Campus Interviews on Cigarette Tests

No. 22...THE WOODPECKER

What kind of a square do they take me for?

Woodrow almost bit off more than he could chew when he tackled the cigarette tests! But he pecked away 'til he smoked out the truth! Such an important item as mildness can't be tossed off in a fleeting second! A "swift snip" or a "perforatory pull," proves practically nothing! He, like millions of smokers, found one test that doesn't leave your up a tree.

It's the sensible test... the 30-Day CAMEL Mildness Test, which simply asks you to try Camel as your steady smoke...on a day-after-day basis. No map judgments! Once you've enjoyed Camels for 30 days in your "T-Zone" (T for Thrust, T for Taste), you'll see why...

After all the Mildness tests...

Art Tour Taken By Miss Temple
BY AILICIA HAMILTON
This summer, Miss Ruth Hines Temple, head of the art department at Western, took an art tour through Italy, France, and Great Britain.

After having studied various itineraries all winter, Miss Temple sailed June 26, from New York on the QUEEN MARY. This great White Star liner provided no travel for everyone's tastes during the five-day trip. The international character of the galleries provided a charming assortment for tea at four o'clock; boudoirs at eleven o'clock, and at all meals.

Miss Temple left the ship at Cherbourg, France, and went to Paris, where she spent a week sightseeing. Then she joined a group tour of the Bureau of University Travel and with them studied the art of living and the art examples in such famous cities as Genoa, Pisa, Milan, Venice, Florence, Rome, the Riviera, and other notable spots.

Leaving this group in Italy, Miss Temple traveled to England, crossing the English channel from Dunker to Dover, and joined another group at London. This group took two motor tours through rural Eng- land, visited the Shakespeare country, twelv insurance companies, including Chesterfield Cathedral, and the famous Lake District of England, which included the town of Keswick. The group voted to hold meetings at the Hotel, class in Edinburgh. She sailed for the United States from Southampton on August 22, aboard the British liner.

Night Courses Begin At Trade School

Night courses in "Atta" and trades began on September 26 at the Western

Registration for the classes opens on the night of October 1 with the following subjects offered: theory and practice in machine tool opera-
tion, auto mechanics and repair, electrical theory and practice, mechanical drawing, shop mathematics and blueprint reading, refraction maintenance and repair, and building trades.
