduling by students and their advisors would be further enhanced through implementation of comprehensive prerequisite-checking (see Challenges below).
2. New students would establish a stronger connection to WKU and their degree program earlier in their careers, which might yield a retention advantage.
3. There is greater opportunity for more formative advising of students during the non-registration semester.
4. Multi-term registration enables more effective implementation of a managed wait-list system and class schedule management via Platinum Analytics.

Challenges:

1. Multi-term registration requires additional back-end work by the Office of the Registrar (cleaning up of class rolls, communication with students, etc.), which in turn would be facilitated by comprehensive implementation of prerequisite-checking.
2. A Fall/Spring cycle likely necessitates holding some seats in reserve for incoming students, as ATPs continue well past the Priority Registration period. A Spring/Fall cycle eliminates some of the difficulties associated with registration of incoming students that exist under a Fall-Spring cycle. This might be best accomplished by utilizing predictive analytics.
3. Consideration of students needing to re-take majors courses that are part of a defined sequence will need to be addressed. This might be best accomplished by utilizing predictive analytics to hold a small number of seats for these students, as well as through implementation of a robust wait-list system.
4. Under a Spring/Fall cycle, sabbatical requests for the following Fall semester would still be pending at the time departments build the schedule; as such, departments would need to anticipate and plan for both possible outcomes of Fall sabbatical requests. Staffing plan requests for the following Fall semester would need to be factored into the schedule-building process as well.
5. Currently, registration holds are placed on students for various reasons, including outstanding account balances and fines. Thought would need to be given as to how best to maintain appropriate accountability on students during the non-registration semester.

Submitted for approval on Behalf of the Retention Task Force:

Doug McIlroy, AVPAA

Recommended/Not Recommended:

Brian Meredith, Chief Enrollment and Graduation Officer

07 January 2015

Approved/Not Approved:

A. Gordon Emslie, Provost and VPAA
Course Title and Number: NURS 560 Curriculum Development in Nursing Education
Credit Hours: 2

Course Description: Provides the theory and process to develop, design, and evaluate nursing curricula. The use of curriculum accreditation standards that guide curriculum development and evaluation is studied to direct nursing faculty in curriculum development.

Course Information: This is a web-based course. Designed for students preparing for the nurse educator role in the MSN - nurse educator concentration. Also provides any current nurse educator the opportunity to learn theory and build competencies to participate knowledgeably in the design, implementation, and evaluation of nursing curricula in schools offering both undergraduate and graduate nursing programs.

Faculty: Current Nurse Educator Faculty
Office Hours: This is an online course. Virtual and face-to-face office hours will be posted by faculty.

Course Objectives:
- Examine the historical and philosophical foundations of nursing education curricula.
- Critically analyze current educational and nursing research for implications on curriculum development.
- Analyze the impact of socio-political, cultural, technological, environmental, and regulatory factors on curriculum development and evaluation.
- Apply selected theories to the curriculum development process in the design of a selected curriculum component.
- Examine evaluation methods used to assess curriculum designs.

Content Outline:
I. Introduction to curriculum development and approaches
   a. History
   b. Curriculum development & approval in changing educational environments
   c. Role of faculty in curriculum development and evaluation
II. Learning Theories, educational taxonomies, and critical thinking in nursing
    a. Learning theory applied to curriculum development
    b. Contextual design with taxonomies to promote critical thinking
III. Needs assessment in nursing curriculum development
    a. External factors
    b. Internal factors
    c. Finance and budget management
IV. Application to Nursing Education
    a. Component of the curriculum
    b. Curriculum for programs: associate degree, baccalaureate, graduate, staff development
V. Program Evaluation & Accreditation
    a. Program Evaluation
    b. Planning for accreditation
VI. Issues & Trends
    a. Informatics and technology
    b. Research
    c. Challenges for nurse educators.

Evaluation Methods:
- Online activities such as discussion boards, group work and critical thinking exercises (30% of grade)
- Paper: Major paper on application and evaluation of a selected curriculum model (35%)
- Quizzes or brief writing exercises (35%)
**Required Texts/Materials:**

Other required materials (available free online)

**Course Policies:**
Refer to the WKU School of Nursing Graduate Handbook and Graduate Catalog.
CD 557 Syllabus
Contemporary Issues in Communication Disorders: Autism Spectrum Disorders Theory and Application
Summer 2015

Kimberly Green M.A., CCC-SLP
Office: Rm. 108-A Academic Complex
Phone: 270-745-4303; Fax: 270-745-3441
E-Mail: kimberly.green@wku.edu
Office Hours: Tuesdays/Wednesdays 9:00 am-2:00 pm Central, or by appointment. Hours subject to change. Call or email if you would like to schedule an appointment for a day/time outside of those posted.

*Additional reading will be required.

Course Meeting Dates: TBD

Course Description:
This course will provide most current research findings and best practices in the development of strategies for speech-language pathologists to assess and treat the social and communication needs of those with autism spectrum disorders. Theories of causation, developmental aspects, descriptive and diagnostic characteristics, and legal and social issues are discussed.

Modes of Instruction and Communication:
Instruction will be via online lectures, internet exploration, independent learning activities and assigned readings. Student WKU email addresses are the ONLY ones to which class correspondence will be sent. Students are responsible for checking their email and the Blackboard course site regularly.

Learning Objectives
Throughout this course, students will:

1. Develop an understanding of pertinent background information and the major etiologies of ASD in children and adults
   KASA Standard III B., III C.

2. Develop an understanding of the impact of ASD and any adverse effect on the learning process
   III C., III D.

3. Plan, implement, evaluate and modify intervention strategies
   III D.

4. Develop an awareness of issues pertinent to service delivery such as cultural diversity, behavior management, and collaboration
   III D.

5. Develop strategies for the prevention of language disorders
   III D.

6. Develop appropriate knowledge and skills in professional issues
   IV - G. (3)

**The instructor reserves the right to make changes to the topic schedule or point value for assignments based on schedule and/or class needs.

EVALUATION OF STUDENT ACHIEVEMENT:

Attendance (30 points)
Students are expected to attend any synchronous chats as well as access Tegrity lectures and other resources posted on Blackboard.

Blackboard Assignments (70 points)
Students will complete varied assignments provided on Blackboard. Detailed requirements for assignments will be provided via Blackboard.

Research Paper (100 points)
Students will write a research paper synthesizing published articles and related sources on autism. This project requires the search and analysis of the literature, integration of information and reporting functions. The paper should reflect current information regarding autism research, level of evidence, as well as the impact on our professional knowledge base. Detailed requirements for this assignment will be provided via Blackboard.

Research Presentation (100 points)
Students will select a topic of interest within ASD and develop a presentation to be shared with the class. The topic should differ from the research paper topic and must be approved by the instructor. The research-rich presentation must integrate multiple sources and include an analysis their importance to the knowledge base. The final product will contain 2 parts: 1) PowerPoint slides and 2) a recorded presentation by the student on the selected topic. The recording may be audio with the slides OR video of the student presenting the topic with the slides. All submitted presentations will be compiled and made available to the class. Detailed requirements for this assignment will be provided via Blackboard.

Mid-term and Final Examinations (100 total points)
Students will complete a mid-term (worth 50 points) and a final examination (worth 50 points) to assess on-going learning, retention, and application of knowledge.

Grading Scale:
Grades are based on the total percentage of points earned. This means that your grade equals earned points/total points. There are 400 total points possible. Grading is as follows:

A  93-100% (370-400 pts)
B  85-93% (338-369 pts)
C  77-84% (306-337 pts)
D  69-76% (274-305 pts)
F  68% and below (273 pts and below)

Technology Management:
This course will include use of Blackboard software. Managing student technology is the sole responsibility of the student. The student is responsible for making sure that: (a) student word processing software is compatible with that used by the University; (b) student email software is working properly and that students know how to use it (e.g., to send attachments to the professor); (c) Internet service providers’ equipment and software are installed and working properly in conjunction with student computers; (d) in the event that a student’s computer stops working properly or becomes totally inoperative, the student has another means by which he or she can successfully complete the course; and (e) any other student technology problem or issue gets successfully resolved; this in part implies that if a student cannot resolve any personal technology difficulties, his or her only workable solution may be to drop the course. Please familiarize yourself with the business hours of WKU’s IT help desk as well as the website and alternative means of communication with the IT department.

Technology Management:
This course will be presented using Blackboard software. Managing student technology is the sole responsibility of the student. The student is responsible for making sure that: (a) student word processing software is compatible with that used by the University; (b) student email software is working properly and that students know how to use it (e.g., to send attachments to the professor); (c) Internet service providers’ equipment and software are installed and working properly in conjunction with student computers; (d) in the event that a student’s computer stops working
properly or becomes totally inoperative, the student has another means by which he or she can successfully complete the course; and (e) any other student technology problem or issue gets successfully resolved; this in part implies that if a student cannot resolve any personal technology difficulties, his or her only workable solution may be to drop the course. Please familiarize yourself with the business hours of WKU’s IT help desk as well as the website and alternative means of communication with the IT department.

The IT Help Desk can be reached at 270-745-7000.

Policies:

Attendance and Classroom Participation

Attendance and classroom participation are essential for the successful completion of this course. Feel free to ask questions or express concerns outside of the class structure. However remember that if you have questions, others may have similar concerns so please post to the discussion board when applicable. Asking questions on discussion board will help facilitate your learning and often stimulate discussion. There is no opportunity for make-up work.

Plagiarism:  

*From the Faculty Handbook:* To represent ideas or interpretations taken from another source as one’s own is plagiarism. Plagiarism is a serious offense. The academic work of students must be their own. Students must give the author(s) credit for any source material used. To lift content directly from a source without giving credit is a flagrant act. To present a borrowed passage after having changed a few words, even if the source is cited, is also plagiarism.

Student Disability Services:

In compliance with university policy, students with disabilities who require accommodations (academic adjustments and/or auxiliary aids or services) for this course must contact the Office for Student Disability Services in DUC A-200 of the Student Success Center in Downing University Center. Contact Matt Davis at 270.745.5004 or matt.davis@wku.edu. Please DO NOT request accommodations directly from the professor or instructor without a letter of accommodation from the Office for Student Disability Services.

Grievance:

The Department of Communication Disorders is accredited by the Council on Academic Accreditation (CAA) in Audiology and Speech-Language Pathology. Complaints about programs must be signed and submitted in writing to the Chair, Council on Academic Accreditation in Audiology and Speech-Language Pathology, American Speech Language-Hearing Association, 2200 Research Boulevard, Rockville, MD 20850-3289. The complaint must clearly describe the specific nature of the complaint and the relationship of the complaint to the accreditation standards, and provide supporting data for the charge. The complainant's burden of proof is a preponderance or greater weight of the evidence. Complaints will not be accepted by email or facsimile. The University’s Grievance Policy is specified at the following URL: 

SLP 558- Interprofessional Practice Across the Lifespan
Summer 2015 – Campus Cohort
Monday and Thursday, 6:30 p.m. to 8:00 p.m. CST

Instructor: C. Allison Hatcher, M.S., CCC-SLP, Part-Time Faculty and Clinical Supervisor
Office: Health Sciences #1096
Office hours: Monday and Thursday: 1:00 to 4:00 p.m. CST; Other hours available by appointment
Phone number: 270.745.4164
Email: courtney.hatcher@wku.edu

Co-instructor: Jo Shackelford, Ed.D, CCC-SLP, Assistant Professor & Pre-SLP Program Coordinator
Office: Academic Complex # ______
Office hours:
Phone number: 270.745.4306

Catalog Course Description:
Students will learn principles of interprofessional (IP) collaboration and will explore roles of family/caregivers and health care and educational professionals. Course content will include interprofessional communication, decision making, and collaborative team problem solving as it relates to a variety of settings across the lifespan.

Prerequisite: Instructor permission

Upon completion of the course, students will be able to demonstrate:

<table>
<thead>
<tr>
<th>KASA Standard</th>
<th>Core Objective Addressed</th>
<th>Evaluation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Standard IV-G: The applicant for certification must complete a program of study that includes supervised clinical experiences sufficient in breadth and depth to achieve the following skills outcomes (in addition to clinical experiences, skills may be demonstrated through successful performance on academic course work and examinations, independent projects, or other appropriate alternative methods):</td>
<td>1b, 1g 2a, 2g</td>
<td>Projects, discussion, examination</td>
</tr>
<tr>
<td>3. Interaction and Personal Qualities</td>
<td>a, b, c, d</td>
<td>Examination, presentations</td>
</tr>
</tbody>
</table>

Learning Outcomes
- Students will understand the concept of interprofessional teamwork and the evidence base that supports its effectiveness
• Students will demonstrate knowledge of roles of professionals, patient/client, and family members with whom they will collaborate (healthcare and educational professionals, their scope of practice, settings in which they work, and role of families/caregivers)

• Students will learn communication strategies and tools for effective interprofessional collaboration (communication, conflict management and negotiation)

• Students will demonstrate skills needed to engage parents, patients/clients, and related professionals during assessment and treatment of clients across the lifespan.

• Students will be introduced to the concepts of and strategies for leadership and membership

Text
Required:
June 2013 issue of The ASHA Leader, focus on interprofessional collaboration (accessible from: http://leader.pubs.asha.org/issue.aspx#issueid=929387)

Recommended Readings (to be posted on Blackboard):
4. Additional readings may be assigned over the course of the semester and posted on Blackboard.

* Students are expected to search out additional articles and learning resources to meet each case’s individual and team learning objectives.

Internet
Your secure WKU email address is the only one to which class correspondence will be sent. It is expected that you will check that account regularly. Furthermore, you will need to check the Blackboard site regularly in case additional assignments and materials have been posted.

Modes of Instruction
Class lectures, discussions, video modules, demonstrations and practice will be the modes of instruction. Adobe Connect Pro will be used to deliver lectures so you will need a computer with a reliable internet connection that includes a microphone and speakers in order to fully participate in class.

EVALUATION OF STUDENT ACHIEVEMENT

IP Quizzes (25 total points) – A total of five, 5-point IP quizzes will be posted to Blackboard over the course of the semester as determined by the instructor. Quiz questions will be based on topics discussed in the chats, readings, assignments, and the student’s clinical experience.

Discussion Board (50 points) - Each week, two questions will be posted to the discussion board. Each student is expected to respond to ALL questions. An adequate response will be related to the question and demonstrates a thorough understanding of the concepts. The questions will be based on topics discussed in the chats, readings, assignments, and/or the student’s clinical experience. Responses are due by 11:59 p.m. CST on Sunday. Any responses that post after the reported time will be considered late and no credit will be awarded. It is strongly
suggested that you respond well in advance of the deadline. While it is understandable that emergencies (personal, familial, technical, weather, etc.) happen, no emergency or circumstance will exempt a student from adhering to the timeline or minimum number of responses required. If your response is not acceptable, you will be notified so that you can possibly modify it before the due date. You must respond to ALL questions. Extra points may be awarded to additional posts in response to peers’ posts, depending on quality and respectfulness of content.

**IP Team Project (100 points)**

Teams will be assigned of approximately 6-8 students and will be representatives from the different professions, with at least 5 different professions represented on each team. The mock interprofessional teams will work through hypothetical case studies with the emphasis placed on team learning in a health care context. Each team will have a one facilitator and will meet over the course of 3 weeks as needed. Seeking out support from trained faculty at the university is encouraged. The interprofessional teams have two parallel learning activities: (a) Team process – acquiring knowledge about team building and practicing group process skills while performing the team tasks; and (b) Team task – acquiring knowledge and making decisions in order to manage patient or family center health care per case studies. The facilitator’s will guide their team through the project’s term and will keep the group “on task”. All decisions and outcomes for each case are up to the team. Team effectiveness and individual member participation must be demonstrated throughout the small group process.

Evaluation can be a powerful learning tool. With the focus of this project being on team work, how the group functions as a team will be evaluated. Several factors influence the success of the team including discussing, participating, listening, problem solving, and presenting. Be mindful that each individual contributes to the success of the team outcome. At the close of this project, students will discuss their performance as a team utilizing the “Team Evaluation” form. The facilitator will also provide feedback utilizing the same form. All team members will have the opportunity to discuss patient scenarios as means to evaluate if learning objectives have been met.

**Final Exam (100 points)** There will be 25 multiple choice questions and 5 open response questions covering information across the entire semester. You can take it one time so make sure that you arrange to take it at a time when you can complete it at one time, free from distractions or anything that would interfere with the test taking process. You will have 60 minutes to take the exam. Information will come from the readings, notes, videos, and information covered in chats. The exam will load to Blackboard at noon on July 6; it will be due by noon on July 10.

**POLICIES**

**Attendance and participation**

Attendance and classroom participation are essential for the successful completion of this course. Classroom (chat) discussion is important. It is expected however, the discussions will be between a student and the entire class, not just one or two people. Private discussions during chats are distracting to the instructor and to class members. There will be point deductions for assignment tardiness. All assignments are due by 11:59 p.m. CST on the due date unless otherwise indicated. There will be a 10% per week penalty for late assignments.

**Communication**

Every effort will be made to answer emails and voice messages within 24 hours, Monday through Friday, unless an away notice is posted and/or announced. Emails and phone calls will rarely be answered on Saturday or Sunday.

**Plagiarism**

*From the Faculty Handbook:* To represent ideas or interpretations taken from another source as one’s own is plagiarism. Plagiarism is a serious offense. The academic work of students must be their own. Students must give the author(s) credit for any source material used. To lift content directly from a source without giving credit is a flagrant act. To present a borrowed passage after having changed a few words, even if the source is cited, is also plagiarism.

**Student Accessibility Resource Center (SARC)**

The purpose of SARC is to coordinate services and accommodations for students with documented disabilities. Therefore, students with disabilities who require accommodations (academic adjustments and/or auxiliary aids or services) for this course must contact the Student Accessibility Resource Center (SARC) located on the first floor of the Downing Student Union, 1074. The SARC telephone number is (270) 745-5004 and TDD is 745-3030; fax is 745-6289. Office hours are 8:00am-4:30pm. Email is sarc@wku.edu. Please DO NOT request accommodations directly from the professor or instructor without a letter of accommodation from SARC.

**Grievance**

The Department of Communication Disorders is accredited by the Council on Academic Accreditation (CAA) in Audiology and Speech-Language Pathology. Complaints about programs must be signed and submitted in writing to the Chair, Council on Academic Accreditation in Audiology and Speech-Language Pathology, American Speech
Language-Hearing Association, 2200 Research Boulevard, Rockville, MD 20850-3289. The complaint must clearly describe the specific nature of the complaint and the relationship of the complaint to the accreditation standards, and provide supporting data for the charge. The complainant's burden of proof is a preponderance or greater weight of the evidence. Complaints will not be accepted by email or facsimile.

The University’s Grievance Policy is specified at the following URL: https://www.wku.edu/oo/documents/adaservices/universityadaservicesgrievancespolicyandprocedure.pdf

See the Blackboard Course Information section for additional policy information.

**Grading Scale**: Grades are based on the total percentage of points earned. This means that your grade equals earned points/total points. Grading is as follows:
- A 93-100
- B 85-92
- C 77-84
- D 68-76
- F below 68

Tonya Bragg-Underwood, tonya.bragg-underwood@wku.edu, 270-745-4377

1. Identification of course
   1.1 Course prefix and number: NUR 517  
   1.2 Course title: Advanced Applied Pharmacology

2. Proposed change(s):
   2.1 course number: NURS 513  
   2.2 course title: Advanced Pharmacology for Nurse Educators  
   2.3 credit hours: 2  
   2.4 grade type:  
   2.5 prerequisites:  
   2.6 corequisites:  
   2.7 course description:  
   2.8 other:

3. Rationale for revision of course:
   - After teaching NURS 517 for four years, a reduction of one hour is needed to omit content that is covered in other nurse educator courses related to teaching strategies. The core content related to pharmacology is unchanged. The course number is changed to prevent confusion with previous course.

2. Term of implementation: Fall 2015

3. Dates of committee approvals:
   
   SON Graduate Committee  
   02/03/2015

   CHHS Graduate Curriculum Committee  
   02/23/2015

   Graduate Council

**Date:** February 3, 2015  
**College, Department:** CHHS - SON  
**Contact Person:** Beverly Siegrist, beverly.siegrist@wku.edu, 270-745-3490  
Tonya Bragg-Underwood, tonya.bragg-underwood@wku.edu, 270-745-4377

1. **Identification of course**
   1.1 Course prefix and number: NURS 518  
   1.2 Course title: Clinical Teaching in Nursing

2. **Proposed change(s):**
   2.1 course number: NURS 531  
   2.2 course title: Clinical Teaching in Nursing Education (Clinical Teaching Nsg Ed)  
   2.3 credit hours: 2  
   2.4 grade type:  
   2.5 prerequisites:  
   2.6 corequisites:  
   2.7 course description:  
   2.8 other:

3. **Rationale for revision of course:**
Due to changes in healthcare, it is necessary to make changes that narrow focus in the field of nursing education. Clinical teaching will be reduced to a two hour course to correspond with the addition of other two hour nurse educator courses. For example: a new course proposed is technology in healthcare that will cover some topics that were previously covered in clinical teaching in nursing; such as, simulations.

4. **Term of implementation:** Fall 2015

5. **Dates of committee approvals:**

   SON Graduate Curriculum  
   CHHS Graduate Curriculum Committee  
   Graduate Council  
   University Senate

   02/03/2015  
   02/23/2015

Date: February 3, 2015
College, Department: CHHS - SON
Contact Person: Beverly Siegrist, beverly.siegrist@wku.edu, 270-745-3490
Tonya Bragg-Underwood, tonya.bragg-underwood@wku.edu, 270-745-4377

1. Identification of course
   1.1 Course prefix and number: NURS 606
   1.2 Course title: Advanced Clinical Practice

2. Proposed change(s):
   2.1 course number:
   2.2 course title:
   2.3 credit hours: 1
   2.4 grade type:
   2.5 prerequisites:
   2.6 corequisites:
   2.7 course description:
   2.8 other:

3. Rationale for revision of course:
   • After teaching NURS 606 for four semesters, a reduction of one hour is recommended by the course faculty and students. This is a clinical course in which the student implements a population health plan in a variety of settings. The related didactic course, NURS 605, requires that the student apply content by developing an intervention project for a patient population of the student’s choice. By the conclusion of the course the planning for the project to be implemented in NURS 606 is complete. Currently the course required completion of 2 credit hours or 120 contact hours. Decreasing the credit hour to 2 or 60 contact hours is better reflective of the necessary time to complete the planned project.

6. Term of implementation: Fall 2015

7. Dates of committee approvals:

   SON Graduate Committee 02/03/2015
   CHHS Graduate Curriculum Committee 02/23/2015
   Graduate Council
   University Senate

*Course revision proposals require a Course Inventory Form be submitted by the College Dean’s office to the Office of the Registrar.
Create a New Course  
(Action)

Date: February 3, 2015  
College, Department: CHHS - SON  
Contact Person: Beverly Siegrist, beverly.siegrist@wku.edu, 270-745-3490  
Tonya Bragg-Underwood, tonya.bragg-underwood@wku.edu, 270-745-4377

1. Proposed course:
   1.1 Course prefix and number: NURS 519
   1.2 Course title: Advanced Pathophysiology for Nurse Educators
   1.3 Abbreviated course title: Adv Patho for Nse Educators
   1.4 Credit hours: 2
   1.5 Variable credit: (No):
   1.6 Repeatable: No
   1.7 Grade type: Standard Letter Grading
   1.8 Prerequisites: Admission to MSN program or permission of instructor
   1.9 Corequisites: None
   1.10 Course description:
       Normal physiological and pathophysiological mechanisms of disease are used to explain human responses to potential and actual health problems across the lifespan as a foundation for the nurse educator to educate nursing students.
   1.11 Course equivalency:  
       NURS 500 (Advanced Physiological and Pathophysiological Concepts) with advisor approval

2. Rationale:
   2.1 Reason for developing the proposed course:
       • To specifically address the nurse educator needs of advanced applied pathophysiology and the instruction of related content to nursing students.
   2.2 Relationship of the proposed course to other courses at WKU:
       • This course includes selected content found in NURS 500 (Advanced Physiological and Pathophysiological Concepts), but has a narrowed focus for the nurse educator instead of the nurse practitioner which also focuses on diagnoses and treatment of diseases.

3. Discussion of proposed course:
   3.1 Schedule type: L – Lecture
   3.2 Learning Outcomes:
       • Compare and contrast physiologic changes over the lifespan.
       • Analyze the relationship between normal physiology and pathological phenomena produced by altered states across the lifespan.
       • Analyze and apply current research-based knowledge regarding pathological changes in selected disease states.
       • Describe the developmental physiology, etiology, pathogenesis, and clinical manifestations of commonly found altered health states.
       • Develop a framework to assess, monitor and evaluate client responses.
       • Analyze responses to illness and treatment modalities using a holistic approach.
3.3    Content outline:
   I.   Introduction to cellular biology:
      a.   Normal and altered cellular and tissue biology
      b.   The cellular environment: fluids, electrolytes, acids and bases
   II.  Introduction to genetics:
      a.   Genes and genetic diseases.
      b.   Genes, environment-lifestyle and common diseases
   III.  Mechanisms of self-defense:
      a.   Innate immunity – inflammation
      b.   Alterations in immunity and inflammation
      c.   Infection
   IV.   Cellular proliferation: Cancer
      a.   Cancer biology and epidemiology
      b.   Cancer in children
   V.    The neurologic system
   VI.   The endocrine system
      a.   Mechanisms and alterations of hormonal regulation
   VII.  The reproductive systems
      a.   Structure and function of the reproductive systems
      b.   Alterations of the female and male reproductive systems
      c.   Sexually transmitted infections
   VIII. The hematologic system
      a.   Structure, function and alterations of the hematologic system
   IX.   The cardiovascular, lymphatic and pulmonary systems
      a.   Structure, function and alterations in the cardiovascular, lymphatic and pulmonary systems
      b.   Alterations in cardiovascular, lymphatic and pulmonary systems in children
   X.    The renal, urologic and digestive systems
      a.   Structure and function of the renal, urologic and digestive systems
      b.   Alterations of the renal, urologic and digestive systems
      c.   Alterations of the renal, urologic and digestive systems in children
   XI.   Musculoskeletal and integumentary systems
      a.   Structure and function of the musculoskeletal and integumentary systems
      b.   Alterations of the musculoskeletal and integumentary systems
      c.   Alterations of the musculoskeletal and integumentary systems in children

3.4    Student expectations and requirements:
   •   Online participation
   •   Discussion boards
   •   Exams

3.5    Tentative texts and course materials:

4.    Budget implications:
   4.1   Proposed method of staffing: current faculty
4.2 Special equipment, materials, or library resources needed: N/A

5. **Term for implementation:** Fall 2015

6. **Dates of committee approvals:**
   - SON Graduate Committee: 02/03/2015
   - CHHS Graduate Curriculum Committee: 02/23/2015
   - Graduate Council: 
   - University Senate: 

**New course proposals require a Course Inventory Form be submitted by the College Dean’s office to the Office of the Registrar.**
Create a New Course
(Admin)

Date: January 22, 2015
College, Department: College of Health and Human Services, School of Nursing
Contact Person: Eve Main, eve.main@wku.edu

1. Proposed course:
   1.1 Course prefix and number: NURS 521
   1.2 Course title: Statistics in Health Care
   1.3 Abbreviated course title: Statistics in Health Care
   1.4 Credit hours: 3 hours
   1.5 Variable credit (yes or no): No
   1.6 Repeatable (yes or no) for total of ___ hours: No
   1.7 Grade type: Standard Letter Grade
   1.8 Prerequisites: None
   1.9 Corequisites: None
   1.10 Course description: Fundamental statistical concepts and techniques addressed include levels of measurement, measurement reliability and validity, and common statistical techniques. The emphasis will be on the application of statistics in health care research to improve clinical outcomes.
   1.11 Course equivalency: None

2. Rationale:
   2.1 Reason for developing the proposed course: This course was developed following consultation with the department of Public Health. Historically the majority of MSN and DNP students have taken PH 520, however over the past 1-2 years students in nursing have been enrolled in one section and students in public health majors have been enrolled in another section due to differing teaching methods and practical application of content.
   2.2 Relationship of the proposed course to other courses at WKU: This course has been developed to specifically meet the needs of graduate nursing students in consultation with Dr. Colin Farrell, the current instructor of PH 520. It is planned that he will be the instructor in NURS 521.

3. Discussion of proposed course:
   3.1 Schedule type: L
   3.2 Learning Outcomes:
      - Demonstrate understanding and application of descriptive/inferential statistics in health care research.
      - Interpret statistical results and identify clinical outcomes.
      - Critique current health care research for appropriate statistical application.
   3.3 Content outline:
      I. Preliminary Analyses of Data
         a. Level of Measurement
         b. Descriptive Statistics
         c. Percentages, Percentile, Histograms, and Line Graphs
      II. Probability and Nonprobability Sampling Methods
      III. Understanding the Sampling Section
         a. Sample criteria
         b. Sample size
c. Refusal rate
d. Mortality rate

IV. Validity and Reliability

V. Statistical Techniques to Compare Groups
   a. Non-parametric Statistics
   b. t-tests
   c. Analysis of Variance

VI. Statistical Techniques to Explore Relationships Among Variables
   a. Pearson’s Product-Moment Correlation Coefficient
   b. Partial and Multiple Correlations
   c. Simple Linear Regression
   d. Multiple Linear Regression

3.4 Student expectations and requirements: Students will have assigned readings, written application assignments, article critiques, and two examinations.

3.5 Tentative texts and course materials:

4. Budget implications:
   4.1 Proposed method of staffing: current Public Health faculty
   4.2 Special equipment, materials, or library resources needed: n/a

5. Term for implementation: Fall 2015

6. Dates of committee approvals:

   School of Nursing                        January 22, 2015
   CHHS Graduate Curriculum Committee       02/23/2015
   Graduate Council                         
   University Senate

   1.8 Prerequisites: Admission to MSN program or permission of instructor
   1.9 Corequisites: n/a
   1.10 Course description: Provides an overview of the role of the nurse educator in academic settings. Includes selected topics relevant to successful transition to an academic role such as legal, ethical, and professional issues.
   1.11 Course equivalency: n/a

2. Rationale:
   2.1 Reason for developing the proposed course: Part of a revision of the MSN Nurse Educator concentration to more clearly identify how the program develops the National League for Nursing (NLN) Core Competencies for Nurse Educators.
   2.2 Relationship of the proposed course to other courses at WKU: Includes selected content found in NURS 520 Teaching in Schools of Nursing and NURS 508 Adv. Professional Issues.

3. Discussion of proposed course:
   3.1 Schedule type: L
   3.2 Learning Outcomes:
      - Discuss the NLN Core Competencies for Nurse Educators as the basis for practice as a nurse educator in academic and practice settings.
      - Differentiate between the role of the nurse in practice and academic settings.
      - Analyze legal, ethical, professional and other issues impacting nurse educator professional practice.
   3.3 Content outline:
      I. Transitioning to the role of nurse educator
         a. Discuss NLN Core Competencies for Nurse Educators
         b. Role of nurse as faculty in academe
            i. Job expectation
            ii. Role transitions
            iii. Career planning
      II. Legal, ethical, professional issues
         a. Selected legal issues
         b. Selected ethical issues
         c. Selected professional issues
3.4 Student expectations and requirements:
- Papers: Competency self-assessment and career plan
- Discussion boards and online activities

3.5 Tentative texts and course materials:

4. **Budget implications:**
4.1 Proposed method of staffing: Current faculty
4.2 Special equipment, materials, or library resources needed: N/A

5. **Term for implementation:** Fall 2015

6. **Dates of committee approvals:**

Date:  02/03/2015
College, Department:  CHHS School of Nursing
Contact Person:  Beverly Siegrist, beverly.siegrist@wku.edu, or Tonya Bragg-Underwood, tonya.bragg-underwood@wku.edu, 745-3490

1.  Proposed course:
   1.1 Course prefix and number:  NURS 560
   1.2 Course title: Curriculum Development in Nursing Education
   1.3 Abbreviated course title: Curriculum Development in Nsg Ed
   1.4 Credit hours:  2
   1.5 Variable credit (yes or no): No
   1.6 Repeatable: No
   1.7 Grade type: Letter Grade
   1.8 Prerequisites: Admission to the program
   1.9 Corequisites: n/a
   1.10 Course description: Provides the theory and processes to develop, design, and evaluate nursing curricula and programs. The use of curriculum accreditation standards that guide curriculum development and evaluation is studied to direct nursing faculty in curriculum development. Develops the National League for Nursing (NLN) **Core Competencies for Nurse Educators 4**: Participate in curriculum design and evaluation of program outcomes.
   1.11 Course equivalency: n/a

2.  Rationale:
   2.1 Reason for developing the proposed course: This course is part of a curriculum revision for the MSN Nurse Educator concentration. It specifically addresses more clearly the curriculum competency identified by NLN Nurse Educator Competency. Achievement of the NLN nurse educator competencies leads to preparation for setting for the national board certification for nurse Educators (CNE).
   2.2 Relationship of the proposed course to other courses at WKU: Portions of this content was previously found in NURS 520 (Teaching in Schools of Nursing). CEBS offers curriculum courses for teachers in selected secondary settings. Examples include SEC 580 (The Curriculum), ELED 503 (Organization of the Elementary School Curriculum), MGE 571 (The Middle School Curriculum).

3.  Discussion of proposed course:
   3.1 Schedule type: L
   3.2 Learning Outcomes:
   • Examine the historical and philosophical foundations of nursing education curricula.
   • Critically analyze current educational and nursing research for implications on curriculum development.
   • Analyze the impact of socio-political, cultural, technological, environmental, and regulatory factors on curriculum development and evaluation.
   • Apply selected nursing theories to the curriculum development process in the design of a selected curriculum component.
   • Examine evaluation methods used to assess curriculum designs including accreditation standards and board of nursing regulations.
3.3 Content outline:
I. Introduction to curriculum develop and approaches
   a. History
   b. Curriculum development & approval in changing educational environments
   c. Role of faculty in curriculum development and evaluation
II. Theories, educational taxonomies, and critical thinking in nursing
   a. Theory applied to curriculum development
   b. Contextual design with taxonomies to promote critical thinking
III. Needs assessment in nursing curriculum development
   a. External factors
   b. Internal factors
   c. Finance and budget management
IV. Application to nursing education
   a. Components of the curriculum
   b. Curriculum design for selected programs: associate degree, baccalaureate, graduate, staff development
V. Program Evaluation & Accreditation
   a. Program evaluation
   b. Planning for accreditation
VI. Issues & Trends
   a. Informatics and technology
   b. Research
   c. Challenges for nurse educators.

3.4 Student expectations and requirements:
- Online activities such as discussion boards, group work and critical thinking exercises (30% of grade)
- Paper: Major paper on application and evaluation of a selected curriculum model (35%)
- Quizzes or brief writing exercises (35%)

3.5 Tentative texts and course materials:

Other required materials (available free online):

4. Budget implications:
   4.1 Proposed method of staffing: Current faculty
   4.2 Special equipment, materials, or library resources needed: n/a

5. Term for implementation: Fall 2015
6. **Dates of committee approvals:**

**New course proposals require a Course Inventory Form be submitted by the College Dean’s office to the Office of the Registrar.**
Create a New Course
(Action)

Date: 02/03/2015
College, Department: CHHS School of Nursing
Contact Person: Beverly Siegrist, beverly.siegrist@wku.edu, or Tonya Bragg-Underwood, tonya.bragg-underwood@wku.edu, 745-3490

1. Proposed course:
   1.1 Course prefix and number: NURS 561
   1.2 Course title: Distance Education & Technology in Nursing
   1.3 Abbreviated course title: Dist Ed & Technology in Nursing
   1.4 Credit hours: 2
   1.5 Variable credit (yes or no): no
   1.6 Repeatable No
   1.7 Grade type: standard letter
   1.8 Prerequisites: admission to program or permission of instructor
   1.9 Corequisites: n/a
   1.10 Course description: Provides an overview of the basics of technology in nursing education including distance learning and web-based course design and simulation. Includes the theoretical underpinnings as well as suggestions for practical application in nursing education. Includes skills related to web-based course design and evaluation and use of high-fidelity simulators. Develops the National League for Nursing (NLN) Core Competencies for Nurse Educators 1: Facilitate learning: Uses information technology skillfully to support the teaching-learning process.
   1.11 Course equivalency: n/a

2. Rationale:
   2.1 Reason for developing the proposed course: Currently a brief overview of this topic is included in one core course for MSN Nurse Educators. An increasing number of courses and programs are now delivered through distant education requiring the need for new skills related to course design and management for nurse educators. Additionally simulations are recommended by the professional as a means to teach students allowing practice in high-risk situations and procedures in a safe environment. Nursing faculty need to have knowledge related to best practices in distant learning and use of high-fidelity simulators in various settings where nursing is taught. Achievement of the NLN nurse educator competencies leads to preparation for setting for the national board certification for nurse Educators (CNE).
   2.2 Relationship of the proposed course to other courses at WKU: May include introduction to topics found in business informatics or computer science but no other course found that reflects this content from the perspective of nursing education.

3. Discussion of proposed course:
   3.1 Schedule type: L
   3.2 Learning Outcomes:
      • Discuss the history of and the pedagogy associated with various technologies specific to nursing.
• Discuss online environments and related theory and skills to facilitate teaching learning practices in the nursing education and practice settings.
• Discuss and analyze best practices related to online learning environments.
• Discuss the history and the pedagogy of simulation in nursing and healthcare.
• Discuss and analyze best practices related to simulation in nursing education.

3.3 Content outline:
I. The history of and the pedagogy associated with distant learning.
   a. Introduction to teaching/learning in distant education
   b. Pedagogy associated
   c. National Initiatives: Alliance for Nursing Informatics, (ANA)
   d. Faculty preparation
II. Infrastructure consideration for online environments.
   a. Considerations for faculty and students
   b. Technical support and training
III. Online courses: design, management, and evaluation
   a. Reconceptualizing current instructional methods
   b. Design, management, and instructional considerations
   c. Quality Matters and other evaluation guides
IV. Best practices in nursing education
   a. Engaging students
   b. Interacting online
   c. Course management recommendations from the research
V. Simulations: Types, methods, and considerations
   a. History
   b. Types
   c. Current applications and recommendations from profession, accreditation and boards of nursing
   d. Evaluation of current simulations and uses in nursing education

3.4 Student expectations and requirements: Final examination; a group project related to simulations in nursing; activities and discussion boards

3.5 Tentative texts and course materials:
4. **Budget implications:**
   4.1 Proposed method of staffing: Current MSN faculty
   4.2 Special equipment, materials, or library resources needed: n/a

5. **Date of Implementation:** Fall 2015

6. **Dates of committee approvals:**

**New course proposals require a Course Inventory Form be submitted by the College Dean’s office to the Office of the Registrar.**
Create a New Course
(Action)

Date: 02/03/2015
College, Department: CHHS School of Nursing
Contact Person: Beverly Siegrist, beverly.siegrist@wku.edu, or Tonya Bragg-Underwood, tonya.bragg-underwood@wku.edu, 745-3490

1. Proposed course:
   1.1 Course prefix and number: NURS 563
   1.2 Course title: Teaching in Health Care Organizations
   1.3 Abbreviated course title: Teach in Healthcare Org
   1.4 Credit hours: 2
   1.5 Variable credit (yes or no): No
   1.6 Repeatable No
   1.7 Grade type: Letter Grade
   1.8 Prerequisites: Admission to the program or permission of instructor
   1.9 Corequisites: n/a
   1.10 Course description: Develops skills and competencies specific to the role of the nurse educator in staff development for hospitals and other healthcare organizations. Provides opportunity to build competencies for the staff development professional identified by the American Nurses Credentialing Center (ANCC) as preparation for advanced certification in Nursing Professional Development.
   1.11 Course equivalency: n/a

2. Rationale:
   2.1 Reason for developing the proposed course: This course is part of a curriculum revision for the MSN Nurse Educator concentration. It specifically addresses the unique needs of the nursing educator in the staff development specialist role in hospitals and other health care settings or prepares nurse faculty for collaboration with staff development units in health care organizations.

2.2 Relationship of the proposed course to other courses at WKU: none found

3. Discussion of proposed course:
   3.1 Schedule type: L
   3.2 Learning Outcomes:
      • Examine the role of the nursing professional development specialist.
      • Expand educational design and delivery methods to meet the needs of the adult learning in the health care setting.
      • Analyze the role of the staff development specialist in budgeting, outcome measurement, and evaluation.
      • Develop knowledge in organizational principles, concepts and structures, and management skills necessary for the management of staff development programs.
      • Discuss unique workplace environments and issues that impact teaching learning in workplace settings.
      • Explore the role of the staff development specialist in consultation, teaching, and leadership in healthcare organizations.

   3.3 Content outline:
      I. Theories, Models and Principles
a. Teaching/learning theories
b. Educational Design and Delivery
c. Types of educational activities (e.g., orientation, in-service, competency validation, clinical affiliation/academic, preceptor development, role transition, research and scholarship, continuing education)
d. Evaluation: Methods of evaluation, cost-benefit analysis and return on investment

II. Leadership Principles and Practice
a. Shared governance (e.g., partnership councils, shared decision-making)
b. Decision-making concepts (e.g., types of decisions, decision-making styles, tools, and techniques)
c. Performance management process (e.g., hiring, orientation, setting expectations, performance review, retention)

IV. Ethical/Legal
a. Professional Standards, Certification and Credentialing
b. Risk management
c. Knowledge of: risk management tools and processes (e.g., Failure Mode Effect Analysis, Root Cause Analysis, Occurrence/Quality Improvement reports); line of authority (e.g., chain of command, “Just Culture”, zero tolerance)
d. Accreditation standards effecting the organization (e.g., The Joint Commission, Magnet, applicable contact hour guidelines)

V. Practice and Process Improvement
a. Evidence-based Practice, and Practice-based Evidence, and Research
b. Research (e.g., human subject protection and recruitment, identifying problems, data collection, data analysis, dissemination)

VI. Process Improvement
a. Practice and excellence initiatives, and performance indicators (e.g., core measures, patient satisfaction, retention, dash boards, report cards, nurse sensitive indicators, IHI, Magnet, HCAHPS)
b. Process improvement methodology and resources (e.g., Six Sigma, PDSA/PDCA, Lean)

VII. Program and Project Management
a. Program and Project Management Tools and Processes
b. Project management tools and processes (e.g., project plan, timelines, marketing, public relations)
c. Managing projects (e.g., identification of champions and stakeholders, sustainability, measuring and monitoring, setting timelines, action plans, funding opportunities, customer service)
d. Team management and facilitation: Managing teams (e.g., leading, developing, group process, building consensus, clarifying team member roles, using champions and stakeholders)
e. Facilitating groups (e.g., interprofessional/interdisciplinary teams, focus groups, meetings)

3.4 Student expectations and requirements:
- Online activities such as discussion boards, group work and critical thinking exercises (30% of grade)
- Paper: Major paper on application and evaluation of a selected curriculum model (35%)
- Quizzes or brief writing exercises (35%)

3.5 Tentative texts and course materials:
4. **Budget implications:**
   4.1 Proposed method of staffing: Current faculty or staff development nurse educator (Part-time faculty)
   4.2 Special equipment, materials, or library resources needed: n/a

5. **Term for implementation:** Fall 2015

6. **Dates of committee approvals:**
   - SON Graduate Nursing Committee: 02/03/15
   - CHHS Graduate Curriculum Committee: 02/23/2015
   - Graduate Council: 
   - University Senate: 

**New course proposals require a Course Inventory Form be submitted by the College Dean’s office to the Office of the Registrar.**

1. Proposed course:
   1.1 Course prefix and number: NURS 564
   1.2 Course title: Teaching in Health Care Organizations Practicum
   1.3 Abbreviated course title: Teach HCO Practicum
   1.4 Credit hours: 1
   1.5 Variable credit (yes or no): No
   1.6 Repeatable No
   1.7 Grade type: pass/fail
   1.8 Prerequisites: NURS 563 or permission of instructor
   1.9 Corequisites: n/a
   1.10 Course description: This is a practicum experience to facilitate the nurse educator in developing skills and competencies needed for successful implementation of the roles of the hospital or health care organization education specialist. The nurse works with an experienced preceptor to implement planned learning activities for a total of 60 contact hours. Provides opportunity to build competencies for the staff development professional identified by the American Nurses Credentialing Center (ANCC) as preparation for advanced certification in Nursing Professional Development.
   1.11 Course equivalency: n/a

2. Rationale:
   2.1 Reason for developing the proposed course: This course is part of a curriculum revision for the MSN Nurse Educator concentration. It specifically addresses the unique needs of the nursing educator in the staff development specialist role in hospitals and other health care settings or prepares nurse faculty for collaboration with staff development units in health care organizations.
   2.2 Relationship of the proposed course to other courses at WKU: none found

3. Discussion of proposed course:
   3.1 Schedule type: C
   3.2 Learning Outcomes:
      • Examine the role of the nursing professional development specialist.
      • Expand educational design and delivery methods to meet the needs of the adult learning in the health care setting.
      • Apply knowledge in organizational principles, concepts and structures, and management skills necessary for the management of staff development programs.
      • Analyze the uniqueness of the workplace environments and issues that impact teaching learning in workplace settings.
   3.3 Content outline:
      Student will work with course faculty and preceptor to develop a learning contact build upon individual needs and AANC Nursing Professional Educator Competencies. The contract will
include: Objectives, competencies to be developed, activities planned with estimated time, and evaluation methods.

3.4 Student expectations and requirements:
- Development of learning contract and assuring approval by faculty and preceptor prior to initiating any clinical hours.
- Assist in completion of affiliation agreement with WKU if not in place per Graduate Student Handbook.
- Completion of any personnel requirements of clinical site not included in agency/WKU affiliation agreement.
- Online activities that include weekly reflective journal and documentation of progress on learning plan.
- Paper: Final evaluation of learning contract
- Any other evaluation outlined in learning contract.

3.5 Tentative texts and course materials:

Other required materials (available free online)

4. Budget implications:
   4.1 Proposed method of staffing: Current faculty or staff development nurse educator (Part-time faculty)
   4.2 Special equipment, materials, or library resources needed: n/a

5. Term for implementation: Fall 2015

6. Dates of committee approvals:

   CHHS Graduate Curriculum Committee 02/23/2015
   Graduate Council
   University Senate

**New course proposals require a Course Inventory Form be submitted by the College Dean’s office to the Office of the Registrar.**
Create a New Course
(Proposal)

Date: February 03, 2015
College, Department: CHHS - SON
Contact Person: Beverly Siegrist, beverly.siegrist@wku.edu, 270-745-3490
Tonya Bragg-Underwood, tonya.bragg-underwood@wku.edu, 270-745-4377

1. Proposed course:
   1.1 Course prefix and number: NURS 565
   1.2 Course title: Teaching Strategies in Nursing Education
   1.3 Abbreviated course title: Teaching Strategies
   1.4 Credit hours: 2
   1.5 Variable credit (No):
   1.6 Repeatable (No):
   1.7 Grade type: Standard Letter Grading
   1.8 Prerequisites: Admission to MSN program or permission of instructor
   1.9 Corequisites: None
   1.10 Course description: Builds upon educational theory presented in NURS 504 Advanced Nursing Theory, emphasizing andragogy and issues related to learner diversity. Analyzes teaching strategies and modalities relevant to classroom and clinical teaching in nursing education in structured and unstructured settings.
   1.11 Course equivalency: None

2. Rationale:
   2.1 Reason for developing the proposed course:
   Expands content previously taught in NURS 520 (Teaching in Schools of Nursing). Expands teaching strategies and methods to include teaching diverse students in various settings and the best practices to build student competencies, skills, and critical thinking related to nursing practice. Course will address the needs of diverse learners and teaching strategies in various teaching environments as indicated in the National League for Nurses (NLN) Core Competencies for Nurse Educators, #1 Facilitate Learning.
   2.2 Relationship of the course to other courses at WKU: Other WKU classes in CEBS such as ADED 520 Methods for Teaching Adults; TCHL 545 Classroom Instructional Strategies and Management include teaching strategies also included in NURS 565 however but do not include unique settings and clinical instruction in nursing education requiring consideration for effective instruction of nursing students.

3. Discussion of proposed course:
   3.1 Schedule type: L – Lecture
   3.2 Learning Outcomes:
   • Analyze theoretical foundations and evidenced-based practices that enhance teaching strategies for instruction of nursing students.
   • Design/plan appropriate methodologies for teaching strategies in structured and unstructured learning environments.
   • Explore and recognize the influence of interpersonal interactions and socialization on learner outcomes.
• Analyze appropriate types of teaching strategies for the setting.

3.3 Content outline:

I. Introduction
   a. Effective learning
   b. Culture and diversity in the classroom
   c. Finding information - searching

II. Types of Learners
   a. Conditions for learning

III. Teaching in Structured Settings
   a. Types of lecture
   b. Problem based learning

IV. Teaching in Unstructured Settings
   a. Philosophical approaches to clinical instruction
   b. Concept mapping
   c. Precepted clinical experience
   d. Student learning in a facility
   e. Service learning
   f. Study abroad

3.4 Student expectations and requirements:
   • Discussion boards
   • Midterm and final exams
   • Development of a concept map
   • Development of a lecture (PowerPoint or Tegrity)

3.5 Tentative texts and course materials:

4. Budget implications:
   4.1 Proposed method of staffing: Current nurse educator faculty
   4.2 Special equipment, materials, or library resources needed: N/A

5. Term for implementation: Fall 2015

6. Dates of committee approvals:

   SON Graduate Committee 02/03/2015
   College Graduate Curriculum Committee 02/23/2015
   Graduate Council
   University Senate

**New course proposals require a Course Inventory Form be submitted by the College Dean’s office to the Office of the Registrar.**
Create a New Course
(Action)

Date: 02/03/2015
College, Department: CHHS School of Nursing
Contact Person: Beverly Siegrist  beverly.siegrist@wku.edu  53490  Tonya Bragg-Underwood  tonya.bragg-underwood@wku.edu

1. Proposed course:
   1.1 Course prefix and number: NURS 662
   1.2 Course title: Assessment and Evaluation in Nursing Education
   1.3 Abbreviated course title: Assess and Eval Nsg. Education
   1.4 Credit hours: 2
   1.5 Variable credit: no
   1.6 Repeatable No
   1.7 Grade type: Standard Letter
   1.8 Prerequisites: none
   1.9 Corequisites:
   1.10 Course description: Assessment and evaluation strategies in nursing education are explored with an emphasis on the test plan design based upon the National Council of Licensing Examination (NCLEX), developing, analyzing, and revising classroom tests and competency validation of clinical nursing skills. Components and processes of program evaluation focuses on the nursing program, curriculum, environment, and university outcomes. Develops the National League for Nursing (NLN) Competencies for Nurse Educators, Competency 3: Use assessment and evaluation strategies and Competency 6 - Pursue continuous quality improvement in the nurse educator role.
   1.11 Course equivalency: n/a

2. Rationale:
   2.1 Reason for developing the proposed course: Expands content currently included in NURS 520 Teaching in Schools of Nursing to allow for inclusion of other assessment and evaluation methods recommended to validate nursing student competency and achievement of program outcomes. Achievement of the NLN nurse educator competencies leads to preparation for setting for the national board certification for nurse Educators (CNE).
   2.2 Relationship of the proposed course to other courses at WKU: Courses listed in CEBS, TCHL 550 Student Assessment I; TCHL 554 Student Assessment II, and TCHL 558 Student Assessment III share common topics however these are taught from the perspective of the post-secondary teacher and are not built upon methods specific to nursing education.

3. Discussion of proposed course:
   3.1 Schedule type: L
   3.2 Learning Outcomes:
   - Analyze evidence-based assessment and evaluation.
   - Examine best practices in classroom testing in nursing education to enhance student learning.
   - Use elements of test construction, administration, and analysis to improve assessment and evaluation skills.
   - Discuss preparation of nursing students for licensure, and certification examinations.
   - Explore related ethical, social, and legal issues related to evaluation in nursing education.
• Identify the faculty role in program evaluation related to state licensure, and accreditation at the program and university/college level.

3.3 Content outline:
I. Basic Concepts and Language related to Assessment and Evaluation
   a. Role of assessment in instruction
   b. Language of assessment
   c. NCLEX test plan
II. Elements of Test Construction, Administration, and Analysis
   a. Developing instructional objectives
   b. Implementing systematic test plan
   c. Elements of test construction and administration
   d. Writing critical thinking multiple choice questions based upon NCLEX test plan
   e. Establishing evidence of reliability & validity
   f. Interpreting test results
   g. Assigning grades
   h. Test items banks
III. Preparing Students for Success on Licensing & Certification Exams
   a. Research on student’s and testing
   b. Test to predict student success in program and exams
   c. Licensure and certification prep courses
IV. Selected Issues
   a. Ethical, legal etc.
   b. Testing software
V. Understanding Program Evaluation
   a. Program review and accreditation
   b. University/college accreditation
   c. Faculty role in program evaluation

3.4 Student expectations and requirements: Midterm and Final exam; development of test plan and test questions with analysis of selected nursing course; discussion boards.

3.5 Tentative texts and course materials:

4. Budget implications:
   4.1 Proposed method of staffing: current graduate nursing faculty
   4.2 Special equipment, materials, or library resources needed: N/A

5. Term for implementation: Fall 2015

6. Dates of committee approvals:
**New course proposals require a Course Inventory Form be submitted by the College Dean’s office to the Office of the Registrar.**
Create a New Course  
(Action)

Date: 12/12/2014  
College, Department: CHHS, Communication Sciences and Disorders  
Contact Person: Kimberly Green, Kimberly.green@wku.edu, 745-4303

1. Proposed course:
   1.1 Course prefix and number: SLP 557  
   1.2 Course title: Speech-Language Pathology and Autism Spectrum Disorders  
   1.3 Abbreviated course title: SLP & Autism Spectrum Disorder  
   1.4 Credit hours: 3  
   1.5 Variable credit: no  
   1.6 Repeatable for total of hours: no  
   1.7 Grade type: letter  
   1.8 Prerequisites: SLP 501, SLP 504  
   1.9 Corequisites: none  
   1.10 Course description: Development of strategies for speech-language pathologists to assess and treat the social and communication needs of those with autism spectrum disorders.  
   1.11 Course equivalency: none

2. Rationale:
   2.1 Reason for developing the proposed course: This content has been taught as a section of a SLP 572 Contemporary Issues course for several semesters. It is quite popular with the graduate students. Because there is a limit to the number of times the SLP 572 course can be taken, the department would like to have a specific course in the subject. Current standards require that graduates of accredited programs be able to demonstrate competency in social aspects of communication; this course would help students meet that need. Further, exit surveys from students have indicated that this was a course that was needed. Projected enrollment is 15-20 students based on enrollment of students in elective SLP 572 Contemporary Issues course in Autism.
   2.2 Relationship of the proposed course to other courses at WKU: Many courses in the WKU Autism Certificate Program cover the similar topic. In particular, SPED 619 Assistive Technology and Communication Interventions for students with Autism Spectrum Disorders (ASD) is offered. This course differs because its emphasis will be to help speech-language pathology graduate students earn one of the competencies needed to earn certification.

3. Discussion of proposed course:
   3.1 Schedule type: L  
   3.2 Learning Outcomes:  
   • Demonstrate knowledge of pertinent background information and the major etiologies of ASD in children and adults  
   • Analyze the impact of ASD and any adverse effect on the social language learning process  
   • Plan, implement, evaluate and modify intervention strategies  
   • Explore issues pertinent to speech-language pathology service delivery such as cultural diversity, behavior management, and collaboration.
3.3 Content outline: Autism Spectrum Disorders, the SLP’s role in assessment and service delivery to the ASD population, competency development in social communication
3.4 Student expectations and requirements: research project, attend lectures, exams, presentation
3.5 Tentative texts and course materials:
   2014 Certification Standards for Speech-Language Pathology, ASHA
   2014 Speech-Language Pathology Practice Portal - Autism

4. Budget implications:
   4.1 Proposed method of staffing: current faculty; there is room in current faculty members’ teaching loads to cover electives
   4.2 Special equipment, materials, or library resources needed: none

5. Term for implementation: Fall 2015

6. Dates of committee approvals:

College, Department: CHHS, Department of Communication Sciences and Disorders
Contact Person: Jo Shackelford, jo.shackelford@wku.edu, 270-745-4306

1. Proposed course:
   1.1 Course prefix and number: SLP 558
   1.2 Course title: Interprofessional Practice Across the Lifespan
   1.3 Abbreviated course title: Interprofessional Practice
   1.4 Credit hours: 3
   1.5 Variable credit (yes or no): No
   1.6 Repeatable (yes or no) for total of ___ hours: No
   1.7 Grade type: Standard Letter
   1.8 Prerequisites: Permission of instructor
   1.9 Corequisites: N/A
   1.10 Course description: Principles of interprofessional collaboration and exploration of roles of family/caregivers and health care and educational professionals; interprofessional communication, decision making, and collaborative team problem solving as it relates to a variety of settings across the lifespan.
   1.11 Course equivalency: N/A

2. Rationale:
   2.1 Reason for developing the proposed course: Reason for developing the proposed course:
      - Interprofessional collaborative practice is important for high quality patient-centered care
      - “Through the experience of learning with and from those in other professions, students also develop leadership qualities and respect for each other, which prepares them for work on teams and in settings where collaboration is a key to success. This success is measured by better and safer patient care as well as improved population health outcomes." - Institute of Medicine Global Forum on Health Professions Education, Interprofessional Education for Collaboration Workshop Summary (May 2013)
   2.2 Relationship of the proposed course to other courses at WKU: There are no courses at WKU which offer this content in depth.

3. Discussion of proposed course:
   3.1 Schedule type: Lecture
   3.2 Learning Outcomes:
      - Students will analyze elements of interprofessional teamwork and the evidence base that supports its effectiveness
      - Students will examine roles of professionals, patient/client, and family members with whom they will collaborate (healthcare and educational professionals, their scope of practice, settings in which they work, and role of families/caregivers)
      - Students will use communication strategies and tools for effective interprofessional collaboration (communication, conflict management and negotiation)
      - Students will identify skills needed to engage parents, patients/clients, and related professionals during assessment and treatment of clients across the lifespan.
• Students will discuss the concepts of and strategies for leadership and membership

3.3 Content outline:
• Introduction to interprofessional teamwork
• Current developments, key concepts and issues
• Evidence base for interprofessional education
• Roles of related professionals and families/caregivers
• Factors that influence interprofessional teamwork (attitudes, culture, schedules, workload, training, professional boundaries)
• Communication strategies for interprofessional collaboration
• Collaborative assessment and intervention
• Roles and responsibilities of interprofessional teams

3.4 Evaluating interprofessional teamwork
Student expectations and requirements:
• Discussion
• Researching and reporting on topics
• Projects and assignments
• Examination

3.5 Tentative texts and course materials:

4. Budget implications:
4.1 Proposed method of staffing: Current staff
4.2 Special equipment, materials, or library resources needed: N/A

5. Term for implementation: Summer 2015

6. Dates of committee approvals:

**New course proposals require a Course Inventory Form be submitted by the College Dean’s office to the Office of the Registrar.**
Create a New Course
(Action)

Date: February 4, 2015
College, Department: CHHS, Social Work
Contact Person: Jay Gabbard, jay.gabbard@wku.edu, (270) 745-8749
Patricia Desrosiers, patricia.desrosiers@wku.edu, (270) 745-4557

1. Proposed course:
   1.1 Course prefix and number: SWRK 679
   1.2 Course title: Professional Social Work Writing Seminar
   1.3 Abbreviated course title: Prof. SW Writing Seminar
   1.4 Credit hours: 3
   1.5 Variable credit (yes or no): No
   1.6 Repeatable: Yes; for total of 6 hours
   1.7 Grade type: Standard Letter Grading
   1.8 Prerequisites: None
   1.9 Corequisites: None
   1.10 Course description: The Council on Social Work Education (CSWE) identifies the practice behavior: “demonstrate effective oral and written communication in working with a wide range of clients and systems” as a required social work skill. In order to provide effective social work services, writing skill must be adequately developed during the educational process. This online elective course is designed to improve writing. Techniques such as utilizing rough drafts and revision, APA referencing strategies, and peer review will be explored and practiced. Tools such as a writing rubric, the APA manual, and the Purdue OWL website will be utilized in various exercises throughout to help students produce high quality written work. Understanding of the terms on the writing rubric will be particularly helpful for students as they use self-critique and analyze peer and faculty feedback to improve writing. Use of a common writing language will provide students a sound basis for social work writing practice.
   1.11 Course equivalency: None

2. Rationale:
   2.1 Reason for developing the proposed course: As a professional social worker in the field, the impact on clients when social workers are ill prepared for practice can be devastating to both clients and workers. The importance of writing tasks cannot be underestimated. Common social work writing tasks include documentation of client services, psychosocial assessments including diagnostic impressions, court reports often including recommendations for removal of children or jail time, and many others. Unclear or erroneous information in this type of sensitive and important documentation can result in unfair or substandard treatment for the vulnerable clients typically served by social workers. Improving professional writing through a social work specific course will not only facilitate successful student outcomes, but will also positively impact the professionalism of future social workers.
   2.2 Relationship of the proposed course to other courses at WKU: There are many graduate level Thesis Research and Writing courses available in various graduate programs throughout WKU including CNS 599, NURS 599, SOC 599, and PSY 599. These courses provide faculty guidance for independent research projects, and the unstructured nature of these courses is very different than SWRK 679. In addition, ENG 501 – Graduate Writing Workshop and ENG 502 – Graduate
Directed Writing are offered in the English Program and provide a master’s level experience for students with varied writing interests. None of these courses offer discipline specific skills for professional practice.

3. Discussion of proposed course:

3.1 Schedule type: S

3.2 Learning Outcomes:
- Apply referencing guidelines from the APA Manual.
- Demonstrate the steps of the writing process.
- Utilize responsible source citation in writing.
- Defend written communication as a primary practice behavior that demonstrates professionalism.
- Assess the quality of a research reference.
- Evaluate writing strengths and weaknesses in rough drafts.
- Generate writing with exemplary writing mechanics.
- Utilize self-critique and peer review of draft writing to improve the final written product.
- Produce high quality written work as defined by the Writing Rubric.

3.3 Content outline:
- Language of Writing
- Writing Rubric
- Avoiding Plagiarism
- Common Writing Errors
- Self-Assessment
- Writing Process and Resources
- Critical Thinking Skills and Evaluating Evidence including References
- Peer Review and Revision
- Reading Challenging Texts and Professional Articles
- Outlining a Report
- The Parts of a Well Written Document
- APA Formatting and Referencing

3.4 Student expectations and requirements: Students will engage in online discussion forums and peer review processes, complete Blackboard assignments (including formal business letters, client reports, and research reports), and complete exams based on course readings, video lectures, online video content, case studies, and their own research.

3.5 Tentative texts and course materials:

Required Text:

Recommended Text:

Stine, L. (2004). The best of both worlds: Teaching basic writers in class and online. Journal of Basic Writing, 23(2), 49-69.

4. Budget implications:
4.1 Proposed method of staffing: Part of faculty workload or winter/summer DELO offering. Two full-time faculty developed this course and are prepared to teach it as needed.

4.2 Special equipment, materials, or library resources needed: N/A

5. **Term for implementation:** Summer 2015

6. **Dates of committee approvals:**

4. **Rationale:** The deletion of NURS 520, Teaching in Schools of Nursing and the addition of NURS 605, Leadership in Nursing Practice will better prepare our students for practice as a DNPs. NURS 605 course content will provide the student with needed preparation in clinical prevention and population health to improve health outcomes through interdisciplinary collaboration, consultation, and management of patient care. The deletion of NURS 520 will not adversely affect the curriculum as the majority of our BSN to DNP students will be in clinical practice and not nursing education.

Admission to the MSN program is competitive and limited to available space. Following initial review, if applicant meets minimum admission standards, consideration is given to the applicant’s professional work experience, statement of professional and personal goals, and professional references. An interview may be requested following a review of admission materials but does not assure acceptance into the program.

Minimum admission requirements:
1. Earned BSN degree from nationally accredited nursing program
2. Hold unencumbered RN licensure at the time of application, and must be licensed in the state where clinical experiences will be completed
3. Cumulative GPA of at least 3.0 on 4.0 scale
4. Applicants with a cumulative GPA between 2.75-2.99 in the BSN degree, will be considered for admission provided they have at least a 3.0 GPA in the last 60 hours of the BSN degree; and have a satisfactory review of additional required admission materials (goal statement, resume, references); plus a positive interview.

Admission if approved will be on a probationary status requiring that the student earn a minimum grade of B in each course in the first 12 hours of the program experience prior to acceptance.

Additional Required Application Materials:
1. A written goal statement (500-700 words in length, 12 pt. font, in Microsoft Word or RTF) describing your personal and professional career goals; your academic strengths and weaknesses; life modifications you will make to help you be successful in the program; and, your understanding of online or independent learning.
2. Three professional references (on form provided) to include nurse manager or nurse administrator and nursing faculty if a recent (<3yrs.) BSN graduate.
3. Professional resume
4. All program admission materials must be received prior to the due date noted on the program web page.

An interview may be offered following a review of admission materials. Completion of an interview and acceptance by the Graduate School does not assure acceptance.
into the MSN program. Incomplete applications will not be considered for admission. Applicants must reapply to be considered for the next admission cycle by updating the Graduate School application, and submitting all required program materials.

Graduate School does not assure acceptance into the MSN program. Incomplete applications will not be considered for admission. Applicants must reapply to be considered for the next admission cycle by updating the Graduate School application, and submitting all required program materials.

One year of practice as a registered nurse is required prior to completing any clinical courses.

### Rationale:
This proposal represents a major reorganization of curriculum content for students in the MSN Nurse Educator Concentration. This concentration is designed to prepare the registered nurse for teaching in schools of nursing. The current curriculum was designed based upon the National League for Nursing (NLN) Core Competencies for Nurse Educators. This document is utilized to develop the NLN Certified Nurse Educator Examination (CNE), the national board certification for nurse educators. Students exiting from this curriculum may sit for this examination following completion of two years of practice as a full-time nurse educator. While this remains the focus of this concentration, content has been added to address the needs of nurse educators who plan careers in hospital, or other health care organizations, education departments. The addition of MSN prepared nurse educator to manage staff development, clinical placement of students with preceptors, and other related activities is a fairly new occurrence. The addition of a course addressing this role (NURS 563 Teaching in Health Care Organizations (2 hrs) and NURS 564 Teaching in HCOs Clinical (optional course, 1 hr. clinical – 60 contact hrs.) will assist nurse educators seeking careers in this practice site. The following courses will be deleted, revised, or added as new courses.

### Courses deleted:
- NURS 500 Advanced Patho (4) – one half of this course focuses on diagnoses and treatment necessary for nurse practitioner students but not needed for the nurse educator role. Students who have completed this course or plan to continue following graduation completing the Post MSN Family Nurse Practitioner or Psychiatric Nurse Practitioner Certificates may take this course.
- NURS 506 Transition to Professional Practice (1 hr) This course is no longer needed, essential content will be incorporated in other courses or in the required program orientation.
- NURS 508 Advanced Professional Issues (1hr) Content incorporated into new NURS 530 Teaching in Schools of Nursing: Roles and Issues
- NURS 520 Teaching in Schools of Nursing (3) Content redistributed into other courses.

### Course Revised:
- NURS 517 Applied Pharmacology (3) Credit hours decreased to 2 hours and number changed to NURS 513. Program evaluation revealed content related to teaching strategies duplicate material included in other courses.
• NURS 518 Clinical Teaching in Nursing (3). Portion of content redistributed to other courses where more appropriate. Course renumbered for better transition to new curriculum.
• NURS 606 Advanced Clinical Practice (2). Decreased credit hour to 1 (60 contact hrs). Much of the planning is accomplished in the theory course, NURS 605. This is appropriate since it is a population health course taught by application of theory to a client population of the student’s choice. More appropriated recognizes the expected student effort in contact hours.

New Courses:
The new courses more clearly identify the NLN Core Competencies for Nurse Educator by expanding essential theory and competencies previously found in core courses but not emphasized in importance. It is anticipated the new and revised courses will be more attractive and requested by new educators not prepared for this specialty. Due to the national shortage of nurse educators, it is a common practice for programs to hire clinical expert nurses with no experience or formal education in teaching. These courses will be included in the Post MSN Nurse Educator Certificate.
• NURS 519 Adv Pathophysiology for Nurse Educators (2 hrs.)
• NURS 532 Teaching in Nursing: Roles and Professional Issues (2 hrs.)
• NURS 531 Clinical Teaching in Nursing Education (2 hrs.)
• NURS 560 Curriculum Development in Nursing Education (2 hrs.)
• NURS 561 Distance Education & Technology in Nursing (2 hrs.)
• NURS 563 Teaching in Health Care Organizations (2 hrs.)
• NURS 564 Teaching in HCOs Clinical (optional course) (1 hr.)
• NURS 565 Teaching Strategies in Nursing Education (2 hrs.)
• NURS 662 Assessment & Evaluation in Nursing Education (2 hrs.)

A transition plan has been developed to move students completing the current curriculum without extending their planned program of study. Current students have requested additional content in several of the areas, e.g. distance learning & technology, and health care organization education, and it is expected that current students will elect to add selected new courses to their program of study.

<td>The Master of Public Health degree is designed to meet the needs of a wide range of health professionals (e.g., public health educators, nurses, environmentalists, public health administrators, industrial health personnel, nutritionists, dental hygienists, physicians, and other professionals) who desire graduate education in public health. The MPH degree program is accredited by the Council on Education for Public Health (CEPH). Two concentrations are offered: Environmental Health and Health Education. To pursue the MPH degree, the applicant must have completed a baccalaureate in health sciences, or have adequate academic preparation in disciplines basic to public health.</td>
<td>The Master of Public Health degree is designed to meet the needs of a wide range of health professionals desiring a graduate education in public health. The MPH degree program is accredited by the Council on Education for Public Health (CEPH). The MPH program has three concentrations are offered: Environmental Health, Generalist and Health Education.</td>
</tr>
</tbody>
</table>

Admission Requirements:
1. Completion of a baccalaureate degree from an accredited institution or its equivalent.
2. At least an undergraduate minor in health or previous education in the sciences basic to health.
3. A minimum GAP score of 593 [GAP = (GRE-V + GRE-Q) + (Undergraduate GPA x 100)].
   Students who took the GRE between 2002 and August 2011 must submit a minimum GAP score of 2200 [GAP = (GRE-V + GRE-Q) x

### Undergraduate GPA

Students who took the GRE prior to 2002 must submit a minimum GAP score of 3500 \[GAP = (GRE-V + GRE-Q + GRE-A) \times \text{Undergraduate GPA}\].

3. A recommended GPA of 3.0 on a 4.0 scale.

4. If applicable, test of English as a foreign language (TOEFL) exam: minimum score of 500 on the written TOEFL; or minimum of 79 on the internet-based TOEFL (iBT).

5. All applicants are encouraged to take the GRE. However, full admission will be granted to applicants who fulfill one of the following conditions:
   a) GRE minimums of 145 for the verbal score, 148 for the quantitative score and 3.5 for the analytical writing score;
   b) or cumulative GPA of at least 3.2 on 4.0 scale from a US accredited university.

6. Submission of:
   a) a written statement of purpose
   b) a resume
   c) 2 letters of academic reference

### Admission Requirements For International Students Who Enroll Through Navitas

1. Completion of a baccalaureate degree from an accredited institution or its equivalent

2. At least an undergraduate minor in health, or previous education in the sciences basic to health.

3. A recommended GPA of 3.0 on a 4.0 scale.

4. English language assessments waived provided candidate earns a “B” or higher in each of the graduate (500 level) courses taken in the Navitas Pre-Master’s program.

5. GRE waived provided candidate earns a “B” or higher in each of the graduate (500 level) courses taken in the Navitas Pre-Master’s program.

6. Submission of:
   a) a written statement of purpose
   b) a resume
   c) 2 letters of academic reference

### MPH Generalist Concentration

2. A recommended GPA of 3.0 on a 4.0 scale.

3. English language assessments waived provided candidate earns a “B” or higher in each of the graduate (500 level) courses taken in the Navitas Pre-Master’s program.

4. GRE waived provided candidate earns a “B” or higher in each of the graduate (500 level) courses taken in the Navitas Pre-Master’s program.

5. Submission of:
   a) a written statement of purpose
   b) a resume
   c) 2 letters of academic reference
1. Completion of a baccalaureate degree from an accredited institution or its equivalent.
2. A minimum GAP score of 593 \[\text{GAP} = (\text{GRE-V} + \text{GRE-Q}) + (\text{Undergraduate GPA} \times 100)\]. Students who took the GRE between 2002 and August 2011 must submit a minimum GAP score of 2200 \[\text{GAP} = (\text{GRE-V} + \text{GRE-Q}) \times \text{Undergraduate GPA}\]. Students who took the GRE prior to 2002 must submit a minimum GAP score of 3500 \[\text{GAP} = (\text{GRE-V} + \text{GRE-Q} + \text{GRE-A}) \times \text{Undergraduate GPA}\].
3. A recommended GPA of 3.0 on a 4.0 scale.
4. If applicable, test of English as a foreign language (TOEFL) exam: minimum score of 500 on the written TOEFL; or minimum of 79 on the internet-based TOEFL (iBT).
5. All applicants are encouraged to take the GRE. However, full admission will be granted to applicants who fulfill one of the following conditions:
   a) GRE minimums of 145 for the verbal score, 148 for the quantitative score and 3.5 for the analytical writing score;
   b) or cumulative GPA of at least 3.2 on 4.0 scale from a US accredited university;
   c) or admission into a US Medical School.
6. Submission of:
   a) a written statement of purpose
   b) a resume
   c) 2 letters of academic reference

## Concentration Objectives

<table>
<thead>
<tr>
<th>Environmental Health Concentration</th>
<th>Health Education Concentration</th>
<th>Generalist Concentration</th>
</tr>
</thead>
<tbody>
<tr>
<td>The goal of the environmental health option of the MPH program is to prepare graduates who can function as professional environmental health specialist in a variety of public and private settings. A student completing the environmental health option in the MPH program will be able to:</td>
<td>The public health education specialization prepares public health education professionals to effectively plan, implement, and evaluate health education and promotion programs, and carry out the related professional functions. Graduates will be able to:</td>
<td>The generalist concentration will provide a broad-based foundation to address the health and well-being of populations and communities. This concentration would also provide students with the opportunity to integrate public health practice into other academic or career paths that they have already chosen. Graduates will be able to:</td>
</tr>
<tr>
<td>- Understand basic concepts of ecology and the role of humans in altering the ecosystem</td>
<td>- Assess individual and community needs for health education</td>
<td>- Describe behavioral, social and cultural factors that contribute to the health and well-being of individuals, communities and populations</td>
</tr>
</tbody>
</table>
• Assess a community to determine the presence of adverse environmental conditions and their potential impact on human health
• Plan effective health education programs
• Communicate public health information and issues effectively to health professionals and the public through diverse communication channels

• Monitor the community’s environment to assure that the environmental quality is conducive to good health
• Implement health education programs
• Critically review and apply evidence-based evaluation of published medical and public health literature

• Develop and implement strategies to remediate unhealthy environmental conditions
• Evaluate the effectiveness of health education programs
• Apply principles of ethical conduct to public health practice

• Understand the role of and work with the public and private sectors in controlling adverse environmental conditions
• Coordinate provisions of health education programs
• Integrate the broad base of public health knowledge and skills acquired from coursework, practicum and other learning activities into a culminating experience (special studies project or capstone)

• Manage resources and personnel to effectively carry out an environmental health program
• Act as a resource person in health education
• Apply skills and knowledge in public health setting(s) through planned and supervised experience(s) related to professional career objectives

• Identify, interpret, and implement environmental health laws, regulations, and policies
• Communicate health and health education needs, concerns, and resources
• Develop the capacity for lifelong learning in public health

• Function effectively as a member of the public health team
• Solve problems in ways sensitive to cultural differences
• Act as an advocate for the public’s health at local, national and international levels

4. **Rationale:** The Master of Public Health (MPH) is a professional degree designed to meet the needs of a wide range of professionals. The Master of Public Health program is already in existence at Western Kentucky University (WKU). The program has two concentrations: Health Education and Environmental Health. The Generalist concentration is designed to meet the needs of working professionals and will be offered 100% on-line. In a growing market of MPH programs that compete for students, adding an online concentration that is broad-based will make our program more competitive. The Generalist concentration also meets requirements of the Council on Education for Public Health (CEPH) in terms of our existing curriculum. The concentration will provide a broad-based foundation to address the health and well-being of populations and communities. This concentration would also provide students with the opportunity to integrate public health practice into other academic or career paths that they have already chosen.

5. **Proposed term for implementation:** Fall 2015

6. **Dates of committee approvals:**

   - Department of Public Health: 2/9/15
   - CHHS Graduate Curriculum Committee: 02/23/2015
   - Graduate Council: 02/23/2015
   - University Senate: 02/23/2015
Revise a Program
(Revised)

Date: February 9, 2015
College: College of Health and Human Services
Department: Public Health
Contact Person: Cecilia Watkins, cecilia.watkins@wku.edu, 270-745-4796

1. Identification of program:
   1.1 Current program reference number: 0473
   1.2 Current program title: Master of Science, Environmental and Occupational Health Science

2. Identification of the proposed program changes:
   2.1 [ ] title:
   2.2 [ ] admission criteria:
   2.3 [x] curriculum: Replace COMM 523 with PH 576
   2.4 [ ] other:

3. Detailed program description:

| Master of Science, Environmental and Occupational Health Science | Master of Science, Environmental and Occupational Health Science |
| Total Hours = 36 credit hours | Total Hours = 36 credit hours |

Core Courses (18 credit hours required)
- PH 520 - Biostatistics for Public Health (3 hrs)
- PH 577 - Environmental Toxicology (3 hrs)
- PH 582 – Epidemiology: Practice and Theory (3 hrs)
- PH 584 - Principles of Environmental Health (3 hrs)
- PH 501 – Research Methods (3 hrs)
- EHS 572 - Environmental and Occupational Epidemiology (3 hrs)

Electives (minimum of 12 credit hours required)
- EOHS Electives
- PH 510 - Watershed Management and Science (3 hrs)
- PH 560 – Environmental Management and Risk Assessment (3 hrs)
- PH 571 - Air Quality Management (3 hrs)
- EHS 580 - Solid and Hazardous Waste Management (3 hrs)
- PH 595 - Public Health Management of Disasters (3 hrs)

Worksite Health Promotion Electives
- PH 502 - Health Promotion in the Workplace (3 hrs)
- PH 575 - Health Education/Promotion Program Planning (3 hrs)

**COMM 523 – Health Communication (3 hrs)**

- PH 587 – Health Behavior (3 hrs)

Culminating experience - students must choose a thesis or an internship – (6 credit hrs)
- **Plan A – Thesis Option – (PH 599 – Thesis Research/Writing - 6 credit hours)**

Plan A requires that the student complete a thesis according to the requirements of WKU Graduate Studies. A committee of at least three faculty members will supervise the student's work. The thesis must be approved by the student's advisor and the Graduate Program Director.

- **Plan B – Internship**

Plan B requires that the student complete a minimum of 600 hours of supervised work experience in a public health agency or organization. The internship must be approved by the student's advisor and the Graduate Program Director. A final report summarizing the internship experience must be submitted to the Graduate Program Director.
least three (3) faculty members will direct each thesis. Students will be required to develop a proposal, defend the proposal, complete thesis research, write the thesis document, and then present the thesis to faculty and students. Additionally, each student will orally defend their thesis before their graduate committee.

Plan B – Internship Option (Portfolio Option) – (PH 546 – Graduate Internship - 6 credit hours)
Plan B requires that a student complete an internship experience of 400 hours. As part of this option, each student must develop a portfolio that details the internship experience. Each portfolio will follow a rubric of required elements.

The graduate advisor, in conjunction with the EOHS internship coordinator, must approve the internship. Internships will require that the student keeps a daily log of activities, compiles weekly summaries, and documents the major objectives associated with the internship. The portfolio will include all internship documentation and the final presentation for the internship. Students completing the internship are required to make an oral defense of their portfolio to their graduate committee and present their work to faculty and students. Each portfolio must follow a rubric of required elements.

4. **Rationale for the proposed program change:** PH 576 Education & Communication Techniques is a public health course, which has communication techniques, and is in the Department of Public Health.

5. **Proposed term for implementation:** Fall 2015

6. **Dates of prior committee approvals:**

   - Department of Public Health: 02/09/2015
   - CHHS Graduate Curriculum Committee: 02/23/2015
   - Graduate Council
   - University Senate
Proposal Date: 02/02/2015

Ogden College of Science and Engineering
Department of Mathematics
Proposal to Revise Course Prerequisites/Corequisites
(Consent Item)

Contact Person: Ferhan Atici, ferhan.atici@wku.edu, 5-6229

1. Identification of course:
   1.1 Course prefix (subject area) and number: MATH 532
   1.2 Course title: Real Analysis

2. Current prerequisites/corequisites/special requirements:
   Math 432

3. Proposed prerequisites/corequisites/special requirements:
   Math 431 or permission of instructor.

4. Rationale for the revision of prerequisites/corequisites/special requirements:
   Math 432 and Math 432G has been deleted. Math 532 can be considered as continuation of Math 431 in terms of its contents and topics.

5. Effect on completion of major/minor sequence:
   We offer Math 431 in one semester and Math 532 in the following semester, so the change in the prerequisite should not delay completion of the program.

6. Proposed term for implementation:
   Fall 2015

7. Dates of prior committee approvals:

   Mathematics Department _____________________________________________ 02/27/2015
   Ogden College Graduate Curriculum Committee __________________________ 02/27/2015
   Graduate Council __________________________________________________
   University Senate _________________________________________________
Proposal Date: 2/1/2015

Ogden College of Science and Engineering
Department of Mathematics
Proposal to Revise Course Number
(Consent Item or Action)

Contact Person: Ngoc Nguyen, ngoc.nguyen@wku.edu, 270-745-6221

1. Identification of proposed course
   1.1 Course prefix (subject area) and number: Math 429G
   1.2 Course title: Probability and Statistics II

2. Proposed course number: Math 482G

3. Rationale for revision of course number: MATH 429 was renumbered as MATH 482 in the 2009-2010 academic year. We are now renumbering MATH 429G to MATH 482G for consistency.

4. Proposed term for implementation: Fall 2015

5. Dates of prior committee approvals:

   Department/ Unit Mathematics
   02/13/2015

   Ogden College Graduate Curriculum Committee
   02/27/2015

   Graduate Council

   University Senate
1. Identification of program:
   1.1 Current program reference number: 085
   1.2 Current program title: Master of Science: in Mathematics
   1.3 Credit hours: 30

2. Identification of the proposed program changes:
   Changing required core courses as basic requirements in the program, adding more 400G and 500 courses in the requirements and removing listed undergraduate courses in the research tool.

3. Detailed program description:

(e) abstract algebra.

3. A cumulative grade point average of 3.0 (on a 4.0 scale) is required in at least one of the following:
(a) A cumulative grade point average of 3.0 (on a 4.0 scale) in at least one of the following:
(b) all mathematics courses that are applicable to the undergraduate mathematics major;
(c) courses specified in (b) through (e) of Item 2 above.

Degree Requirements minimum of 30 hours
The Master of Science in Mathematics (General Option) requires a minimum of 30 hours of graduate-level mathematics courses. A maximum of 12 hours at the 400G level may be included in the entire program. A research tool is required and may entail coursework beyond the 30 hours of mathematics. The research tool must be completed during the first 15 hours of coursework and may be fulfilled by a mathematics reading course, a computer science course, a foreign language examination, or another option approved by a Mathematics Department graduate advisor. In addition, all students in the M.S. program (general option) must have a working knowledge of a high-level programming language or computer algebra system.

A student may, upon prior approval of the Mathematics Department Graduate Committee, include in his/her program a maximum of 6 hours of coursework from a related field.

Comprehensive exams are required.

Required Core
The following courses must be completed:

MATH 417G Algebraic Systems*
MATH 431G Intermediate Analysis I*
MATH 439G Topology I*
2. One of the following applied mathematics courses:
- MATH 529 Applied Probability
- MATH 531 Advanced Differential Equations
- MATH 535 Advanced Applied Mathematics I
- MATH 536 Advanced Applied Mathematics II
- MATH 540 Stochastic Processes
- MATH 541 Graph Theory
- MATH 542 Advanced Topics in Discrete Mathematics
- MATH 550 Complex Analysis
- MATH 570 Topics in Operations Research
- STAT 549 Statistical Methods I
- STAT 550 Statistical Methods II

Another course as approved by the Mathematics Department Graduate Committee.

3. The following course is required:
- MATH 532 Real Analysis

4. One of the following two-course sequences:
- MATH 417G Algebraic Systems AND MATH 517 Topics from Algebra
- MATH 439G Topology I AND MATH 539 Topology II
- MATH 450G Complex Variables AND MATH 550 Complex Analysis
- MATH 435G Partial Differential Equations AND MATH 535 Advanced Applied Mathematics I
- MATH 470G Introduction to Operations Research AND MATH 570 Topics in Operations Research
- STAT 549 Statistical Methods I AND STAT 550 Statistical Methods II

*If equivalent courses were taken at the undergraduate level, then the student must substitute appropriate graduate mathematics courses selected in consultation with a Mathematics Department graduate advisor.

Electives
The remaining mathematics courses in the student program must be chosen from:

2. One of the following applied mathematics courses:
- MATH 529 Applied Probability
- MATH 531 Advanced Differential Equations
- MATH 535 Advanced Applied Mathematics I
- MATH 536 Advanced Applied Mathematics II
- MATH 540 Stochastic Processes
- MATH 541 Graph Theory
- MATH 542 Advanced Topics in Discrete Mathematics
- MATH 550 Complex Analysis
- MATH 570 Topics in Operations Research
- STAT 549 Statistical Methods I
- STAT 550 Statistical Methods II

Another course as approved by the Mathematics Department Graduate Committee.

3. The following course is required:
- MATH 532 Real Analysis

4. One of the following two-course sequences:
- MATH 417G Algebraic Systems AND MATH 517 Topics from Algebra
- MATH 439G Topology I AND MATH 539 Topology II
- MATH 450G Complex Variables AND MATH 550 Complex Analysis
- MATH 435G Partial Differential Equations AND MATH 535 Advanced Applied Mathematics I
- MATH 470G Introduction to Operations Research AND MATH 570 Topics in Operations Research
- MATH 529 Applied Probability AND MATH 540 Stochastic Processes
- MATH 435G Partial Differential Equations AND MATH 531 Advanced Differential Equations
- MATH 535 Advanced Applied Mathematics I AND MATH 536 Advanced Applied Mathematics II
- MATH 405G Numerical Analysis I AND MATH 406G Numerical Analysis II
- STAT 549 Statistical Methods I AND STAT 550 Statistical Methods II

*If equivalent courses were taken at the undergraduate level, then the student must substitute appropriate graduate mathematics courses selected in consultation with a Mathematics Department graduate advisor.

Electives
The remaining mathematics courses in the student program must be chosen from:
Research Tool
A research tool is required and may entail coursework beyond the 30 hours of mathematics. The research tool can be fulfilled in a variety of ways, some of which are listed below:

- Taking the MATH 598 Graduate Seminar

- Courses in other disciplines. The research tool course should be in disciplines that have a strong relation to mathematics. For example, any graduate or 400 level computer science course pre-approved by the student’s graduate advisor will be accepted. However, a student with no prior programming experience cannot take such a course and instead could choose a first year undergraduate programming course.

- Learning how to use a standard statistical or mathematical package (such as SAS, SPSS, R or Mathematica) by taking a course.

The research tool cannot be taken during the last semester.

Optional Thesis 6 hours

Students who choose to write a thesis are required to complete 6 hours of MATH 599 Thesis Research and Writing and to give an oral defense of the thesis.

Computational Mathematics Option

Admission Requirements
1. One of the following:
   (a) A minimum GAP score of 600 \[\text{GAP} = (\text{GRE-V} + \text{GRE-Q}) + (\text{Undergraduate GPA} \times 100)\] or a minimum GAP score of 3000 for students who took the GRE prior to August 2011 \[\text{GAP} = (\text{GRE-V} + \text{GRE-Q}) \times \text{Undergraduate GPA}\] *Students who took the GRE prior to 2002 should contact the graduate advisor of the program;
   (b) A GRE score of at least 300. For options (a) or (b) WKU requires a minimum score of 139 on both the verbal and quantitative parts of the GRE;
   (c) For students that graduate from WKU with a mathematics major, a GPA of at least 3.3 in their mathematics major.

2. Completion of the following undergraduate courses:
   (a) a one year calculus sequence;
   (b) linear algebra;
   (c) discrete mathematics;
   (d) a one year sequence of programming courses;
   (e) a B.A. degree with a major in either Computer Science, Engineering, Mathematics or Physics.
3. A cumulative grade point average of at least 3.0 (on a 4.0 scale) in at least one of the following:
   (a) all mathematics and computer science courses that are listed in (a) through (d) of Item 2 above;
   or
   (b) all courses in the major listed in (e) of Item 2 above.
   Students cannot enter the program if they have a deficiency in the courses listed in Item 2 above.

Degree Requirements minimum of 30 hours
The Master of Science in Mathematics (Computational Mathematics Option) requires a minimum of 30 hours of graduate-level mathematics and computer science courses. A maximum of 12 hours at the 400G level may be included in the entire program. All students in the M.S. program (computational mathematics option) must have a working knowledge of a high-level programming language. The CS classes required in this option do not allow for additional courses in a related field.

Comprehensive exams are required.

Required Core
MATH/CS 405G Numerical Analysis I*
MATH 470G Introduction to Operations Research*
CS 549 Algorithms Analysis*
STAT 549 Statistical Methods I

Optional Thesis 6 hours
Students who choose to write a thesis are required to complete 6 hours of MATH 599 Thesis Research and Writing and to give an oral defense of the thesis.

MATH 590 Special Topics in Mathematics (with advisor approval)
STAT 550 Statistical Methods II

Research Tool
This requirement is satisfied by the computer science classes.

Optional Thesis 6 hours
Students who choose to write a thesis are required to complete 6 hours of MATH 599 Thesis Research and Writing and to give an oral defense of the thesis.

4. Rationale for the proposed program change: The current core includes three 400 level graduate courses. With this new proposal, students will get to choose two of the other 400 level graduate courses, such as 405G-406G. This new Program of Study also gives the student the opportunity to choose a 400 level graduate course as a research tool. The new proposal gives students greater flexibility for choosing graduate level courses in their area of interest.

5. Proposed term for implementation and special provisions (if applicable): Fall 2015

6. Dates of prior committee approvals:

Department of Mathematics 02/13/2015
Ogden College Graduate Curriculum Committee 02/27/2015
Graduate Council
University Senate
Contact Person: Angela M. Jerome, angela.jerome@wku.edu, 270-745-5884

1. Identification of proposed course:
   1.1 Course prefix (subject area) and number: COMM 596
   1.2 Course title: Graduate Internship in Communication
   1.3 Abbreviated course title: Grad Internship in COMM
   1.4 Grade type: Standard Letter Grade
   1.5 Prerequisites/corequisites: 18 hours of course credit earned with a 3.0 GPA and graduate director permission required; restricted to students in the MA in Organizational Communication program
   1.6 Course description: This course offers students a project-based work experience in an organization under faculty direction.

2. Rationale:
   2.1 Reason for developing the proposed course: The stated mission of our program is: “to provide graduate students with engaging, challenging, and rewarding programs integrating communication theory, practice, and problem-based research...Utilizing foundational works and contemporary studies of communication processes, we prepare students to advance in professional and academic endeavors.” What current courses in our program do not offer students is an extended experiential learning opportunity whereby they can gain knowledge of how communication phenomena may be altered due to the actual, real-time organizational circumstances, opportunities and/or constraints that are constantly in flux (e.g., budget constraints, employee morale, and legal/policy issues). An internship course wherein students are embedded in an organization for an extended period of time and asked to complete project-based outputs allows us to offer students such an experience.
   2.2 Projected enrollment in the proposed course: The projected enrollment for this course is 5 students per semester. This course will be one among several communication electives.
   2.3 Relationship of the proposed course to courses now offered by the department: This course will allow students to apply theories, concepts and methods they learn in the first 18 hours of their program in an applied setting.
   2.4 Relationship of the proposed course to courses offered in other departments: Other graduate programs in PCAL have internships (e.g., MPA, Sociology). However, this course will require students to obtain an internship with a communication-related component and to use discipline-specific scholarship and analyses to complete course assignments so there will be no overlap amongst other such courses in the college and university.
   2.5 Relationship of the proposed course to courses offered in other institutions: Communication graduate programs at least three of our benchmark institutions (Ball State University, Northern Illinois, and Northern Kentucky University) offer similar courses.

3. Discussion of proposed course:
   3.1 Schedule type: N
3.2 Learning Outcomes: Students will gain practical experience utilizing communication principles. They will also learn to integrate communication theory and practice and create communication-based outputs for their organization of employ.

3.3 Content outline: The content of the internship will be constructed by the internal supervisor, external supervisor, and the student. The main goal of this course is that students gain practical experience in the field of communication outside the classroom and applies communication theory/concepts in completing a project.

3.4 Student expectations and requirements: Typically, students taking this course will complete between 100-150 hours of service at their agreed-upon internship organization during the course of the semester. The student will have both an internal (WKU) and external (internship-based) supervisor for the internship. For the external supervisor, the student will complete some type of project-based output that will assist the organization in improving their communication in some fashion. The student and the external and internal supervisors will agree on the type and length of the project-based output to be completed and its due date before the internship begins. Along with that project-based output, the student will write a reflection/application paper using guidelines provided by the internal supervisor. That paper will use communication scholarship to assess his/her internship experience/performance and output. A deadline for this paper will be set before the internship begins as well. The internal supervisor will assign the final course grade based on the external supervisor’s assessment of the student’s project-based outcome and professionalism as measured by an assessment device developed by the Department of Communication Graduate program faculty and the internal supervisor’s assessment of the project-based output and reflection/application paper.

3.5 Tentative texts and course materials: No text will be required for the course. However, the reflection paper described in 3.4 will require the use of academic literature.

4. Resources:
   4.1 Library resources: Current library resources will be sufficient for students to complete this course.
   4.2 Computer resources: Current technology resources will be sufficient for students to complete this course.

5. Budget implications:
   5.1 Proposed method of staffing: Current staffing is sufficient; however, if the program grows as we hope, the department might need to request additional faculty lines.
   5.2 Special equipment needed: None
   5.3 Expendable materials needed: None
   5.4 Laboratory materials needed: None

6. Proposed term for implementation: Fall 2015

7. Dates of prior committee approvals:

4. **Rationale for the proposed program change:**
   The Graduate School no longer requires a Research Tool in addition to the hours of coursework required for an MA degree. The first change is to drop the Research Tool Requirement for completion of the Criminology MA degree.

   However, at least half of the hours in an MA degree must be common to all students in the degree. So SOCL513 Quantitative Research Methods, the course formerly used most often for the Research Tool Requirement in Criminology, is being added to the core curriculum as a degree requirement for the Criminology MA degree.

5. **Proposed term for implementation and special provisions (if applicable):** Fall 2015

<tr>
<td></td>
<td>SRSC 590 Sustainability Symposium</td>
</tr>
</tbody>
</table>

4. Rationale: LEAD 500 is being replaced with SUST 512 or SUST 514 for two reasons: The primary reason is address a recurring request to provide students with a broad-based course on sustainability issues. To allow for flexibility in students’ interests and schedules, we are offering a choice of SUST 512 or SUST 514. While other SRSC courses may have sustainability in the title and as one important theme, none of them offer a sustained analysis of principles and solutions. A second reason makes this revision more urgent, and that is that the Leadership program can no longer dedicate a special section for SRSC students that addresses sustainability.

5. Proposed term for implementation: Summer 2015
