Western Says Welcome

Western, through the special efforts of the music department, has a new and bright future. The music department has attracted 3,000 high school music students and directors who are taking part in the 1957 state music festival which will be held from May 24th and will continue to the following day.

To you, the students who have earned the opportunity to participate in a state music festival, we believe that you will find your visit here enjoyable. Even if you are in doubt about anything concerning the campus, be sure to ask one of the college students or faculty members who are at your service during this weekend to make you feel at home. We are willing to give any advice which you can. We hope you will visit your college and plan to make a visit to the next one.

Each year the number of high school students visiting the campus for the state festival increases. We believe that this is due to the efforts of the music department and also to the work of our) as the best college for music education.

The three-year music festival here will be the next to the highest in the state education department. For the first time in the history of the music department, it will be a big event. The music festival will be held at Hilltop School in May, and the event will be open to all students and faculty members who are interested in music.
