THE GOAT GAZETTE presents: Finals Week Advice

**Give up now!** Give up the idea that finals are horrible exams that must be tolerated. Some students actually find finals week to be exciting. Kind of like an athlete that looks forward to getting into the game; be excited about getting into an exam & showing off your skills.

**Drink heavily!** Drink a lot of water and juice to stay hydrated and to get your vitamins, anti-oxidants, etc. Watch out for too much caffeine. Too much caffeine interferes with memory, comprehension, sleep quality and can also lead to irritability and lack of concentration.

**Goof off!** As much as you are studying you also need to be playing. Recreation and exercise improve your capacity to concentrate, they help you manage tension and anxiety, they are good outlets for social support, and they improve your stress tolerance.

**Knock yourself out!** Start getting good sleep before finals and keep it up during finals week. Pulling all nighters may seem like a normal thing to do but most students that are successful in college figured out a long time ago that it is better to study ahead of time and get some sleep.

**Get a big head!** Now isn’t the time to doubt yourself. You made the cut when you were admitted. College can be challenging but thousands of people graduate every semester. Calm down, think about how far you have come and imagine being one of the thousands that graduate. All you have to do is study, know the stuff, and show off on the test!
