Memorandum To: Executive Committee, Board of Regents  
From: Student Advisory Committee  
Concerning: Appointment of a President to Western Kentucky University

The Student Advisory Committee acknowledges the vast responsibility that accompanies the appointment of an advisory-screening committee to assist the Board of Regents in the selection of a new President. Speaking on behalf of the student body, we would like to thank you for the opportunity to express our ideas.

Our committee has tried to cohere the thoughts of a majority of our cohorts rather than to selfishly reflect the thoughts of just three students. The following page represents what we believe to be the qualifications (both professional and personal) that the President of Western should possess. We have tried to accept our responsibility in a fashion befitting of the university.

Sincerely,

Paul E. Gerard III
Student Regent
