Center for Teaching and Learning will ‘Stimulate Dialogue’

By Sheila Conway Eison

The Center for Teaching and Learning has become a reality on campus.

In a letter to faculty last month Dr. Robert Haynes, vice president for academic affairs, announced the opening of the Center and the first in a series of monthly workshops in desktop publishing and state-of-the-art equipment for the production of instructional materials.

"The Center has been a dream on campus, starting with President Meredith, and extending to many others," says Dr. Livingston Alexander, associate vice president for academic affairs, who will oversee the Center’s operations in conjunction with a faculty advisory council.

"The Center for Teaching and Learning is truly an asset to Western Kentucky University," President Meredith said. The emphasis Western has traditionally given to excellence in teaching will be enhanced by the many opportunities the Center will offer in the future to faculty and graduate teaching assistants," he said.

The primary purpose of the Center is "to be the central stimulus for dialogue about the whole process of teaching and the role of teaching in the University setting," Alexander says.

"It will also serve as a resource for full and part-time faculty and graduate teaching assistants who may use the Center to try out promising strategies and innovative techniques that involve the use of technology as a vehicle for stimulating learning in the classrooms," he says, adding:

"Faculty may also use the Center’s activities to increase their own personal satisfaction with their teaching, to increase discussion about teaching, and to increase the likelihood that they will share the successful strategies that they use with others across campus."

Funded by the U.S. Department of Education through a Title III grant, the Center has a firm commitment from the University for its existence when federal funding ceases.

"The University’s Western Twenty-One document puts the Center in the highest priority of academic resources which illustrates the University’s commitment," says Alexander.

Phase one of the Center’s operation was to find a location, and presently it occupies half of the Ground Floor of the Cravens Center with a satellite location on the second floor of Helm Library.

“We will eventually occupy the entire Ground Floor of Cravens, but the other half is currently occupied by the Office of Admissions,” Alexander explained.

(Student services on campus will eventually be housed in Potter Hall when renovation is completed.)

The Center is coordinated by Dr. Ed Counts of media services, and staff include also Leslie Frank as instructional technologist and Ronald Schildknecht as media production specialist.

“These are three talented and creative individuals who will provide ongoing service and consultation,” said Vice President Haynes.

Workshops presented in January included designing, producing and using effective visuals in instruction and desktop publishing for the production of effective
On Campus

Western Kentucky University

February 13, 1991

FROM THE PRESIDENT

Introducing On Campus

I am very pleased to introduce faculty and staff to a new On Campus, which is an internal communication service designed to keep you completely informed about campus news and events.

Prepared by the Office of University Relations, On Campus will be published twice a month. In this column, From the President, I will provide you with information from the Office of the President and the Board of Regents. This newsletter, which is a result of combining various newsletters on campus, will also include news and feature stories about you and your colleagues, as well as information from various units of the university.

For example, news and information previously provided by the Office of Personnel Services in The Personnel File will now be available to you in On Campus.

I appreciate your many contributions in making the 1990-91 academic year one of the most successful in this institution's great history.

Our record enrollment for the fall and spring semesters serves as a testimony to the Spirit on the Hill. We have that something special at Western that is envied by many others.

Your commitment to our students is the key to our success, and on behalf of the Board of Regents, let me say thank you for that commitment.

-Thomas C. Meredith

Regents Break Ground for New Halls

Ground was broken Jan. 15 on campus for construction of two residence halls which will house 376 students.

"I think this is a continued example of teamwork, working for the best interest of the students at Western," said Joe Iracane, chairman of the WKU Board of Regents. "We're excited; it's long overdue, and we're trying to fill the void that we have on our campus for housing."

The three-story buildings will have almost 110,000 square feet of living space and cost more than $7 million. They are financed through the sale of bonds which will be repaid through housing fees.

One hall will house primarily students in sororities; the other is reserved for students with at least a 2.0 grade-point average and 61 credit hours who have been in continual good standing with the University.

The buildings will be located at the corner of University Boulevard and Normal Drive, near Peace-Ford Tower.

"When I came here, one of the first things I discovered was that WKU was unique in terms of its housing program," said WKU President Thomas C. Meredith. "We have a constant demand for all of the rooms that we have. An awful lot of institutions of higher education across the country would love to have that problem."

Spring Enrollment Tops 14,000

Enrollment for spring is up for the fifth straight year, according to preliminary figures released by President Meredith at the quarterly meeting of the Board of Regents Jan. 31.

The figures show 14,125 compared to 13,890 for the 1990 spring semester, an increase of 535 full-time students.

This is the first time spring enrollment has topped the 14,000-mark. The fall fall 1990 count was 15,240.

In one of several academic program recommendations, the board approved the establishment of a master of arts in education program in interdisciplinary early childhood education.

The program was developed in response to the Kentucky Education Reform Act and federal legislation mandating educational services for children ages 3-5 who have handicapping conditions, Dr. Meredith said. The 33-hour masters program will train students in an interdisciplinary program in the College of Education and Behavioral Sciences and the College of Arts, Humanities and Social Sciences.

Dr. Carl Marrtray, dean of the College of Education and Behavioral Sciences, said there is already a demand for the program, which will combine courses already offered at Western with five new courses. "We have students literally waiting in line for this program," he said.

In other action, the Board:
- approved reinstatement of a bachelor of science program in environmental science;
- approved a minor in women's studies;
- approved audits of federal and other grant and contract awards and WKU-FM and WKYU-TV;
- approved a new policy and procedure for the periodic evaluation of deans reporting to the vice president of academic affairs;
- approved the appointment of Dr. Rex F. Galloway as head of the Department of Management, effective July 1;
- approved the appointment of John F. Corn as photojournalist-in-residence in the Department of Journalism; and
- approved the employment contracts for assistant football coaches.

Student Computing Centers Open

Student access to personal computers has improved with the opening of new student information technology centers on campus.

The centers, funded through a $10-per-semester student fee approved by the Board of Regents last year, will contain a total of 65 networked IBM-compatible computers and printers with a variety of software, according to Dr. Jay Sloan, director of academic computing and research.

Centers are on the second floor of Helm Library and Downing University Center. Labs will be open to students with valid WKU student identification, Sloan said, adding there is no fee for use of the computers or for printing.

Each center will operate during normal hours for that building.

All three centers will be networked and will offer software support with MS-DOS, Word Perfect, Lotus 1-2-3, D-Base, Basic and the statistical program SPSS. Sloan said Pagemaker, Typing Tudor and a computer-aided drafting program are scheduled to be added soon.

The University currently has student computer labs in Thompson Complex, Grise Hall, Science and Technology Hall and Tate Page Hall. As computer terminals are replaced, the systems will be designed so that there will be a "uniform set of procedures and equipment for our students to use," Sloan said, adding:

"We will be setting up the new and changing the old so that anything you can do at one center you can do at any other center."

The Office of University Relations regularly solicits news tips regarding faculty activities, achievements and awards. To submit news items for external media consideration, contact Bob Skipper (4295).

Expert Says Schools Must 'Grow People’

By Sheila Conway Eison

"Even though site-based means de-centralize your leadership, administrators have to be stronger and more sophisticated to make quality decisions," Martin said, adding: "You must grow people constantly, and this includes your office and building administrators. Don't leave anyone untrained."

School-based or site-based decision making (SBDM) is basically a process of shared decision-making. Within six years all Kentucky schools must have SBDM in place, but schools may choose when to establish the process as long as one school in each district implements it the first year.

Under SBDM, decisions are made by councils at each school, made up of a team of teachers, parents and the school leader, usually the principal.

Before he came to Kentucky, Martin had experience as a public school superintendent in Colorado working with school reform in that state. His address at WKU focused upon the frustrations and unknowns that can be expected in change.

Although he said de-centralization of leadership may appear to be "driving on chaos," Martin assured administrators that they could expect and should be prepared for ambiguity.

"Don't make rapid decisions. Look at them hard. Give yourself permission not to know answers," he said.

Dr. Michael "Mick" Martin spoke to school leaders on Site-Based Management.

Martin advised school leaders to create parameters — limit what you are going to do, say, one year, proceed slowly and always seek training.

He cautioned educators not to hurry in implementing changes, rather than concentrate on consensus-building in decision-making.

"If you have one pilot in a school, let the other teachers watch the ones doing the new things, and let them learn from one another," he suggested.

"You will have two kinds of responses in your schools, the one who want to 'throw it all out' and those who want to 'leave it alone,'" Martin said.

"Make them get involved," he said.

"Finally, listen to parents. They have perspective. Keep them informed." A reaction panel made up of school leaders, a teacher and a parent responded to Martin's address.

Mae Metford, principal of Potter-Gray Elementary School in Bowling Green, said she sees the principal's role in school reform to be one of maintaining focus, balance and as interpreter.

"My school has worked closely with Western Kentucky University in learning about this process of school reform, and we feel really involved. They'll (WKU) break it down for you so you can understand what's going on," she said.

Randyl Kimbrough, superintendent of Warren County Schools and a member of the state Council on Higher Education, also commended WKU for its role in contributing to forums so that the state's school leaders can be informed.

"The real reason for site-based decision making in the schools is to improve the education of the children in the Commonwealth. Keep in mind it is not for the teacher or administrator convenience.

"If we can involve everyone — teachers, parents, community leaders, then moving through the trials of school reform will be made easier," Kimbrough said.

Following the meeting, Dr. Joe Gormely, who directs legislative affairs for the Kentucky Association of School Administrators and also serves as executive secretary to the Kentucky Association of School Superintendents, offered perspective as a lobbyist for school leaders.

"I see three dangers. One is impatience on the part of taxpayers and business. We have to tell people we need time to implement the changes we need," he said.

Second, Gormely warned against allowing partisan politics to get involved. "Reform means dollars and commitment, and we have to convince our individual legislators that these changes cannot be restricted to one administration and then dropped.

"Finally, we have to convince leadership this is a process that has to be fine-tuned."

Ed's note: On Campus will provide regular updates on activities of the Center for Excellence in School Reform.

All campus events and activities must be scheduled on the University Calendar. To reserve facilities or to place your event on the calendar, contact Gene Crum (4295) in the Office of University Relations.
Symposium on Philosophical Issues, WKU-GLASGOW received four awards from the regional conference. Four featured presenters for the Liaison Training Session.

College of Business Administration

DEPARTMENT OF ACCOUNTING
Dr. Robert Hansen presented "Changing Management Accounting Curricula for the Twenty-First Century" at the Canisius College Accounting Conference in Buffalo, N.Y.

DEPARTMENT OF ECONOMICS
Dr. Kenneth T. Cann presented a paper on "High School Economics and Student Performance in College Economics," and Dr. Daniel Myers presented a paper on "Kentucky Housing Affordability" at the 16th annual Kentucky Economic Association meetings. Cann also served as a discussant at the Ohio Valley History Conference on campus for papers on "World War II: The Experience of Participants." Dr. Richard Cantrell presented a seminar on Production, Planning and Control to engineers at a Manufacturing Engineering Conference at the University of Kentucky.

Dr. Brian Goff presented a co-authored paper, "On the (Mis)Measurement of Legislator Ideology and Shiring," Dr. H.Y. Kim presented a paper on "The Nature of Public Goods: Theoretical and Empirical Analysis," Dr. Moosa Valinezhad was a discussant for papers in Economic History and Dr. John C. Wasson served as chairperson for papers dealing with Monetary Policy at the 60th annual meetings of the Southern Economic Association in New Orleans.

Dr. Charles Roberts presented "Apparent Real Wage Differentials and Covariance, Agricultural Laborers: 1870-1940" at the Economic History Association meetings in Montreal, Canada.

College of Education and Behavioral Sciences

CENTER FOR ENVIRONMENTAL EDUCATION
Joan Martin, program coordinator, conducted a workshop at the Kentucky Council on Child Abuse Annual Conference on "Educational Materials for Parenting Groups." Also, she traveled to Quito, Ecuador, to work with the country's national program to prevent abuse to women and children.

DEPARTMENT OF PHYSICAL EDUCATION AND RECREATION
At the Kentucky Association for Health, Physical Education, Recreation and Dance, Dr. Thad H. Crews received a Distinguished Service Award; Dr. Charles Crum presented a paper on "Black Powder Shooting." Drs. John Jones and William Meadors presented a paper on "A Longitudinal Analysis of Pre-Service Teacher Concerns," Richard Farley, Crews and Robert Cobb presented a paper on "Validity of the Putrex 5000 for Assessment of Body Composition" and Dr. Charles Daniel presented a paper on "Practical Physical Testing for Seniors." Daniel is vice president for recreation of KAHERD, Dr. Steve Spencer is vice president-elect and Mary Cobb is president of the dance section.

DEPARTMENT OF PSYCHOLOGY
Dr. Kevin Hughes, assistant professor, has won the 1990 Distinguished Dissertation Award given by the Mid-South Educational Research Association. His research, completed last March at the University of Alabama, consisted of "Academic Achievement Motivation Training With Pre-Adolescents."

College of Science, Technology and Health

Ogden College of Science, Technology, and Health

DEPARTMENT OF AGRICULTURE
Orville W. "Pete" Dotson III has been re-appointed by Gov. Wallace Wilkinson to serve a four-year term on the Kentucky Soil and Water Conservation Commission.

DEPARTMENT OF ALLIED HEALTH
Lynn Austin presented a paper on "Cleft Lip/Cleft Palate: The Team Approach" at the 12th annual Interdisciplinary Health Care Team Conference in Indianapolis.

Dr. Ruby F. Meador was one of six appointed to serve on a national task force to review the American Association of Dental Schools structure.

Becky Tabor presented a workshop on component planning at the Kentucky Dental Hygienists' Association's Leadership Conference.

DEPARTMENT OF BIOLOGY
Dr. Robert Hoyt has completed work at the Dunstaffnage Marine Research Laboratory in Oban, Scotland on the role of developing sense organs in the formation of feeding behavior in juvenile flatfish. While there, Dr. Hoyt was designated as honorary fellow of the Early Life History Society of the Scottish Marine Biological Association. Dr. Hoyt also worked at the Graduate Center in Toxicology at the University of Kentucky identifying the otocony of early feeding behavior of the fathead minnow and studying the influence of pH and chromium on early behavior of larval fathead minnows and channel catfish.

Dr. Charles Kupchella chaired a session on "Application of Nuclear Techniques in the Life Sciences" as part of the international conference on Applications of Nuclear Techniques at Heraklion, Crete, Greece, followed by presentation of an environmental workshop for the science faculty at Somerset Community College. He also has been named to the board of directors of the Kentucky Center for Public Issues based in Lexington.

DEPARTMENT OF CHEMISTRY
Dr. Rita Hessley presented a paper...
paper on  "Women and Careers in Chemistry: Why Not?" at the 11th biennial Conference on Chemical Education.

DEPARTMENT OF COMPUTER SCIENCE
Dr. Greg Baur presented papers at the International ADCIS Conference in San Diego on "The User Interface in Interactive Systems" and "The Use of Telecommunications Technology in Learning Environments: Present and Future."

Dr. Robert Crawford presented a paper at the Turbo Users Group Conference, based on work completed during a sabbatical leave as editor of the Turbo Users Group Tyglines.

Dr. John Crenshaw presented a paper at the Kentucky Academy of Science meeting on "Software Development Methodologies: Object-oriented vs. Waterfall."

Dr. Darlene Pigford presented a paper at the International ADCIS Conference in San Diego this fall on "Using Expert Systems as an Authoring Tool for Interactive Video-Disk."".

Dr. Art Shindheim presented a paper on "A Course in Automated Reasoning" at the Kentucky Academy of Science meeting.

Carol Wilson presented two papers at the KA\$ meeting, "Development and Evaluation of a CS1 Laboratory Course" and "Forming Teacher Alliances."

DEPARTMENT OF GEOGRAPHY AND GEOLOGY
Dr. Mark Lowry was awarded a Fulbright-Hays Grant to study in Argentina.

DEPARTMENT OF HEALTH AND SAFETY
Henry Baughman has presented seminars on first aid, CPR, stress and sleep problems to area industries, nurses associations, and county extension agencies in recent months.

Dr. J. Glenn Lohr has been elected to the American Public Health Association, Section Council for School Health Education and Services. At the organization's meeting, Lohr and Dr. Ray Biggerstaff presented a paper on "Evaluation of a State-funded Rural Health Practicum for Community Students." Biggerstaff serves as project director of the Area Health Education System Community Health Component which the paper evaluated.

DEPARTMENT OF MATHEMATICS
Dr. James Barksdale participated on a panel of visiting lecturers at Cumberland College sponsored by the Mathematical Association of America who addressed students on "Money, Coconuts and Afline Transformations." The panel addressed faculty on "Another Look at the Binomial Theorem."

Dr. Tom Richmond presented a paper on "Posets of Ordered Compactifications" at the fifth International Conference on Topology and its Applications in Dubrovnik, Yugoslavia.

Dr. Joseph F. Stokes presented "A Look at Mathematical Thinking" at the national meeting of the School Science and Mathematics Association.

DEPARTMENT OF NURSING
Dr. Mary Hazzard presented a paper on "Attitude of Foster Parents Toward AIDS" at the fourth International Conferences on AIDS, Education in San Juan, Puerto Rico.

DEPARTMENT OF PHYSICS AND ASTRONOMY
Dr. Thomas F. Cockhill spoke on "Lasers in Biophysics" at the American Physical Society meeting in Minneapolis. Also, he has been appointed to the Commission International de L'Eclairage which is charged with the development of worldwide standards for UV Action Spectroscopy, and to a U.S. Dept. of Agriculture panel to review grants involving ultraviolet radiation monitoring.

DEPARTMENT OF JOURNALISM
Jo-Ann Huff Albers has been named co-chair of the cooperative committee of the Association for Education in Journalism and Mass Communication and the American Newspaper Publishers Association. She also has been re-elected chairman of the publications committee of the Association of Schools of Journalism and Mass Communication and has been elected to the steering committee for the William Randolph Hearst Foundation Journalism Awards Program.

Gil Stengel was honored by President Meredith for development of the new WKU logo and for work on the University's graphics standards manual with Tom Meacham, University Relations office.

Carolyn Stringer has received a Medal of Merit award from the American Advertising Federation for service as the AAF division chair for 1989-90.

DEPARTMENT OF MODERN LANGUAGES AND INTERCULTURAL STUDIES
Jim Wayne Miller has received the Appalachian Educational Service Award from Carson-Newman College.

Luz Maria Ulpierre has received a Visiting Scholar award by Pennsylvania State University to teach a course this summer on women in the arts and humanities. She also is a guest writer at the University of Kansas.

DEPARTMENT OF MUSIC
Dr. Michael Kallstrom has received a 1990 Al Smith Fellowship from the Kentucky Arts Council in musical composition. He also has been awarded one of four residencies provided by the Ucross Foundation Residency Program to devote to musical composition.

DEPARTMENT OF PHILOSOPHY AND RELIGION
Dr. Jan Garrett presented a paper on "Aristotle, Ecology and Politics" at the fifth international Conference on Social Philosophy.

UNIVERSITY LIBRARIES
Nancy Laird and Sue Lynn McGuire presented "An Opportunity to Meet Every Kind of Person: A Kentuckian Views Army Life" at the Ohio Valley History Conference hosted by WKU.

Riley Handy has received the Publications Design Gold Award by the Southeastern Museums Conference for a poster, "Piece by Piece."

Patricia M. Hodges presented "Elizabeth Madox Roberts: A Weaver of Tales," at the Women's Studies Conference on campus.

CREDT IN THE CREDINT
Valerie C. Kinder, president, has been elected first vice chair of the Kentucky Credit Union League's board of directors.

Potter College of Arts, Humanities and Social Sciences
DEPARTMENT OF ENGLISH
Joe Millichap served as co-director and principal humanities consultant for a week-long seminar, "The Mountain Man's Frontier," at Northern Colorado University. He also was instrumental in helping draft a position statement on the teaching of college-level writing for the Association of Departments of English seminar at Indiana University, and has a review of new books on John Steinbeck appearing in Modern Fiction Studies. Millichap is listed in the 1991-92 edition of Who's Who In the South and Southwest.

Gretchen L. Niva chaired a session on "The Role of Technology in the Emerging English Curriculum" at the 80th annual Convention of the National Council of Teachers of English in Atlanta. She is an at-large member of the NCTE's Standing Committee on Affiliates.

Dr. Joseph Survant is among 21 Kentucky artists to receive the 1990 Al Smith Fellowship from the Kentucky Arts Council. His award was for writing. Survant's poetry has appeared in numerous national and international publications.

DEPARTMENT OF JOURNALISM
Jo-Ann Huff Albers has been named co-chair of the cooperative committee of the Association for Education in Journalism and Mass Communication and the American Newspaper Publishers Association. She also has been re-elected chairman of the publications committee of the Association of Schools of Journalism and Mass Communication and has been elected to the steering committee for the William Randolph Hearst Foundation Journalism Awards Program.

Gil Stengel was honored by President Meredith for development of the new WKU logo and for work on the University's graphics standards manual with Tom Meacham, University Relations office.

Carolyn Stringer has received a Medal of Merit award from the American Advertising Federation for service as the AAF division chair for 1989-90.

DEPARTMENT OF MODERN LANGUAGES AND INTERCULTURAL STUDIES
Jim Wayne Miller has received the Appalachian Educational Service Award from Carson-Newman College.

Luz Maria Ulpierre has received a Visiting Scholar award by Pennsylvania State University to teach a course this summer on women in the arts and humanities. She also is a guest writer at the University of Kansas.

DEPARTMENT OF MUSIC
Dr. Michael Kallstrom has received a 1990 Al Smith Fellowship from the Kentucky Arts Council in musical composition. He also has been awarded one of four residencies provided by the Ucross Foundation Residency Program to devote to musical composition.

DEPARTMENT OF PHILOSOPHY AND RELIGION
Dr. Jan Garrett presented a paper on "Aristotle, Ecology and Politics" at the fifth international Conference on Social Philosophy.

UNIVERSITY LIBRARIES
Nancy Laird and Sue Lynn McGuire presented "An Opportunity to Meet Every Kind of Person: A Kentuckian Views Army Life," at the Ohio Valley History Conference hosted by WKU.

Riley Handy has received the Publications Design Gold Award by the Southeastern Museums Conference for a poster, "Piece by Piece."

Patricia M. Hodges presented "Elizabeth Madox Roberts: A Weaver of Tales," at the Women's Studies Conference on campus.

CREDIT IN THE CREDINT
Valerie C. Kinder, president, has been elected first vice chair of the Kentucky Credit Union League's board of directors.

On Campus is published biweekly on Wednesdays during the academic year and monthly during the summer by the offices of University Relations: Sheila Elson, Editor, Fred Hensley, Director of University Relations. Center Will Stimulate Dialogue

Continued from page One

classroom and professionals materials. With a limit of ten participants per family, they filled easily, Counts said. "The key to making the Center successful is that faculty will think of it as 'their center, family-owned,'" said Counts, adding: "We welcome suggestions on proram offerings.

Five workshops are scheduled for the rest of the month. In addition to the workshops, faculty can receive one-on-one help, Alexander said. "Another exciting feature about the Center involves a grants competition for faculty," Alexander has announced. "Two $1000 grants will be awarded this semester to faculty in a department in Potter College, to be announced after the Center's Faculty Advisory Council has met, Alexander explains.

Next year ten are planned. Eventually, there will be opportunities for faculty in each of the four academic colleges to apply for one of 12 grants per year per college, he says. The awards will go to faculty developing courses for the new general education requirements and to courses in conjunction with school reform in Kentucky. "An important function of the Center also is to allow faculty who want to view their own performance to videotape themselves to monitor their own teaching," Alexander said.

"We have the capabilities of Dr. Charles Anderson, director of telecommunications, and his staff and their expertise in technological advancement committed to the Center," he added. Western's Center reflects a national focus on Centers for teaching and learning. "For example, Ohio State University has a state-of-the-art Center for Excellence in Teaching, a real model," Alexander says. "Others that are more similar to ours at Western which are also focused upon the teaching and learning process include Appalachian State, Kennesaw State in Georgia, the University of Delaware in New Jersey, and Western reflect that commitment to teaching," he said, adding: "Focus is on reestablishing the link between what we do as teachers in the process of learning."

Members of the Teaching and Learning Center Advisory Council: Kenneth Modessit, Computer Science; Curtis Wilkins, Chemistry; Richard Aldridge, Accounting; Peggy Keck, Finance and MIS; Eula Monroe, Teacher Education; Phillip Duff, Psychology; Joe Glaser, English; Cheryl Keyes, Modern Languages and Intercultural Studies; James Heck, WKU-Glasgow, Frances Perdue, English and David Jones, Communication and Broadcasting.

Rita Collins - Music, Senior Secretary
John Corn - Journalism, Photojournalist-In-Residence
