Homecoming 1994:

Remembering academia too

Homecoming 1994 at Western Kentucky University offers an invitation to everyone associated with the University, faculty, staff, alumni, students and friends, to come to the campus to celebrate or to reminisce about good times spent with associates at WKU. Organizers want this year's celebration to include all elements of the university, from academe to social to sporting activities. Perhaps, in years past, Homecoming has been popularly associated with the annual football game, but there is much, much more to Homecoming to see and to experience. See pages 4 and 5 for a complete listing of activities.

What's Inside

INTRODUCING OGDEN COLLEGE

NEWS AND YOU
Pages 6 & 7
INTRODUCING THE OGDEN COLLEGE,

Western's Ogden College of Science, Technology and Health

The Ogden College of Science, Technology and Health has a long-standing reputation for quality. Graduates have been very successful — rising to the top of their professions across America. Providing instruction in the basic, applied and clinical sciences, agriculture, health programs, mathematics and technology, Ogden College offers numerous majors and minors as well as many support courses and general education offerings.

Instruction is provided at the associate, baccalaureate and master's degree levels, and, in partnership with the University of Louisville, cooperative doctoral programs are available in aquatic biology and chemistry. "Educating students must be our primary concern and an outstanding faculty must be maintained," said Dean Martin Houston. "The end result has been the recognition of Ogden College and Western as a center of educational achievement in teaching, research/scholarly activity and service."

The faculty have received regional, national and international recognition for teaching, scholarship and service:

• The Coal Science Center in the Department of Chemistry continues to excel in the acquisition of equipment. The completion of a fluidized bed combustor has resulted in eight contract and research projects in eight months worth more than $400,000;

• The recent acquisition by the Department of Computer Science of two new Sun workstations and six x-terminals provide a different platform and new technology for students. This will acquaint those students with an environment similar to what they will encounter in the job market. Beginning in the fall of 1993, the Computer Science Accreditation Board accredited one of the programs in the Department of Computer Science;

• Seven Kentucky elementary school teachers completed several manufacturing and construction activities directed by faculty in the Department of Industrial Technology during the summer. The teachers learned how to use technology education to integrate various curriculum areas in ways that capture student attention, such as designing and developing products and establishing manufacturing systems to produce the products in a classroom setting;

• One of the College's mathematics graduates, Terry Wilcutt, piloted the space shuttle Endeavour this month;

• The College has four endowed professorships with a fifth professorship that is partially funded;

• Three of the College's faculty members, Dr. Gordon Jones in agriculture and Drs. James Davis and Nicholas Crawford in geography and geology have received national recognition for their teaching ability;

• Dr. Carroll Wells in mathematics received a statewide distinguished teaching award; and

• Dr. Wayne Mason, Department of Biology, received the University Award for Teaching.

Faculty members have received grants for many projects, including:

• A National Science Foundation grant to establish in the Department of Engineering Technology a model laboratory to support the industrial hygiene program;

• A two-year grant for the project "New Connections -- Partnerships Between Mathematics Faculty and K-8 Teachers;"

• Two grants from Kentucky PRISM-UG for a mathematical modeling course development project and a project on computer experiments in probability;

• A grant from the Kentucky Council on Higher Education for two summer mathematics institutes for elementary and middle school teachers;

• Major grants to fund research in using neutrons on coal analysis and non-intrusive inspections of luggage and shipping containers for contraband; and

• A NASA grant to extend the Kentucky Space Grant Consortium project for five years.

Internationally, faculty and students have been quite active this year. Dr. Mary Hazzard, head of the Department of Nursing, and nine nursing students spent two weeks in Guatemala providing health screenings for more than
SCIENCE, TECHNOLOGY AND HEALTH

200 children. Dr. John Riley of the Department of Chemistry spent the fall of 1993 on a lecture tour of the People's Republic of China. Other faculty have been invited to present papers or lectures and participate in research projects in Europe, Canada and several countries in South America.

The College is making other changes to keep up with the educational needs of its students. One example is moving the Social Work Program to the Department of Allied Health, creating the Department of Allied Health and Human Services.

Ogden College students routinely train in the field, working in the "real world" with business and industry. Some are involved in applied learning projects, such as the annual concrete canoe race sponsored by the American Society for Engineering Education.

The WKU team, under the direction of Matt Detman of the Department of Engineering Technology and entering its second competition, won the regional race this year, earning a spot in the national competition in New Orleans.

Relevance and quality will be encouraged throughout the College, and Dean Houston has indicated that emphasis will be placed upon expanding health programs and further development and publicizing of the environmental science program. A third emphasis of the College is to improve the technology within the College to include the latest in communications, computing, multi-media instructional equipment, laboratory teaching apparatus and research capability. Houston plans to "actively pursue University, state, federal and private financial support to achieve these goals for the benefit of students and faculty."

For ideas on how you can influence the quality of education at Western Kentucky University, contact Dean Martin Houston at (502) 745-4448 or R.M. (Bob) Rutledge III, Vice President for Institutional Advancement, at (502) 745-6208.

Festival of Friends
Downing University Center
South Lawn
2 p.m.--4:30 p.m.
The Sixth Annual Festival of Friends will once again come alive with a festival of activities including live entertainment, food and tailgating!

Department of Industrial Technology
10 a.m.-2 p.m.
Department of Industrial Technology
10 a.m.—2 p.m.
Open House in the lobby of the Environmental Science and Technology Building. Call 502/745-3251 for more information.

Football Kick-Off
5 p.m.
WKU Hilltoppers vs Southern Illinois
Half-time entertainment will include the Big Red Band and the presentation of the Homecoming Queen and her court.

The Step Show
7 p.m.
Diddle Arena
Call 502/745-2459 for more details.

SUNDAY, OCT. 23
A Homecoming Concert
Department of Music
3 p.m.
Van Meter Auditorium
The WKU Symphonic Band and University Choir. See ad, right.

ALL WEEK
WKU Information Center Hours:
Weekdays, 9 a.m.—5 p.m.
Saturday, 10 a.m.—4 p.m.
Call 502/745-4293 for more information.

Minority Student Support Services
2 p.m.—4:30 p.m.
Alumni will gather at the MSSS tent in the Festival area.

Craig Alumni Center
During Homecoming Week
(October 17-22), the Office of Alumni Affairs will have the doors of the Craig Alumni Center open to all alumni and friends during the following hours:
Monday—Wednesday, 8 a.m.—4:30 p.m.
Thursday, 8 a.m.—8 p.m.
Friday, 8 a.m.—8 p.m.
Saturday, 9 a.m.—2 p.m.
Call 502/745-4395 for further information.

University Libraries
October 22, 1994
10 a.m.—2 p.m.
Helm-Cravens Library: Can't "Twist and Shout" but alumni can see the old gym's transformation into a high-tech information center. Self-guided tour brochures available at main entrance.

University Libraries
October 22, 1994
9:30 a.m.—2 p.m.
1830s log structure open for self-guided tours; costumed interpreters demonstrate early Kentucky crafts.

Western Kentucky University
Department of Music Presents
Homecoming Concert
Featuring the University Choir and Chamber Singers and Symphonic Band
Sunday, Oct. 23, 1994 3:00 p.m.
Van Meter Auditorium
Free
Gary McKercher and John C. Carmichael, Conductors
Music by Mendelssohn, Byrd, Fucik, Gould, Rimsky-Korsakov and others

The NCAA peer-review team will visit WKU Nov. 6-9 as part of the Division I Athletic Certification process. The team will be chaired by Hoke Smith, president of Tolkien State University. WKU's 188-page report, addresses governance and commitment to rules compliance, academic integrity, fiscal integrity and commitment to equity, and an overview of the history and mission of WKU athletics. The WKU Steering Committee includes Fred Hensley, University Relations, chair; Barry Brickman, Athletics; Freda Eggleton, Registrar; Rob Evans, Student Government, Jimmy Feix, Phys Ed and Recreation; Pam Herrford, and Jim Richards, Athletics; Bill Kammer, Athletics Committee; Robert M. Rutledge, Institutional Advancement; Betsy Schoenfeld, Psychology; Kyle Wallace, Academic Advising; and Steve White, Accounting.
The Department of Music Presents

HISTORY
Richard V. Salisbury, Professor of History, presented The Diplomacy of Hispanismo: Spain, The United States and the Caribbean Region, 1900-1914 at the Inter-American Conference hosted by the University of North Florida in Jacksonville, Fla. in September.

Science, Technology and Health
CHEMISTRY
Within the last eight months the Thermal Analysis Laboratory and the Coal and Fuel Laboratory in the Department of Chemistry have been awarded nine research and instrumentation grants from different agencies. The total amount of external funds from these grants is $475,412. They are:

Acquisition of a Quadrupole Mass Spectrometer, $31,827 (Research in Undergraduate Institutions Program); W.P. Pan, Project Director, J.T. Riley and D.W. Slocum;

Chlorine in Coal, $8,000, the Illinois State Geological Survey and the Illinois Clean Coal Institute, W.P. Pan;

The Behavior of Chlorine During Coal Combustion in AFBC Systems, $114,980, the Electric Power Research Institute, W.P. Pan, Project Director, and J.T. Riley;

Utilization of Elemental Analyzers in Multidisciplinary Research Projects, $30,955, the LECO Corporation, J.T. Riley, Project Director, W.P. Pan and L.B. Hughes;

Co-Firing High Sulfur Coal with Refuse Derived Fuels, $139,940, the U.S. Dept. of Energy, W.P. Pan, Project Director, J.T. Riley and W.G. Lloyd;

Application of Differential Scanning Calorimetry and Fourier-Transform Infrared Spectroscopy to Planetary Surface Exploration, $10,000, the Kentucky Space Grant Consortium, W.P. Pan, Project Director, and J.T. Riley;

Surface Analysis Applications and Research with a Glow Discharge Spectrometer, $101,900, the LECO Corporation, J.T. Riley, Project Director, D.L. Harper and W.P. Pan and

Behavior of Chlorine During Coal Combustion, $25,000, Kentucky DOE/EPSCoR Traineeship Grant, W.P. Pan and J. Keene.

In addition to the faculty listed as principal investigators, three visiting scholars, six graduate students and ten undergraduate students will be involved in the various projects.

Note: About You is devoted to listing professional achievements (papers presented, awards, appointments, or other special recognition) of WKU faculty and staff. Send items addressed to: About You, % On Campus, Office of University Relations.
Public radio fund drive starts Oct. 28

WKU’s Public Radio Service begins its on-air fall membership drive Friday, Oct. 28, and it will run through Saturday, Nov. 5. As a major source of music, news and information for south central Kentucky and portions of Tennessee and Indiana, Western's Public radio helps define the image of WKU. Faculty and staff are often called upon to share with the listeners their knowledge, and give local or regional Insight into news events and public affairs. Promotion of University activities and cultural events encourages visitors to the campus.

For those who have never visited the campus or had any contact with Western faculty and staff, the Public Radio Service may be their only link to Western. This is a responsibility taken very seriously by WKU-FM, and this is the reason membership is so important, station officials say.

For more information about becoming a member of Western’s Public Radio Service, call Melinda Craft at 687.

COUNSELING SERVICES CENTER

ECONOMICS
Dr. Stephen Lile’s Analyzing Differences in Expenditure Levels Among States was published in the Proceedings issues of the Midsouth Academy of Economics and Finance, Vol. 18, pp. 458-463, 1994. Dr. Lile has completed a study for the Fayette County Urban Government, Comparisons of Household Tax Burdens for Selected Cities in Kentucky and Ten Other States.

MARKETING

Dr. Lou Turley and Dr. Ron Milliman co-authored Atmospheric Research; Past, Present & Future Directions in Development in Marketing Science Vol. 27, 1994.

LIBRARY SPECIAL COLLECTIONS
Jonathan Jeffrey has two entries in Vol. 20 of Encyclopedia USA, one on temperance leader Edward C. Delavan (1793–1871) and one on Kentucky Governor Joseph Desha (1768–1842).

Looking for something to do? Call the Campus Events Line for the latest activities on campus.

WCFL (Western’s Campus Events Line) is a two-minute recorded listing of campus activities, such as concerts, lectures, theatre productions and sporting events.

It’s recorded weekly by Jeff Younglove, Coordinator of Radio and TV Services, in the Office of University Relations.

Russell Miller Theatre
Anything Goes
by Cole Porter
Oct. 12, 13, 14, 15, 16

Anything Goes is a delightful comedy romp nicely spiced with the best of songs by Cole Porter. I Get A Kick Out of You, Let’s Misbehave, Blow, Gabriel, Blow, and the title song highlight the musical score. The story is a love story that takes place on board a cruise ship bound for Europe. Billy stows away on the cruise to be next to his beloved Hope, whose mother wishes her to marry an English nobleman. Reno Sweeney, a noted entertainer and guest on board ship, helps out her old pal, Billy, by ‘entertaining’ the English nobleman so Billy will have a clear field with Hope. Another celebrity passenger is Moonface martin, Public Enemy Number 13. In order to remain undiscovered as a stowaway, Billy must use many disguises, that also involve Moonface. The 1991 updated script which will be presented at Western varies from the 1934 original, but the love-conquers-all theme is still in place and the music is simply divine!

For times, call 5845.

The Department of English presents
Dr. John Lewter, two-time winner, Los Angeles Drama Critics Award
Stage and TV Drama: Marketing your Script
Monday, October 24, at 7:30 p.m.
Cherry Hall 125
Visiting Writers Series

Dr. Lewter is a former member of the WKU English faculty. He now lives and writes in New York. His writing credits include a series pilot sold to Walt Disney and a TV script sold to Hearst Viacom.

The lecture is free
For more details, call Mary Ellen Miller, 5721 or Pat Taylor 5998.
