The enclosed materials were distributed at the Senate meeting on February 11, 1982.

"Chronology-Recommended Increases" came from President Zacharias and was explained by Harry Robe. Contrary to the statement in the newspaper, the 2/5 plan approximates an increase of $700,000 (for the two years of the biennium) over the Mission Model Application.

The article from the Lexington paper was distributed by Bill Buckman. Note that the second column from the last in the chart assumes that schools will have no drop in enrollment.

The article from the Courier Journal was distributed by Tom Jones.
