WHY THE CAMPAIGN SHOULD SUCCEED

Because-It is in the interest of a noble cause devoted to advance the present condition and to help young men and women whose virtues, ambition, and purpose are gaining them notice and recognition, and whose lot is to work and to struggle, being surrounded by difficulties and obstacles of many kinds and shapes. They have the same ideals in life as those do who have the best in life, but they are accomplishing their ideals under conditions that are more trying and trying of success than any others, therefore the campaign should successfully succeed.

BECAUSE-The Institution needs the Kentucky Building for elevation and development, and the construction of the same would be a benefit to all students.

BECAUSE-The Foundation helps the student to take the place of the Superior in the educational system of the University. It is provided for the benefit of the student, and to the extent that it is used for this purpose, it is free from taxation. It is, therefore, necessary that it be used for the purpose intended.

The Kentucky Building

Kentuckiana at this time knew the meaning, purpose, and future of the Col. Edllcal and Academic Association - a movement that started in the minds of students, led by a few dedicated faculty members, and culminated in the founding of the Kentucky College.

It was a patriotic endeavor that merited the attention of every citizen in the Commonwealth. The purpose was to raise funds to provide service and whose dividends of more life go to the people.

The building was well designed and constructed, with a central tower and wings extending outwards. It was a symbol of the future that lay ahead for the University.

The gymnasium, a central feature of the building, was used by the students as a place to gather and celebrate their accomplishments. It was a source of pride for the University and its students.

The library, another important part of the building, was a source of knowledge and inspiration for the students. It was a place where they could come to learn and grow.

The Kentucky Building was a symbol of the future that lay ahead for the University. It was a place where students could come to learn and grow, and where the community could come together to celebrate its accomplishments.

As the years went by, the college grew and expanded, with new buildings and programs being added. It was a place where students could come to learn and grow, and where the community could come together to celebrate its accomplishments.
