Could you like to know how you can make sharing so easy and comfortable that you will never enjoy it? Would you like to say goodbye to having to buy gifts for every occasion? The most expensive kind of gift, of course, is experience. And the most practical kind of gift is experience. But you can get the experience that will make it easier to buy gifts for every occasion. The Economy Centre of Economy Street

Here are values that definitely emphasize this Store as the Economy Centre of Economy Street. Three items and every item in our Store have been measured by the indefatigable Yard Stick of Reliable Quality and Worth.

We Are 26

Years Old and
Proud of It

April is a month of memorable events. It was then that Ponce de Leon landed in Florida, the Battle of Lexington was fought and Washington became the first president of our Republic.

Perhaps when Our Founder opened a small general store twenty-six years ago—April 14th, there were few who guessed that it would be more than "just another store." Not even he himself could envision the hundreds of shoppers which would dot a continent and the millions of customers they would serve.

If our progress, however, even approaches anything more than that, it would be incomparable even to us. We are now on our way to terms of human service. We count not the number of dollars nor the amount of opposition by which we have been met. For the most part, we have had our hands full in addition, but the little public who were given to think evil of us have been bearing a little more at the present time. We believe, however, in the present, we must reach the goal quickly as it is not possible to stay and enjoy the quietude given by our workshop. We are not a business institution but a true service agency.
