Entered as second class matter at the office of second class matter mail.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the HERALD and be wholly incorrect is referred to the attention of the general manager or editor.

"And This Too Shall Pass Away"

This is a fairy tale we think every parent should read. What is it? It is the song of the children of the world. They are wondering how things can be so beautiful and yet so sad. For there is a crying child near the place where they are playing, and they are longing to know what is the matter. And the fairy tells them: "And this too shall pass away." And the children are contented and go back to their play.

No Longer A Student Proposition

We had intended to stress in this issue the final one of the semester, the many points that seem to us to be of general importance to Western students and faculty, and to the community at large. But we don't believe it is necessary now to go into any great length in explaining what has turned out to be (as our poll this week shows) the view of almost 95 percent of the undergraduate body.

Our original purpose in inaugurating this discussion months ago was merely to try to see if in Western students who are outstanding scholarship students who might get some sort of recognition for their work, and to show the importance and dramatic, the arts, all receive rewards in some manner or another for their achievements. We more or less felt that we were not too far off the truth and our conclusions are supported by the fact that in the last few months we have been there, to the students and faculty, and are beginning to ask questions that is to give the student something tangible to work for.

But, as we said above, since we got a majority of Western students are unconditionally in favor of a plan to establish a local chapter of at least one honorary and if possible several departmental ones on the campus, we are going to concern ourselves with the general statement that is what appear to be the four most important factors which have convinced us that the scholastic honor society has become an integral part of modern collegiate life.

Perhaps the greatest service the honorary renders is that of causing, practically forcing, the average, competent student to push beyond the upper limit of his ability. That far too few are doing this now is a condemnation in evidence of inactivity. The average student at Western this year of 1941 who does not work to the upper limit of his ability is shocking the faculty, students, and the community.

You'll Get A Chance To Prove It Next September

During our tenure as editor of the HERALD we have grown to harbor, with increasing conviction, the belief that the present status of the liberal arts and the college in general, is doomed to make an unprofitable deal unless it is able to show concrete evidence that it is worth the time, money, and effort spent in preparation of the degree. We have attempted all year to hit upon a name, preferably a popular name, with which all students of any college would be familiar, and which would appeal to all students of the college, both faculty, and students.

The college has grown, the college is growing, and the community is benefiting from the growth. The liberal arts and the education provided by them are in the process of such growth and quality of the oral and written expression of views received.

Peace For All Time

I am twenty-one years old. A short college graduation ago I walked through these halls for the first time, looked from Van Meer's steps, and felt something of the hold the tradition, the destiny that is Western.

Strengthening out before me were four long, sheltered years that I somehow were going to be a part of the greatest, most crammed, most memorable of my life. I was right.

They have been. And now I must leave. The last of others which have been in the fight.

The years have passed quickly since that first day when I stood at the old gate, attended my first chapel, heard from somewhere the falld strails of the "Old Timer" quivored as the windmill heritage of the Kentucky Building, looked from the spire's top, felt the wind, saw the shadows laughing.

The years have passed quickly. But they've been good... to Western and to me. Better perhaps than I dreamed. And no matter what happens after this, it's always to be a part of my life... I shall always thank them for this long, long background for a white man's years and pride memories. Other things have suddenly acquired tremendous meaning. And I must go out to right a certain world, notable in green years only for its alarming proof of man's incredible inanity in men, the reality that those who say, "It is not necessary..." are the ones who are most likely to lose their minds for the continuation of this that contains it already is too late.

Today I stand on the threshold of a new existence. The time has come to lay down my grammar, my Latin, my French, the history books, to forget or at least make no use of them. It is time to start speaking of France exploded proved that to me. For the war is to come, and I want to know where I am. And I want to know where I am. And I want to know where I am. And I want to know where I am.

The time has come for action. The time has come to get on with the job. There's no time to put it off. Or, as the time has come to put your foot down of a child and begin the violent transition that 1,000,- 000 men of the United States are going through.

The light that must not fal

"Ultima Thule"

The Light That Must Not Fail

Next year, regardless of whether or not the HERALD becomes a weekly, publication has already been made for a majority of those who are the grandchildren of the college who may want to let their grandchildren become known through the most legitimate methods.

We fully realize that the policy we have adopted must be taken with a grain of salt. This is the first year that the college has ever been successful on the Hill because the radical "student government" element has always been the only group to take advantage of the plan. But Western has grown tremendously in the past few years and we earnestly believe that Westerners will rise to the occasion.

We can guarantee that our two upper floors at least, are going to get the chance to prove it next September.
College High Commencement Exercises Set

Dr. C. H. Jaggers, director of the Training School, has announced the program for the spring commencement exercises of College High.

The Alumni banquet will be held Tuesday, May 27, in the Helix Hotel at 7:30 p.m. Dr. James F. Converse will be the speaker.

Rev. Dewey Kimmel will deliver the Baccalaureate Sermon on Sunday, June 8, at 11:00 a.m. in the First Baptist Church.

The program for the class day exercises will be held on Wednesday, June 4, at 2:00 p.m. in the Little Theater. It will include the history of the 1941 class, the call and the prophecy.

Gwendolyn Billings and Lucille McMurty will be presented Baccalaureate medals in recognition of their scholastic achievements. Both have straight A high school averages.

The程序 will begin at 11:00 a.m., and the exercises will conclude at 1:30 p.m.

McVey, Baxter To Address Grads

(Continued From Page 1)

Monday at 8:00 p.m.

The annual alumni reunion banquet will be held Monday, June 8 at 8:00 p.m. Special reunions will be greater in number by the class unions of the 1929, 1930, 1932, and 1937 classes.

The traditional alumni association banquet will be held at 11:30 a.m. at Shiloh Potter Hall, Greenlie and Elderwood.

At that same time there were 2,000 alumni trained teachers who were without jobs. Of those fortunate enough to have a position a full 2,000 were receiving less than seven hundred fifty dollars per month for their services.

The intensification of our efforts to defend industries and the operation of the service agencies have been the two most important results of the conference.

Having aided Britain up to the point of war, the United States cannot afford to give an ill-wit to the destruction or the obstruction of the Conference. The result of the conference is that the United States has been able to leave the conference.

We must aid Britain, and we will aid Britain. Let us pray that the spring of the United States will be able to obtain an obituary.

Alva Pike visits in Carmelville recently.
**Conference Set for July 10, 11**

The annual Rural Life Conference held at Western and Mammoth Cave each summer as a feature of Western's summer school will take place Thursday and Friday on July 10 and 11, according to a communiston received by President Garrett from William H. McParland, superintendent of McLean County schools.

Mr. McParland, who was elected president last summer succeeding Robert R. Brown, is at present working on the program which promises to be one of the best in the history of the summer event. An effort is being made to work out the schedule for the two-day conference are O. W. Walke, superintendent of McLean County schools, and a local committee headed by Mr. Lee Francis Jones of the education department. The main topic of discussion is expected to be "The Proposed Constitutional Amendment." Wages and merits of publishing the proposed constitutional amendment which passed will be allowed 10 per cent of the funds raised to be distributed among the, and other school officials from more than fifty counties are expected to attend. A fish fry at Mammoth Cave will be one of the social features of the meeting.

**Joe Laftery Made Forum Club Chairman**

Private Joseph H. Laftery, Medical Specialist, assigned to Camp Shelby, Mississippi, is temporary chairman of the Forum Club to be permanently organized. It is an organization of the 38th Division men for the purpose of discussing current events and world affairs.

Weekly programs will be held with topics of current events. Meeting will be held on Tuesdays. The forum will meet for the purpose of discussing current events and world affairs.

**Blind Youth Enrolled Here**

The blind boy whom the students of Western have been seeing upon the campus since the beginning of the April term is J. W. Allen, Sr., of Royalton, Magoffin County, Ky. Allen is at Western studying education, which he hopes to complete by the end of the spring term, so that he can teach music in the public school of Royalton this fall.

He was graduated from the Kentucky School for the Blind at Louisville. He then attended Georgetown College for two years, and in 1939 he received a bachelor of music degree from the University of Louisville.

He owns one of the seeing-eye dogs purchased from the Seeing-Eye training center at Morriston, N. J. He has been blind since he was five years old at which time he lost his sight in a wood chopping accident.

firm belief that the democratic system is not an out-moded idealism, but a workable efficient system that needs only an intelligent citizenry and honest administration to make it the effective embodiment of protection and regulation.

The idea originated in Illinois in 1926, and after being adopted by the national organization of American Legion is now being operated in 26 states. The young men who will register as citizens of Boys State will be sponsored by the various organizations throughout Kentucky, including American Legion posts, churches, and youth clubs. A comprehensive program of outdoor and indoor sports has been worked out for the camp session and the major portion of each afternoon will be given over to the recreational activities.

The board of directors is to present the list of personal and professional, who will work with the boys, and the announcement will be made at an early date.

Youmans Appointed
Vocation Director

Charles V. Youmans, a graduate of Western, has recently been appointed as the Personnel Counsel of the Kentucky Council of Mathematics Teachers, as a corresponding member of the group in Louisville.

Dr. Mabel Rodelli of the education department attended May 6 and 7 the National Convention of the American Association of Secondary Women held from May 1-5 at the Hotel Metropole in Cincinnati.

Dr. Rodelli is the president of the local A. U. W. At the convention there were given discussions and speeches concerning the fields of education, international relations, the arts, and the social studies.

Representatives from Louisville said that approximately thirty A. U. W. delegates came from the city in order to attend.

President Paul L. Garrett of Western Teachers College delivered an address at the "I am an American Day program Sunday afternoon, May 15 at the Memorial Auditorium in Louisville.

President Garrett will enter office on July 1 as president of the Rotary Club. He succeeds J. M. Hamilton, who served as the club's new vice-president, and S. C. L. Reel as the re-elected secretary-treasurer.

Tuesday, May 13, Dr. Judson R. Griffin conducted a tour of the Fort on behalf of the various groups of about forty geography students. It is expected that the tour will be followed by a special dinner and a view of the city's industrial area.

 Cf. "A special dinner was served to the group at noon in the hotel.

In the afternoon the group were conducted to the city's most interesting points of the day and were told of its relation to the textile industry, coal mining, and other industries of the area.

Boys State To Convene June 8

Dr. C. D. June 8 the reservations are being made for the boys state, and other accommodations may be made.

The People Have Spoken...
CLUB NOTES

The Chemistry-Physics club held its annual picnic at the Glamour Lake, May 8, at the Bowling Green Road Club. Between the showers that made breaking in on the fun motor-boat trip the main feature of the evening, about 40 were present.

The Arts and Crafts club held their annual picnic at Beech Bend last Saturday. The usual picnic menu of wieners and burgers was enjoyed by all. The event was up-to-date dancing, boating, and swimming.

Out of State-Bowling Green attended the Out-of-State Club picnic held at Bowling Green last Saturday. The group journeyed to the spot on Barren river in a large truck. Skiing and dancing was enjoyed by all.

Education Council The Education Council held its final meeting of the semester at the Club Tuesday, May 29, at the Kentucky Building.

The program for the evening was: Take It or Leave It. The contest could change the test of the questions wanted to be questioned upon fourteen false in education. Fourteen were volunteered to answer questions. Paul Schumacher, chairman of the Education Council, introduced the program.

The new students who were at the Ques were probably didn't understand the questions. For how-goes such answers as these:

"There would be so many students who would have to make enough money to buy a meal. I can't imagine not having a job."-

All of the questions were answered correctly. The answer 31 of the students who wanted to be asked had one of the questions that they were not able to answer.

The program was conducted by Mr. Jones and Mrs. Smith.

136 Westerners To Get Degrees

The 136th commencement was held Saturday, May 9, at the Bowling Green Road Club. Between the showers that made breaking in on the fun motor-boat trip the main feature of the evening, about 40 were present.

Sensational Murder Trial
of "Dillinger" O'Neil Slated

James O'Neil, "Dillinger" O'Neil previously harbored in the Congress Club Hotel and by-passed in the Congress Club Hotel Guard, was arrested in the Congress Club Hotel March 28 at 6:00 o'clock in Van Meter's hotel. This is he to be presented as the annual Mock Trial of the Congress Debating club.

James O'Neil, a resident of Persimmon with a previous criminal record, is accused of shooting and killing John McClelland in cold blood. O'Neil, who is 40, desired the hand of McClelland's fourteen-year-old daughter at the altar of matrimony, and according to information received from the W. B. I., McClelland was greatly opposed to the marriage. O'Neil is accused of killing McClelland and McClelland after McClelland refused to sign the elopement of O'Neil and the "would-be-bride." O'Neil has served penitentiary sentences for stealing chickens and "moonshining." The latter sentence, which was for 30 years, was recently revoked.

Judge David Matthews will occupy the bench, during the case, the State of Inheritance versus James O'Neil.

O'Neil's counsel is to be led by Father Vance, the Barren County attorney, and the case will be heard in the court room. O'Neil has served penitentiary sentences for stealing chickens and "moonshining." The latter sentence, which was for 30 years, was recently revoked.

First Mobile Transmitter
In U. S. Made Here

The radio division of the N. A. Y. A. resident project has recently completed the construction of a frequency transmitter built by the National Park Service in the N. A. Y. A. project, which is to be used in the National Forests. A small glass oscillator was used in the experimental transmitter. The oscillator was made by the National Park Service.

The oscillator, which is in the process of being built, is to be used in the National Forests. A small glass oscillator was used in the experimental transmitter. The oscillator was made by the National Park Service.

With the completion of the oscillator, the circuit of the transmitter will be completed and commercial transmitters will be constructed.

Young Etcher's Work, Life Story On Exhibition Here

Accompanied by a novel-calls-invitation was the entrance of a 23-year-old, nationally-recognized artist, Bernard W. Welser, who is now an exhibition in Room 300 in Cherry Hall.

The success of the young etcher, who graduated from a Grand Rapids (Michigan) high school with Mrs. Helen B. Welser, has been near-phenomenal, although for a time her enthusiasm was considered to be "just a passing fancy." In 1894, she received third prize of 10,000 yen from Bulletin Magazine's annual art competition. Following this, her entry in the National Livelihood Board's best poster contest was rated twelfth, in competition with 14,000 entries. Then she was chosen for a two-year scholarship to attend the Kansas City (Missouri) Art Institute. There, at the Missouri school, patronized by James Watson, friend of painters and etchers, she chose etching as a medium of her artistic expression. Six months later, in July 1914, she was accepted by the Board of Directors as an active member in the Chicago Society of Etchers; and recently was chosen by the American Federation of Arts for "Who's Who in American Art" in etching. Her prints have had two exhibitions in the past eight months. Outstanding in the collection new works are "Evening Storm" which was highly praised by Eleanor Lewis of the Chicago Tribune, and also "Market Place," which was the subject of the Library of Congress from the walls of the annual exhibition of Contemporary American Art in the National Academy after the print had been accepted there for a month's booking.

The collection, obtained through the auspices of Malcolm Arnett, a former Western student whose work was shown here several months ago and a friend of Welser, in the Kansas City Art school, will remain on exhibition through Monday, May 30. A work conference in curriculum building. In the curriculum building work there will be an opportunity for cooperative activity upon important problems of curriculum building with the idea of setting up programs looking toward the improvement of teachers in service. A recent change will be made open on June 2 and continue intermittently two weeks. This period, there will be opportunity exhibitions in the library of education and care of visual machines, and the school will demonstrate and modern visual aids. Training in the use of visual aids will be available to any that are interested and who may be interested. Information concerning the rural life conference is carried elsewhere in this issue of the HERALD.

Other ideal gifts include: a diamond, bingstone and beautiful set of rings; Pearls, Cameos, pins, rings and necklaces.

Fountain Pen and Pencil Sets, Teasets, Watch Chains, Billfolds, Belt Buckles, Cigarette Lighters and Cases, and many others priced from 60c up.

Sitting On Top o' The World

Or are they? They've graduated into a world of competition—fighting against hundreds of other young contestants-holders and men and women of long experience, But congratulations to the Class of June, 1941! It's made up of young folks, full of ambition, untried, yet unafraid. They know what they want, and they won't stop until they get it. More power to them.

We play a very important but silent part in helping you young folks win success. We serve you in many ways and "grow" with you. Learn to save money so you may be prepared for what the future may bring. Open an 'account today! Become acquainted with your savings.

Congratulations to the class of 41 of Western, B. U., Bowling Green Hi, and College Hi.

**Tennis, Frosh Track Teams Win State Titles**

Dannaway Cops State Golf..Crown As Team Loses

For the second straight year, Fred Dannaway, Western's ace of the fairways, captured the Kentucky State Intercollegiate Golf Championship, while his three mates fared less fortunately, and the powerful University of Louisville foursome grabbed the team championship, 982-1,030. The match was held at the Bernie Golf Course at Louisville, May 15 and 17.

Dannaway earned a 154 Friday, which, coupled with a 76, Saturday morning, gave him a three stroke lead for the individual honors. Whitney O'Bannon, pushed Dannaway with an impressive 233.

The Western ace also shot the low score for eighteen holes when he carded 71 on his first trip around Friday, two strokes over par. O'Bannon shot a steady 72 Saturday morning as the boys bucked a stiff wind.

U. of Louisville's accomplished football player, Marion Langen, grabbed third place in the tournament with a 212, while Cornell Murr
took fourth position with a 214. George Reed, who took 90 on the final round, was one stroke behind the Westerner.

Bill Harrell also a Cardinal.

**Kirby Leads Netters To KIAC Crown**

Gooch Kirby, Number 1号 hitter tennis player, won the singles division of the Kentucky Intercollegiate Athletic Conference meet on Monday of last week at the University of Kentucky, defeating Centre's Wally Hoth in the final 7-5, 2-6, 6-2.

The Western doubles team of Crouse and Bertnorm advanced to the finals of that division of the tournaments and thereby clinched the team championship for Western. The match was held at the University of Kentucky and involved two rounds of ten points in the two divisions with the winners of each match, which

**Baby Tracksters Beat Berea, Big Brothers Finish Fourth**

Although Western's Hitters came in fourth in the state track meet at Berea, May 12, the Baby Tornadoes came through with the best squad and captured 40 points to top Berea 4-1/4 points in the freshet division.

The Berea College Mountaineers took the varsity championship, for the third straight year, with 61 points. The University of Louis
town rounded 31-3-4. Western in fourth place was 62 points farther in front of fifth place, Georgetown and Centre failed to score.

Bill Gilbert of Berea broke the record in the 200 yard dash, which was held by White of Western as he clocked the distance in 21.9. Bob Wiley was high-point man.

**SUCCESS IS NO ACCIDENT**

Western's outstanding record dates over a long period of time and Western's record for quality and service has been outstanding in Bowling Green and adjoined territory since 1911.
**Diddleden, Trapple Breds; Outlast Tennessee Nine**

On May 13 the Western baseball nine proved that Western still reign supreme over their arch rivals, the Murray Thoroughbreds, by taking both ends of a doubleheader 3-2 and 9-3. In the first game, Murray opened with their ace pitcher McKeef on the mound. McKeef held the Diddleden successors until the fourth, giving up only one hit, a single by Walden in the third. During this time Murray was picking up three runs on bombers by Odom and Crumley. Western, coming behind, scored two runs in the ninth inning to go on to the 9-3 victory. From the third inning on,0hison was unhittable, giving up only one hit.

In the second game, Coach Diddleden sent Martin Hoeboek to the mound against A.A.M. Western opened with a four run surge in the first and went on to a 5-3 win. Dinkle led off with a single, followed by Odom, giving the Bombers a 2-0 lead. Hoeboek held the offense to four hits and a walk as the Bombers won 9-3.

The Diddleden defeated the Mud-
Thoroughbreds in their final home game on last Tuesday. Thorough- 
brids played the last game with all of their best players at the plate. In the ninth, Greer, with a made a big hit on the ball, drove a long fly into right center. On a close decision at the plate, Umpire Fred Blackwell called Greer out on a relay from Dodd to Bolton. This brought the entire Tennessee team on the field.

Play was resumed after a few minutes of heated argument. The next batter fouled on Bolton on the final out, leaving Western with an 8-0 victory.

The Thoroughbreds take over for Danville where they will play Center in a single game this afternoon. They will move on to Richmond for a game or two, and next Tuesday will wind up the current season with the Diddleden on the T. P. I. P. for the final game of the year.

**Guillelre Made Wesleyan Coach**

Arthur T. Guillelre, A.B., 1909, was recently made athletic director, a position that he has held since his graduation from Wesleyan College at Richmond. He has been coach at Lindsey Wilson at Columbus for the past six years.

A native of Hattiesburg, Miss., he attended junior college at Columbia Southern and received his degree at Western in 1909, and his M.A. from the University of Kentucky. He was high scorer in football in 1909 and won letters also in basketball, baseball, and track.

Guillelre began coaching at Mer-
gatehd in 1909, and his football team was the Little Sixteen champions the following year. His basketball teams won three district championships. His basketball teams at Lindsey Wilson won 122 games and out 21 in six years, and captured the junior college state title each year since organization of the association four years ago.
Casualties In Gym Reported Increasing; Fountain Erupts

By John Steacy

Winston Rogers, a second semester Freshman, was severely slashed about the face and hand when he attempted to drink from one of the fountains in the Western Gym Wednesday.

Rogers was given first aid on the job by Coach Dan Stanford, first aid specialist. When Miss Reddy, the college nurse arrived on the scene of the accident, it was decided to take him to the hospital immediately.

"The water from the fountain had soaked the inside of his mouth beyond recognition. The evisceration stream has slashed his face and neck to such an extent that it was necessary to remove him to the hospital with the utmost care."

Four other students, Darlene Wells, May Pass, Richard Barnes, and Louis Grant, who were standing near the fountain when Rogers attempted to drink from it, were Injured slightly by the flying jets of hot water. Wells and Barnes were each injured on the face while Pass was soaked on the hand and Grant on the leg.

Yesterday at the hospital, Rogers related the story to a group who were allowed to see him for only a short time.

"I had been one of my physics classes, and as the weather was rather warm I had become heated in the activity," he mumbled through bloodshot eyes and a burned face. "I walked over to the fountain to make my thirst. Of course I knew the water would be warm, but I had no idea it would be that hot, though I have burned myself before. I was talking to my friends—when I have heard; I was injured also—when I turned the water on. I had a terrific sensation of looking into the face of Old Phthisis as it erupted, do result the intense pain from the first puff of steam, but that was the last thing I knew until I awoke here in the hospital."

"Oh, it was terrible—like being shut inside those poor bacteria, he wailed. "I have been called a tanned galaxite, now I suppose I am a boiled one."

The Herald immediately began a thorough investigation of the matter and learned that this was the fifth accident of its kind in the last two months, though the other four were not severe enough for great concern.

The Herald also interviewed many students on the subject, and all expressed the opinion that a new drinking system was needed at the gym.

J. Alexander Wilgutekins, a senior, said: "The gym needs cold drinking water everywhere or any other building, yet the students are forced to drink hot-water-temperature water the year round!"

This system at the Gym must be eliminated at all costs. It is a great handicap to our students, to our nothing of the undesirability of drinking hot water," commented Rodgexc N. Stashwitz.

"I have been told that there is a modern refrigerated fountain in the basement of the gym, but for some slight mechanical disorder it is not being tried. We must have this or another! Better still why not one each day. There are over a dozen on the hill yet the Gym of all buildings does not have one. It is fifth Column action, scolding the President of Western to make them helpful for service," shouted a student also that his name be kept a secret.

Netters' Record Stands At 7-2

The Western netters successfully closed their home season last Friday afternoon when they defeated the TPI tennis team, 3-2. The win gave the Toppers a record of five wins and a single loss on the home court, the defeat coming at the hands of the University of Kentucky. The season's record to date, with three matches remaining to be played, stands at seven won and two lost.

The doubles play of the Toppers was especially encouraging to Coach Horshack. Dero Downing and Bert Bourne won the No. 1 match 6-4, 6-3, and Gorko Kirby and Dick Crouch won the other encounter 7-5, 6-2. This marked the second time all year that the Toppers had been able to win both doubles matches.

In the singles KIAC Champion Kirby, Bourne and Winky Eells won their matches. Bourne and Kirby each dropping but two points, and Kirby dropped a tough three set affair and Bourne a four set derriere. Kirby was No. 4, Crouch No. 6, and Eells No. 8.

The final match of the T. P. I. match Coach Horshack announced as the deciding set for the season. The group composed Gorko Kirby, Bert Bourne, Dick Crouch, George Williams, Dero Downing, O. A. Wilmott, and Winky Eells. Bourne and Williams will receive a small gold trophy this year making their third as jettser earners. The others will receive sweaters.

Ferrall, Skinner, Bryant Receive Fellowships

The following派遣 were received in the mail yesterday from the Western University:

- Terry Ferrall, a Big Sandy, Ohio, has just received a graduate fellowship at Vanderbilt University.
- Richard Bryant, a Big Sandy, Ohio, will continue his work in the field of chemistry. He received his undergraduate degree from Western and his B.S. degree from Vanderbilt University.
- William C. Skinner of Auburn, KY, has just received a graduate fellowship at Vanderbilt University. Mr. Skinner will do graduate work in the field of Physics. He received his B.S. degree from Western.
- Joseph A. Bryant, Jr. of Bowling Green, KY, has just received a graduate fellowship at Vanderbilt University for his work in the field of Physics. Mr. Bryant will continue his work in the field of Physics. He received his A.B. degree from Western, and his M.A. degree at Vanderbilt in June.


