When people have only been a little while in the Arctic, they
are likely to be a little bit of a kennel and a thing or two.

Dr. Alfred T. Friddle, of the British Museum, who has just
returned from a trip to the Arctic, has brought back with
him 300 birds and many animals and eggs. The collection
is of great importance to the scientific world, and is likely
to be of great value to the study of the Arctic region.

Western Defeats Bethel In Opener In New Stadium

"VISITORS FROM TENNESSEE TOO LIGHT FOR THE HILLTOPPERS; SECOND TEAM TAKES A HAND"

Williams-Winfrey Air

Work Plays Havoc With Score

The first new air to be played at the new $10,000 stadium was a 41-0 victory for Western. The visitors entered Bethel in every position on the 15-minute game, with the exception of only one. They scored touchdowns on a 70-yard punt by Williams, 35 yards by Winfrey, and a 23-yard pass to Winfrey. The second team took the field, and for a short time, Williams gained the game. Williams scored another touchdown and for a short time, the game looked to be a rout. However, Western was able to recover and continue the game. The second half was a scoreless period in the air.

With the touchdowns scored, the game was played with the ball in the air and the opposing team came on the field to challenge the game. The ball was then turned over to the regulars, and the game was continued. The second half was a scoreless period in the air.
