AGENDA ITEM 3 - Recommendation for approval of the 2003-04 Combined

Operating Budgets and Faculty and Staff Compensation Report, FY 2003-2004

REQUEST: Approval of the *2003-04 Combined Budgets* and Faculty and Staff

Compensation Report, FY 2003-2004.

FACTS: The General Assembly and Governor Paul Patton have been instrumental in advancing postsecondary education, even during very difficult fiscal times. Significant efforts have been made to minimize the fiscal impact of State revenue shortfalls on colleges and universities. Postsecondary education is recognized as a key component for improving Kentucky's economic base and quality of life for its citizens.

The 2003 General Assembly enacted the 2002-04 Biennial Budget (House Bill 269) that includes a 2002-03 budget reflecting a 2.5 percent recurring state appropriation reduction for colleges and universities in comparison to the 2002-03 Executive Spending Plan. The 2003-04 budget includes a planned state appropriation increase of 2 percent for colleges and universities. The budget reduction and planned increase were distributed in a manner that took into account enrollment growth and the funding model of the Council on Postsecondary Education. For Western Kentucky University, the budget includes a state appropriation reduction of 2 percent in the 2002-03 budget and a planned state appropriation increase of 4.4 percent in 2003-04.

The *Western Kentucky University 2003-04 Combined Budgets* contains the proposed Operating Budget and Capital Budget. The Operating Budget includes Educational and General (E&G) and Auxiliary Enterprises revenues and expenditures. E&G revenue consists of unrestricted revenue - - primarily state appropriations and tuition and fees - - and restricted revenue (e.g., federal funds for student financial aid and extramural funding for grants and contracts). Auxiliary Enterprises revenue is derived from the self-supporting activities of the University such as housing (reimbursed costs from the Student Life Foundation), food services, and bookstore operations. The Capital Budget provides a listing of major capital and lease/purchase projects, funding sources, and the current status of these projects.

The *Combined Budgets* includes the following components:

- Revenue Summary;
- Expenditure Summary by Organizational Area (Restricted and Unrestricted) and an Expenditure Summary by Program Classification Structure (PCS);
- Budget Narratives by area that summarize programmatic expectations and financial information;
- Expenditure Detail by account, and
- Capital Budget.

The *Western Kentucky University 2003-04 Combined Budgets* is the University's financial plan for the fiscal year beginning July 1, 2003 and ending June 30, 2004.

2003-04 Institutional Budget Priorities

Western Kentucky University's 2003-04 Operating Budget reflects the following institutional priorities (*not in priority order*):

- ◆ **Recruit and retain quality faculty and staff.** Funds are needed to provide salary increases in recognition of outstanding performance, to improve the market competitiveness of the University's salaries, and to improve benefits with specific attention given to rising health insurance costs.
- ◆ **Assure academic quality in addressing enrollment growth.** Funds are needed for additional faculty and staff positions and for operational costs to support enrollment growth.

- ◆ **Improve our physical resources.** Funds are needed on an ongoing basis to address campus maintenance and utilities requirements and to protect the University's investment in plant. Funds are required for facilities maintenance and utilities associated with opening the new Multi Media and Technology Hall.
- ◆ **Provide permanent funding for needs that have been met routinely by nonrecurring allocations.** Funds are needed for inflationary cost increases and continued implementation of selected items that are in the University's *Strategic Plan*. Funds are to be allocated for many items for which no permanent funding has been identified in previous budgets.

These priorities are to be achieved through the allocation of projected increases in tuition and state appropriations revenue and through reallocation of existing budgeted funds within divisions.

There are numerous other needs identified for which no funding or inadequate funding is available. Where feasible, additional funding will come from reallocations of budgets within divisions and carry forward funds (prior year balances) allocations.

The Operating Budget totals \$211,788,000 with an Educational and General (E&G) budget of \$196,128,000 and Auxiliary Enterprises budget of \$15,660,000. This represents a total budget increase of 9.6 percent over the approved 2002-03 budget. The Educational and General budget is being increased by 10.1 percent. The Auxiliary Enterprises budget is being increased by 3.0 percent.

Consistent with the 2003-04 budget priorities approved by the Board of Regents, highlights of the budget recommendations include the following:

- The budget recommendations include over \$6.4 million in funding for faculty/staff compensation (i.e., salaries and benefits) and new faculty and staff positions identified as needed especially due to enrollment growth pressures. This represents approximately 59.6 percent of the tuition and state appropriation increase projected for 2003-04.
- Funding is being recommended that will allow the University to fully utilize the newly constructed Multi Media and Technology Hall.
- The budget recommendations include a \$40/month per full-time employee increase in the University's health insurance contribution. This will make the University's contribution \$381/month to be effective January 1, 2004.
- Funds are being provided to increase fellowships, scholarships, and grants-in-aid consistent with approved increases in tuition, mandatory fees, and housing charges, where applicable.
- An average of 3.7 percent in merit pools is being recommended to increase the salaries of full-time and part-time employees, pool budgets (part-time faculty and graduate assistantships), and budget lines for vacant positions.
- In addition to the 3.7 percent increase in the budgeted part-time faculty pool, a modest increase is being proposed to address the market issues surrounding the recruitment and retention of part-time faculty.
- The budget includes a permanent allocation of \$842,000 necessary to replace the nonrecurring funds used to balance the 2002-03 Budget.
- A modest increase is proposed for the General Institutional Expenses budget.
