Dr. Gordon Wilson Reviews ‘Peace At Bowling Green’

Dr. A. L. Greb, for his tenth his- torical novel, ‘Peace at Bowling Green’, is another of his masterpieces. In his previous works, he has given us vivid pictures of the Civil War, Confederate soldiers, and the general life of the times. In his latest book, he continues his theme of war and peace, but with a different background.

The novel is set in the town of Bowling Green in Kentucky. The story revolves around the lives of several characters, including a Confederate soldier who returns to his hometown after the war.

The author has once again demonstrated his skill in creating a realistic and believable setting. The town of Bowling Green is brought to life through detailed descriptions of the landscape, the people, and the social customs of the time.

The book is divided into three parts: before the war, during the war, and after the war. Each part explores the characters’ experiences and their reactions to the events of the Civil War.

The author’s writing style is clear and direct, with a touch of humor that lightens the serious tone of the story. The characters are well-developed, and their relationships are complex and realistic.

The novel provides a unique perspective on the Civil War, showing the impact of war on the lives of ordinary people. It is a compelling read for anyone interested in historical fiction or the Civil War.

Kentucky Bowling Building News

In line with the program of campus beautification, new lights have been installed on the bowling ground. Old and new lights have been set up, and the bowling ground is now more attractive to the eye. The lights have been installed in such a way that they cast a warm glow over the entire ground. The old lights were too harsh and glaring, and the new ones have replaced them.

Miss Clara D. Hendrix, the head of the Bowling Building, has been in charge of the project. She has spent many hours planning and supervising the installation of the new lights. The result is a much safer and more enjoyable experience for those who bowl on the grounds.

Miss Hendrix has also been working on other projects to improve the Bowling Building. She has been working with the grounds crew to ensure that the area is always clean and well-maintained. She has also been working with the maintenance department to ensure that the facilities are in good working order.

Miss Hendrix has been a dedicated member of the Bowling Building for many years. She has been a great asset to the building and its residents. Her work has not gone unnoticed, and she has been recognized for her contributions.

Library Notes

Mrs. Carl D. Hendrix, librarian, has donated several rare books to the college library and the Kentucky Historical Society. These books are some of the finest private collections of the state. They include rare and important works on literature, philosophy, religion, and history.

The private library of Mrs. Hendrix has been a treasure trove of knowledge. She has spent many years collecting and preserving these works, and her donation is a great asset to the library and the community.

The library has also been fortunate to receive a number of books from prominent people. Both from Kentucky and abroad, these books have been an inspiration to the students and faculty.

Library Notes

The college library is one of the finest in the United States. It houses a vast collection of books on a wide range of subjects. The library is open to the public, and it is a great resource for those interested in learning.

Let the ‘W’ Shine

Each year many high school lettermen come to Bowling Green to renew old friendships and to show their support for the university. It is a tradition that has been carried on for many years. The students who have come to the university have brought much joy and pride to the community.

FIVE YEARS AGO — Senator Vinch M. Chapman was re-elected to the United States Senate. He has been a dedicated public servant for many years, and his contribution to the community has been immense.

Why do more college men and women smoke Viceroys than any other filter cigarette?

Because only Viceroys gives you 20,000 filter traps in every filter tip, made from pure natural substances found in delicious fruits and other edibles!

1. Yes, only Viceroys has this filter of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.

2. The Viceroys filter wasn’t just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroys pioneered. Started research more than 20 years ago to create the pure and perfect filter.

3. Smokers once mass REPORT that filtered cigarettes have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.

4. Viceroys draws so easily that you wouldn’t know, without looking, that it even had a filter tip... and Viceroys cost only a penny or two more than cigarettes without filters!

G. G. Craig Urges Pennmanship Taught In Grades

G. O. Craig, head of the pen-
manship department, recently told the public that at a luncheon at the Park Sheraton meeting held September 28, was attended by educators, busi-
ness men, and lovers of handwriting.

The theme of Mr. Craig's speech centered around the idea that all parents and teachers are urged to see that penmanship is taught in the first through the eighth grades as provided by the law. Test books for these courses are free.

"The W. J. O. R. C. Handwriting Foundation is very much interested in the improvement of handwriting for business and other reasons for prospective teachers," stated Mr. Craig. During the past year the National Handwriting foundation spent 650,

000 for this purpose, and will continue to make their budget for next year, $101,000.

Mr. Craig suggested that every good school in the Nation has the opportunity to build a better handwriting. He added, however, that through the work of various foundations and organizations, many people are be-

coming aware of the necessity of penmanship and the increase of business.
