Nine Greats!

When Coach Jack Claryton’s great football team takes the field against Southeast Missouri tomorrow, it is going to line up in the same stadium for nine Hilltoppers. These young men have established themselves in the hearts of all Westerners as outstanding examples of clean sportsmanship, and they have the distinction of being the first team to have carried this year’s team to the next level established by Western football teams since 1923.

It is certain to be a humbling of the entire faculty of the Western Hilltoppers as they prove themselves worthy of their grade. A great team, a great coach, and a great year make this a year to remember.

The Invitational

The invitation to play in this outstanding college football game was extended to the Hilltoppers by the administration of the college. This year’s football team is one of the best in the nation among the smaller colleges. It is a fitting climax for the November 16 game that will be playing their last home game tomorrow afternoon.

The Newcomer

I, as a newcomer in the editorial department of the Herald, have been anxious to hear the reactions of the students toward the religious headmaster. I find that the students are quite interested in the new arrival, and they are eager to know more about him. The new principal, Mr. Johnson, has already made a good impression on the students with his enthusiasm and his dedication to the school.

The Feature Article

By NANDY ATKINSON

Between Cherry Hill and the new expansion from the hilltop to the lake’s edge, one can see the old sports field, which is still in use today. The field was originally used for baseball, but it has been transformed into a football field. The new principal, Mr. Johnson, has already made a good impression on the students with his enthusiasm and his dedication to the school.

The Hilltoppers

By ROY RICHARDSON

When I open this edition and see this headline, I know I will be surprised. Homecoming might be said to have ended for us all, but I am just now coming to terms with the news. All editors should meet a deadline, and I won’t miss the opportunity to write this column. For some reason, I feel that the last Western year has just ended with me still not on top of my game. This will be a good time to take a break and regroup.

The only bright spot that came to my mind was that my roommate began his homecoming celebration with the Homecoming dance Friday evening and did not show up again until the next day at about 1:00 a.m. How could anyone get all the night dance at the armory, he said.

It was a great feeling to see so many of last year’s players earlier in the week. Joe King, through the Oleat Post. He had been in town earlier in the week with a group of friends and we had a good time together.

NOSE, THROAT, and Accessory Organs not Adversely Affected by Smoking Chesterfields

FIRST SUCH REPORT EVER PUBLISHED
ABOUT ANY CIGARETTE

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes.
A group of people from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields — 10 to 40 a day. 45% of the group have smoked Chesterfields continually from one to thirty years for an average of 10 years each.

At the beginning and at the end of the six-months period each smoker was given a thorough examination, including X-ray pictures by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears and throat.

The medical specialist, after a thorough examina-
tion of every member of the group, stated: "It is my opinion that the ears, nose, throat and accessory organs of all participating subjects ex-
amined by me were not adversely affected in the six-months period by smoking the cigarettes provided."
